Peerless Starting Batteries

Sold on 60 Days Trial
Guaranteed for 18 Months

Ford Owners!
$13.95
Wood Box Type
Not Illustrated

We Save You From $7.50 to $15.00 on each Battery

THE Peerless Battery we ship on your order will duplicate your present battery in the important respects—voltage, terminals, size and shape. IN ORDERING A BATTERY BE SURE TO GIVE US THE MAKE, YEAR AND MODEL OF YOUR CAR. If battery is wanted for car not listed below, write for price, giving us the same information. We can furnish Peerless Batteries to fit any make car.

Always Give Us the Make, Year and Model of Your Car

Order a Rubber Case Battery.

Solid rubber case batteries are the latest and best development in battery construction. The solid rubber case is made in one piece, complete with jar compartments. It does away with leaky cells. It is practically unbreakable. It cannot be damaged by mud, water or oil thrown from the road or from stones and other objects that the wheels may throw against the battery box. We can furnish PEERLESS Batteries with this splendid rubber case in almost every type. Just above we show an illustration of our PEERLESS Rubber Case Battery.

Why We Can Guarantee PEERLESS Starting Batteries for Eighteen Months' Satisfactory Service.

PEERLESS Battery construction includes the following excellent features:
Hand pasted plates filled with correctly varied lead oxides. Selected cedar separators. Molded rubber covers sealed around posts with pure gum gaskets. Terminal posts surrounded by well to permit thorough bushing and proper sealing. Terminals interchangeable with those on battery originally supplied with car. Heavy molded lead connectors connecting cells. Wood type have high grade rubber jars, convenient firmly imbedded handles and hardwood boxes covered with acidproof paint, with dovetail corners dowel locked.

Why You Should Buy a Peerless Battery.

PEERLESS Starting Batteries are guaranteed for eighteen months' satisfactory service. With proper care they will give you good service for a much longer period.

PEERLESS Batteries are sold on sixty days' trial. Use your PEERLESS Battery for sixty days. At the end of that time, if you are not fully satisfied with it in every way, send it back to us and we will return the purchase price, together with any transportation charges you may have paid.

PEERLESS Batteries are the standard product of a well known manufacturer of high grade batteries. There is not a better made battery on the market today. This is proved by PEERLESS construction and everyday performance. PEERLESS Batteries have ten years of factory service behind them. Thousands and thousands of motorists can testify as to their excellence.

PEERLESS Starting Batteries are shipped to you promptly direct from the factory, fully charged and ready for use. You save $7.50 to $15.00 on the price you would usually pay for a starting battery of similar type, capacity and quality. PEERLESS Battery quality, together with their amazingly low prices make them the best buy for your battery dollar.

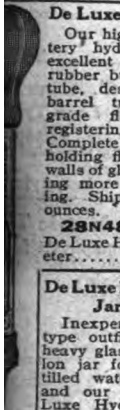
HYDROMETER OUTFITS.

Leader Hydrometer.

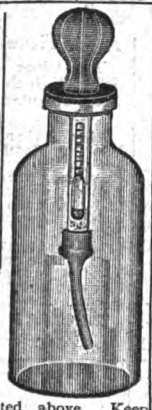
A practical, inexpensive battery acid testing syringe comprising hydrometer, rubber bulb, glass and rubber tube. Instructions for using. Shipping weight, 8 ounces.



28N10192 Leader Hydrometer... **65c**

Leader Battery Filler Jar Outfit.

Outfit comprises heavy glass jar, one-half gallon size, for storing distilled water for battery, hydrometer, rubber bulb, glass tube and rubber tubing. Jar has bail or handle for handy carrying and cork top with opening for inserting hydrometer when not in use. Label on jar has spaces for recording battery readings systematically. Shipping weight, 4½ pounds.



28N10824 — Leader ry Filler Jar Outfit, complete with hy- eter..... **$1.35**

De Luxe Hydrometer.

Our highest grade battery hydrometer. Has excellent quality durable rubber bulb and rubber tube, desirable straight barrel tube and high grade float accurately registering cell gravity. Complete with shoulders holding float away from walls of glass tube, insuring more accurate reading. Shipping weight, 12 ounces.

28N4851 De Luxe Hydrometer..... **69c**

De Luxe Hydrometer-Jar Outfit.

Inexpensive, popular type outfit. Comprises heavy glass one-half gallon jar for storing distilled water for battery and our 28N4851 De Luxe Hydrometer as listed above. Keep hydrometer in jar when not in use. Shipping weight, 4⅝ pounds.

28N7168—De Luxe Hydrometer-Jar Outfit, complete with De Luxe Hydrometer..... **$1.10**

Challenge Hydrometer.

A low priced practical battery hydrometer. Comprises rubber bulb and tube, glass tube and reliable, accurate hydrometer float for registering specific gravity of acid in battery cells. Shipping weight, 8 oz.

28N8672 Challenge Hydrometer... **45c**

28N15016

28N15017

Bracket A.

Bracket C.

28N15028—Remy Replacement Two-Post Universal Coil, Bracket C Type. (Coil not illustrated.) Use for Chevrolet 490 1918-22, Reo 1914-15 and Studebaker 1914-17. (Shpg. wt., 2½ lbs.) **5.98**

IGNITION COILS.

High Quality Replacement Transformer Coils. For Many Standard Cars.

High quality Transformer Coils for many standard cars, replacing the equipment coil. These Replacement Coils are of unusually high quality and we guarantee them to give satisfactory service for the life of the car. Furnished as listed below in 6-volt type.

28N15016—Replacement Coil for Connecticut System. Has special watertight porcelain top. For use on Allen 1914-19, Briscoe 1915-19, Chevrolet 1914-17, Crow Elkhart 1915-19, Dort 1915-18, Lexington 1915-19, Mitchell 1914-17, Overland 1916-18 and Willys-Knight 1916-21. (Shpg. wt., 2¾ lbs.)..... **$5.98**

28N15017—Replacement Connecticut Coil. Use on Allen 1920, Briscoe 1920-21, Crow Elkhart 1920-22, Dort 1919-22 and Overland 1919-22. (Shpg. wt., 2¾ lbs.)..... **$5.98**

28N15023—Remy Replacement Two-Post Universal Coil, Bracket A Type. (Coil not illustrated.) Has bakelite tube, enameled metal top, silicon steel laminated core and rustproof terminals, base and brackets. Use for Apperson 1916-22, Auburn 1919-22, Briscoe 1915-16, Chalmers 1916-22, Chevrolet 1917-21, Elgin 1917-19, Grant 1917-19, Mitchell 1917-22, Paige 1916-19, Reo 1915-19, Studebaker 1918-19 and Velie 1918. (Shpg. wt., 2¼ lbs.). **$5.98**

Magneto Cable.

High Tension (secondary), Magneto or Spark Plug Cable, rubber covered. Comes 11/32-inch in diameter (9 M. M.). Widely used on Briscoe, Buick, Chalmers, Chandler, Chevrolet, Dodge, Ford, Hudson, Hupmobile, Maxwell, Nash, Oakland, Oldsmobile, Saxon and Studebaker cars. Shipping weight, per foot, 2 ounces.

28N6358—Per foot..... **5c**

Armored Primary Cable.

Armored Primary or Low Tension Ignition Cable. Shipping weight, per foot, 2 ounces.

28N8310—Armored Primary Cable. Per foot..... **5c**

High Tension Cable.

High Tension Cable with braid covering. Comes 14-gauge, 5/16 inch diameter. Especially adapted for cars listed under 28N6358 cable above (not illustrated). Shipping weight, per foot, 2 ounces.

28N6372—Per foot..... **5c**

Low Tension Cable.

Low Tension and Lighting Cable. Comes 14-gauge, 3/32 inch diameter with double braid covering (not illustrated). Shipping weight, per foot, 2 ounces.

28N6380—Per foot..... **3c**

Battery Testing Meter.

Combination. Registers from 0 to 35 amperes and from 0 to 14 volts. Use as voltmeter to test voltage and as ammeter to test amperage of dry cells or storage batteries. Nickel plated. Shipping weight, 5 oz.

28N5204—Volt-Ammeter... **64c**

Peerless Storage Batteries. Guaranteed for 18 Months.

Fully charged. Adapted for ignition, lighting and all general storage battery purposes, except automobile starting. Length of batteries, 7¼, 9¾, 10 and 11½ inches, respectively. The small size is for ignition, and is 6¾ inches wide and 8¾ inches high; the larger sizes are for lighting or ignition, and are 7½ inches wide and 9 inches high. Battery sizes given above are over all. One ampere lamp load is equivalent to 6-candle power at 6 volts.

Sizes and Prices of Peerless Storage Batteries.

	Type of Battery	Shpg. Wt., Lbs.	
28N8521½	6-V. 40-Am.	31½	**$12.20**
28N8510½	6-V. 80-Am.	45	**15.95**
28N8507½	6-V.100-Am.	51	**17.98**
28N8505½	6-V.120-Am.	57	**19.98**

NOTE—All lighting batteries shipped from factory in NORTHEASTERN ILLINOIS or SOUTHEASTERN NEW YORK, whichever is nearer to you.

All weights given on this page are approximate and may vary a trifle.

Universal P. V. Ammeters.

A high grade ammeter adapted for all makes of cars and all makes and types of electric lighting and starting systems of all voltages. Used as standard equipment on many cars. Comes in black enamel finish, flush type; has black dial with silvered figures. Range is 30-0-30 amperes. Over all diameter, about 2⅝ inches. Complete with fittings for mounting on cowl dash. Shipping weight, 10 ounces.

28N10490—P. V. Ammeter..... **$2.45**

r other standard car equipment articles see 60 or ask for a copy of our latest Catalog of otive Supplies, 512GCN, sent POSTPAID on t.

Car Equipment

d Car Window Anti-Rattlers.

A neatly nickel plated little device which stops window rattling. Rubber tip in end of set screw keeps steady even pressure on glass when screw is turned down. Lock nut holds set screw firmly in place and it from vibrating, etc. Shipping weight, either ounces.

P785, Heavy Duty.

An excellent spark plug of heavy duty type. Used for Chalmers, Hupmobile, Grant, Elgin cars, etc. (Not illustrated.) Shipping weight, 5 ounces.

28N13133—Splitdorf Heavy Duty Type Spark Plug, ⅞-inch size..... **65c**

Van Kerr Transformer

This well known device forces the current going to the spark plugs to jump an air gap near plug to secure a hotter, more explosive spark at plug firing points. This helps burn up oil deposits or carbon on plug points and to secure more complete explosion of gas vapor in cylinder, aiding in economical and efficient motor operation. It has regularly sold at several times our remarkably low price. Use one for each cylinder. Shpg. wt., each, 2 oz.

28N6337..... **15c**

Parts for Connecticut Ignition System.

28N7915—(2700) Interrupter Lever with Tungsten point. Each..... **36c**

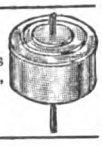
PISTON TITE Rings

Three-piece piston rings, individually cast.

Poor compression and loss of power are often due to the worn condition of piston rings. The excess oil passing worn rings forms carbon and fouls the spark plugs, causing irregular firing.



NOTE—In ordering be sure to state make, year and model of car and size of ring. Measure diameter of ring with the points of ring separated by about the thickness of a sheet of paper. Also state (width height) of ring.

PISTON TITE Inner Rings

Stop piston slap or oil pumping due to worn pistons, cylinders or piston rings with these high grade tempered steel Pistontite Inner Rings. Make your motor operate with its former power, compression and fuel economy by installing an Inner Ring under each piston ring. They keep the piston in proper position; their design aligns the piston ring face perfectly against the cylinder walls. Their installation may save reboring or grinding cylinders or replacing the pistons. It is absolutely necessary to use a Pistontite Inner Ring under every piston ring to secure proper results. Furnished in sizes listed below, in sets of six only.

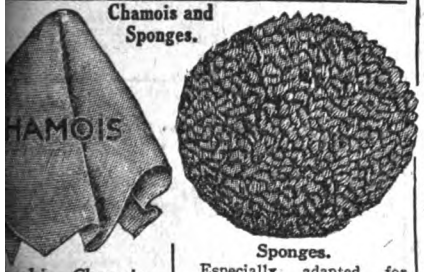
BRAKE BAND LINING



s splendid lining is widely known and used under gular trade name and sells regularly at prices far the remarkably low prices we quote. The splendid y of our brake band lining, together with the lowest ever quoted on high quality lining, has made us the t handlers of brake band lining sold direct to the user. s lining is firmly woven of carefully selected asbes- ber with fine brass wires twisted into each strand r. It is solidly woven, retaining its compactness and It has the necessary body for drilling and counter- g for rivets. It is impregnated with a special com- giving protection against the action of water, oil, or dirt. It is as tough, strong and enduring as lining can be made.

lining external brake bands 10 to 16 inches in er, cut lining ⅝ inch longer than brake band. ends, allowing lining to bulge in center. To ends, mark position of holes, pierce lining with rill the holes, insert rivet with head on outside ke band and clinch into place with riveting tool 9, described and illustrated elsewhere on page.

Woven Asbestos Type. Furnished in sizes listed below.

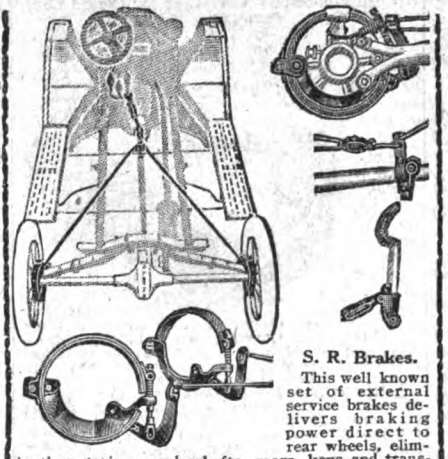
You Need These Riding and Driving Aids

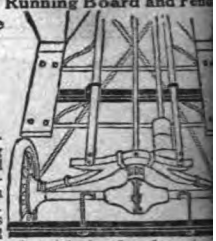


Transmission Lining

White Stripe Lining.
A splendid widely advertised brake lining which we believe is the strongest and most durable plain lining made for Ford transmission bands. Woven from tough long fiber hose cord yarn. Has more cotton to inch and more yarn than any other lining. A special process for treating the threads keeps them soft and pliable, protecting them from hot oil, and giving them unusual wearing qualities. Comes in set of three pieces, complete with rivets. Shipping weight, per set, 14 ounces.
28N4731—Set... **$1.48**

Advance Cork Feltback Lining.
Improved type. Felt back cushions braking action, equalizes grip around transmission drum and floods lining surfaces with oil during braking action, preventing lining burning. Felt absorbs oil thrown up by flywheel, acts as oil reservoir and holds cork inserts in place. Cork inserts grip smoothly, instantly and firmly. Shipping weight, per set of three, 14 ounces.
28N9222—Set **$2.15**

S. R. Brakes.
This well known set of external service brakes delivers braking power direct to rear wheels, eliminating strain on axle shafts, gears, keys and transmission bearings. Enables driver to stop car without jarring or chattering of transmission brake band, reduces skidding and wear on transmission. Brake bracket and band are attached to rear axle housing and connected by cable and equalizer, using present brake pedal. Does not interfere with present emergency brake. Instructions furnished for installing. Shipping weight, 14⅛ pounds.
28N13347—S. R. Brakes, per set... **$11.75**



Pressed Brake Shoe.
Pressed from one piece. Flexible and efficient. Worn linings can be quickly replaced. Furnished in sets of two, complete with brake springs. Shipping wt., per set, 3 lbs.
28N11710 Per set... **$1.25**

Put in a set when old band linings are worn instead of relining old bands. To take out pre bands, remove upper half of tr mission case and install lined ba which are fitted with removable lug. When new bands require rel take them out through top plate, r and replace them without rem upper half of case, removable end making easy the removing and rel of bands. Shipping weight, 4¾ po
28N12089
Per set of 3... **$3**

Running Board and Fend

Brace Set.

For strengthening running boards and fenders to reduce vibration and rattling. Comprises substantial metal brace rod, with hooks fastening frame near center. Shpg. wt., 10½ lbs. **$1**
28N10112¼

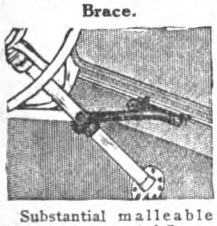
Regulation Transmission Band Lining.
Comes in a set of three pieces, complete with rivets. A well made brake lining, chemically treated to insure long wear and smooth operation. Used for low gear, reverse and transmission brake. (Not illustrated.) Shpg. wt., 13 oz. **42c**
28N11761—Per set...

Asbestos Transmission Band Lining.
High grade long wearing Asbestos Transmission Band Lining. (Not illustrated.) Comes in sets of three pieces. Complete with rivets. Shipping weight, 1 pound. **95c**
28N10932—Set...

Reverse and Brake Wrench.

Saves much time in adjusting reverse and brake pedal tension spring nuts. Ratchet type wrench, 6 in. long, natural finish. Shipping weight, 5 ounces.
28N12067..... **35c**

Anti-Rattling Ball Sockets.



Take up wear and prevent rattling.

Replaces cap that holds front axle radius rod in position. Shipping weight, 12 ounces.
28N11755 **23c**

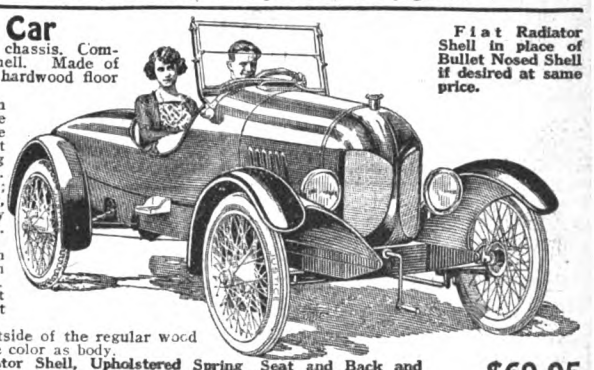
Classy Speedster Body for Ford Car

A low, racy, up to the minute popular Speedster Body for Ford chassis. Comprises body with torpedo back, hood and bullet nosed radiator shell. Made of automobile steel, securely fastened to substantial hardwood frame, hardwood floor boards, steel wear plates for pedals, and instrument board.



Bullet nosed radiator shell fits over regular Ford radiator. (Can furnish Fiat radiator shell if desired at same price.) Body can be installed on any Ford chassis. Special fenders of heavy automobile steel can be furnished as listed below or body can be used without fenders. Use regular Ford or drum type headlights, attaching to standard brackets. Your regular Ford tank fits in back of seat.

Spring seat and back upholstered in a high grade artificial leather; removable and very comfortable, with plenty of leg room. **Body, hood and shell painted vermilion red,** or we can furnish canary yellow, chrome green or battleship gray if specified on your order. (Other standard colors, **$5.00** extra.) **State color.**

Body, 141 inches long; **Cowl,** 32 inches wide, 25 inches high with hardwood instrument board. **Seat,** 34 inches wide, 6 inches from floor, 17 inches deep. Actual weight of body complete, 275 pounds.

We recommend the use of the Underslung Parts as illustrated at left with this body. They lower the body about 3½ inches, so that the car holds the road better and rides easier.

Wheel discs can be furnished as listed below to bolt on the outside of the regular wood wheel, giving the appearance of the disc wheel and are painted same color as body.

Fiat Radiator Shell in place of Bullet Nosed Shell if desired at same price.

28N2440⅓—Speedster Body with Hood, Bullet Nosed Radiator Shell, Upholstered Spring Seat and Back and Hardwood. Instrument Board. Shipping weight, 320 pounds. **Shipped from factory near CHICAGO, ILL.** **$69.95**

28N2446⅓—Nickel Plated Electric Lights (two cowl and one parking light). Shipping weight, 2 pounds.....$6.75

For other Engine Accessories and Repair Parts see page 969.

Black Asbestos Fiber Roof Coatings

For painting and repairing metal, concrete, tile, stone, slate and composition roofing. Also excellent for flashings, skylights, smokestacks, chimneys, ventilators and dampproofing the exterior of brick foundations and underground tanks.

Do your own roof repairing. Here are two high grade materials that come ready to use and are easily applied. They are guaranteed to give satisfaction. Their length of service will doubly repay you for your work. They will not harden in the package and may be used for any length of time. These Asbestos Coatings contain a large percentage of asbestos fibers which prevent the material from running and spreading and consequently they can be used practically any place, such as on slanting roofs, sides of buildings, etc.

Asbestos Coating for the Entire Roof

Asbestos Fiber Roof Cement.

The cement is of puttylike consistency and may be used as an entire roof coating, but is prepared especially for repair work, such as patching large holes and gaps and repairing gutters, chimney flashings, skylights, etc. Should be applied about ⅛ inch thick with a trowel. Directions on the can.

Asbestos Fiber Liquid Coating.

The Liquid Coating is of paintlike consistency, recommended as a preservative to be applied to the entire roof with a roof brush. It will spread without a single seam or joint exposed in the entire surface. It will not bulge, crack or run. It is excellent for dampproofing the exterior of building foundations and underground tanks.

If you have allowed the roof to get in very bad condition go over it first and patch the large holes with the Cement and then give the entire roof a coat of Liquid Coating.

Asbestos Fiber Roof Cement. Apply With a Trowel.

10 pounds will cover about 25 square feet on a smooth surface.

6-Inch Trowel.

Made of steel, ground and well shaped. Especially recommended for applying Asbestos Fiber Roof Cement. Weight about 3 ounces.

9N5886 .....

SEROCO METAL PAINT.

A Lead Chromate Product.

A first coater for metal surfaces. An exceptionally high grade paint for water tanks, sheet iron buildings, metal grain bins, iron fences, bridges, iron work, etc.

It has always been difficult to get paint to stick on metal surfaces. We believe we have a better first coater in our Seroco Chromate Paint than any of the better known red lead or graphite paints that are offered for this purpose. It is made in a pleasing medium brown shade, and while it is made for first coater work it can also be used for the finish coat if you wish. Any other kind of paint can be applied over our Chromate Paint with perfect satisfaction.

Black Rufix Maroon

A high grade, thick, heavy roof paint for the man who wants the best.

Rufix is Our Own Trade Mark, Registered in the U. S. Patent Office.

For keeping roofs in good condition and improving their appearance. May be used on tin, iron, slate or composition roofing. This is our highest grade roof paint. It will withstand the weather, is adapted to any kind of roofing and is reasonable in price. It is a combination of weather resisting gums and oils, which form a thick, elastic, weather proof coating over the surface to which it is applied. Do not confuse this with cheap coal tar products as there is not an ounce of coal tar in it, nor any other product that will soften during very hot weather.

It is easy to apply. You can do the work yourself. It is just a little thicker than ordinary paint and will give best results when applied with a roof brush (see our roof brush just above). We unhesitatingly guarantee Rufix to give the service you have a right to expect from the highest grade roof paint on the market. If for any reason it fails to come up to this standard, we will furnish you new paint free of charge.

One gallon will cover approximately 200 square feet, one coat, on smooth surfaces.

Longlife Creosote Wood Preserver

A Liquid Creosote Oil for Treating Posts, Sills and All Kinds of Timbers to Prevent Rotting.

Creosote Oil is the best wood preservative known. It will do wonders in prolonging the life of ordinary fence posts, sills, joists, railroad ties, etc. It is invaluable for treating cedar, cottonwood and other soft wood posts. Our **Longlife Creosote Wood Preserver** is made of **pure creosote** oil only. It is not adulterated with cheap oils. It will give you the **Greatest Possible Preservative value.**

One gallon will treat the butt ends of about twenty ordinary posts to a height of 2½ feet.

Longlife Creosote Wood Preserver gives an artistic dark brown color to new wood that never fades or wears off. It is highly recommended for shingles, as it both preserves and beautifies. One gallon will cover about 80 square feet two coats.

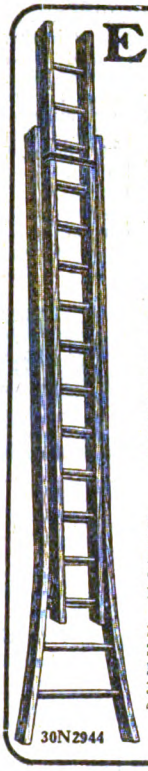
Combination Stool and Stepladder



Get one of these handy Stool Stepladders for the many little odd jobs about the house, such as cleaning windows, hanging curtains or putting up stovepipe. Standing on this Stool Stepladder you can reach the back of the top shelf of your pantry with ease. It is more compact than a chair. Made of seasoned hardwood, varnish finish. It is strong yet light—one of the best step stools to be found on the market—not to be confused with the many cheap step stools on the market. Stands 24 inches high, or 6 inches higher than the seat of an ordinary chair. Housewives use them as a seat while washing dishes, ironing, etc. Folds flat, as illustrated, and takes up little room. No better investment for kitchen comfort could be made than to spend $1.55 for this useful article. Shipping weight, 7 pounds.

30N2956 ..... **$1.55**

Extension Ladders

Exceptionally well made and fully guaranteed. Every detail of construction carefully considered. Rungs are seasoned hickory, individually tested before being used. Side pieces are good straight grained longleaf yellow pine, strong and yet light in weight. These ladders are made of the best materials money can buy. **Shipped from factory in NORTHEASTERN ILLINOIS or from PHILADELPHIA, PENNA.**

30N2944

Standard Extension Ladder.

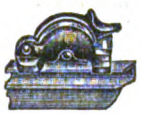
Safety First! Buy the Best!



New Improved Simplex Trimming Outfit

Wall Paper Trimmer.

Every Home Owner Should Have This Reliable Simplex Wall Paper Trimming Outfit.

Table is not included with outfit.

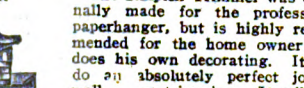
The Simplex Trimmer was originally made for the professional paperhanger, but is highly recommended for the home owner who does his own decorating. It will do an absolutely perfect job of wall paper trimming. It will cut a clean, smooth, straight edge on all kinds of wall paper, lincrusta, burlap, pressed paper, etc. Works easily and saves time.

The handle is designed to fit the hand perfectly so that it may be held firmly. We have purchased the patents on this tool and, therefore, our prices are unusually low for a tool of this kind.

30N2856—Simplex Outfit, complete, with 6-foot wood straight edge. Shipping weight, 8 pounds..... **$6.05**

30N2857—Simplex Outfit, complete, with 7-foot wood straight edge. Shipping weight, 9 pounds..... **$6.45**

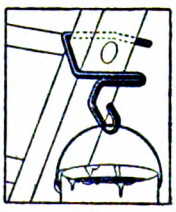
Extension Plank.



Made in two sections, telescoping and with stops preventing pulling apart. There are ten pieces of clear Norway pine, each piece 1 by 1½ inches. Plank is 10¾ inches wide and will extend any fraction of an inch to full length. Does not spring or warp. Lighter than solid board and practically as strong. Weight, 3 pounds per foot.

30N2961—6 feet closed, extends to 10½ feet..... **$4.05**

8 feet closed, extends to 13½ feet **4.85**

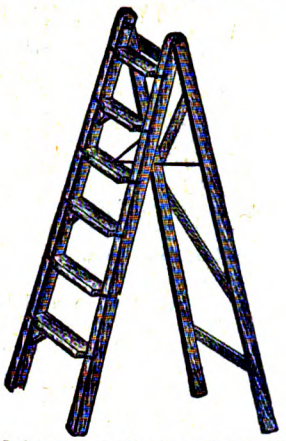


Iron Paint Paddle.

For stirring paints. Mixes the paint more thoroughly than wood paddles. Made so that a broomstick may be placed in the handle, making it easier and handier to stir the paint. Shipping weight, 10 ounces.

30N2942 ..... **10c**

Paint Pot Hooks.



Very convenient. Holds pot of paint in perfect vertical position at side of ladder and eliminates reaching between rungs to dip brush in paint. Shipping wt., 3 oz.

Radiator Enamel Makes Your Radiators Glisten

Seroco Gold Bronze and Aluminum Radiator and Household Enamels.

For all decorative purposes where a gold or silver finish is desired. Excellent quality. Dries with a hard, smooth finish. The powder and liquid come separately in a neat, compact can and must be mixed when ready for use. For picture frames, chandeliers, statuary, bird cages, iron beds, baskets, wickerware, gas and electric fixtures, room moldings and bric-a-brac. Apply with our special bronzing brush listed below.

For radiators or any heated surfaces, such as the trimming on stoves, boilers, engines, mantels, furnaces, interior of oven or any metal surface likely to be subjected to a great deal of heat. One ½-pint can will cover a radiator of 12 columns, 36 inches high.

Furni-Flor is our own Trade Mark. Reg. in U. S. Patent Office.

The Universal Mop Oil. For Renewing Dustless Mops and Dust Cloths.

Same quality sells for more than twice as much elsewhere.

A superior mop oil for preparing as well as renewing dustless mops and cloths. The modern, up to date method of housekeeping. Cleans as well as polishes.

An oil mop needs frequent renewing. After a time the oil is all used up and the mop thereby loses much of its cleansing and polishing properties. You can make them just like new again with Furni-Floor Mop Oil.

To replenish a mop, first wash it out with soap and warm water, rinse well and, when dry, add a good quantity of Furni-Flor.

Furni-Flor cleans and polishes all varnished, waxed and painted woodwork, furniture and floors.

Write for Our "How to Paint" Book No. 686GCN. Sent Postpaid on Request.

Seroco Paste Wood Filler.

All open grain hardwood, such as oak, ash, walnut and mahogany, must be filled in order to produce a smooth surface for varnishing or waxing. Our Seroco Paste Wood Filler is of standard quality. It comes in clear or unstained, but can be colored with our Seroco Dye Stains to the shade desired. Five pounds of the filler will cover about 300 square feet. Dries very hard. Directions on can. For soft or close grained woods no filler should be used; simply thin first coat of varnish with 10 per cent of turpentine.

30N2663

Snowhite Enamel

Highest Grade White Enamel For Walls, Woodwork, Furniture, Etc.

white is our highest grade white enamel. It is of smooth, creamy con-, free flowing and easily applied, so that it can be readily handled by the enced painter. Of all paints, an enamel is usually considered the hardest and get a perfect job. That is the reason we want to especially emphasize working qualities of our Snowhite. Any one who can handle a brush can nowhite Enamel and obtain a beautiful, smooth, porcelain-like finish with tle work.

secret of a beautiful enameling job does not lie in the final coat but in the on coats. Everyone knows that to obtain a first class white finish, unless applying white over white about three to four coats of paint are needed. en using enamel it is different. An enamel should never be used to cover finish only. Therefore, prepare the surface by applying two to three coats Undercoat such as our 30N2654 shown below and then one or at the most ts of enamel.

white is made in our own factory under our own supervision and sold to only one profit added. That is why it can be sold for about half as much well known, nationally advertised white enamels.

white is recommended for any and all places where a strictly high grade amel finish is desired. It is ideal for hospitals, operating rooms, restau-reameries, meat markets, bakeries, etc., as well as all domestic use. One will cover approximately 200 square feet, two coats. Apply with a good brush.

30N2165—Snowhite.

rt can ....(Shpg. wt., 6 lbs.)....$1.15
on can ....(Shpg. wt., 10 lbs.).... 2.30
on can ....(Shpg. wt., 19 lbs.).... 4.25

nowhite Enamel has become so popular for use room walls, interior woodwork, etc., that in to the demand for colors in this high grade we are offering the following tints, same price hite Enamel above.

166—Pearl Gray. 30N2168—Ivory.
30N2169—Forget-Me-Not Blue.

Seroco Gloss Enamel

For Walls, Woodwork, Furniture, Etc.

A very good grade enamel offered in a variety of pleasing shades for interior use. We make this enamel in our own factory and have perfected it especially for the home owner and the inexperienced painter. It is also used by many contractors for large jobs. Can be used any place where a strictly sanitary, glossy, porcelain like finish is desired on woodwork, walls or furniture. It is second in quality only to our Snowhite Enamel. Our Seroco White Gloss Enamel will give excellent satisfaction for ordinary enameling jobs, but where a high grade, perfect enamel finish is desired, our Snowhite Enamel is recommended. The variety of colors offered makes this enamel attractive to those interested in beautifying their homes. It is especially recommended for enameling furniture. An old wooden bed, a dresser and an odd chair and table can be made into a dainty bedroom set by giving them two or three coats of undercoat and then a coat of white or ivory color enamel. Light gray enamel may also be very effectively used for refinishing bedroom, breakfast room and kitchen furniture. One gallon of Seroco Gloss Enamel will cover approximately 200 square feet, two coats. Apply with a good varnish brush. **Be sure to mention color wanted.**

Porch Furniture Paint

For Porch, Lawn, Breakfast Room, Sun Parlor and Kitchen Furniture.

Paint your porch furniture, lawn swings, breakfast room furniture and kitchen furniture with our Porch Furniture Paint and make your home radiate cheerfulness and beauty. Our Porch Furniture Paint has a very beautiful appearance, having an enamel like finish. This finish is obtained by using a large percentage of varnish, which also gives the paint a tough, pliable, weather resisting body that will stand up perfectly under the severe wear and weather to which porch and lawn furniture is usually subjected. The Tuscan Red and Park Green are bright, snappy colors and are especially recommended for use on lawn swings, settees, etc. Apply with a good varnish brush. If you want a pure white finish on furniture use our Snowhite Enamel listed above.

30N1680—Holland Blue.

White Lead.

Science has proved beyond a doubt the superiority of carefully balanced prepared paint over hand mixed white lead and oil. We have decided, therefore, out of fairness to our customers, to discontinue selling white lead. We know that our Seroco Paint will give far better service and cost less than any hand mixed white lead and oil paint, and since we now guarantee our Seroco Paint in stronger terms than anyone can guarantee white lead, we feel that our customers would be no longer interested in mixing their own paint.

Putty.

Will not crumble or crack. Guaranteed a strictly pure linseed oil putty and first quality. Don't confuse it with the cheap grade adulterated with fish oil.

Seroco Flat Finish Paint

Flat Finish Paint Produces the Popular Dull Velvety Finish—Waterproof and Washable

The ideal paint for interior walls. It combines beauty with cleanliness and durability. It is the only kind of finish for walls, producing the popular dull velvety effect, so much in demand now, that can be washed with soap and water without injury to the finish or color. Just the thing in homes where there are small children. Sticky finger prints can be washed off without harm to the finish. It has all the properties of paint, except the high gloss, which has always been the undesirable feature of ordinary paint for interior walls. Suitable decorating any room in the home. A dainty stenciled border pro a very pretty effect at a moderate cost. Flat Finish Paint is very to apply and anyone without any experience can turn out good work using it. It is much easier to apply than enamel, because there is no d of its running or lapping, so you need not hesitate to undertake your decorating when using Flat Finish Paint. When painting large surfa 3½ or 4-inch paint brush can be used with good results.

Flat Finish Paint can be used also as a base coat for enameling. gallon will cover about 200 square feet, two coats.

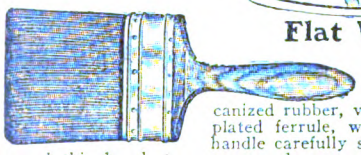
MADE IN OWN FAC

Seroco Own Trade Registered Patent Offi

Here are two good reasons why you should buy Seroco Flat Finish Paint:

It is made in our own factory under our own supervision and is system tested for finish, color and durability.

It is sold direct to you from the factory with only one profit added. T ing price is positively based on actual factory cost. This is why we can so much lower than other advertised brands of interior paints.



For Color Samples See Page 992.

Velvet Kalsomine

Decorative-Inexpensive-Sanitary

We Guarantee Our Velvet Kalsomine

FOR ITS BEAUTY. Seroco Kalsomine is furnished in a complete range of beautiful tints and colors. It dries with a smooth velvety finish that will not rub off. From a decorative and artistic standpoint the beautiful velvety finish produced by kalsomine cannot be surpassed. It is suitable for use in any room in the home. It can be used over paper or wood. It will form a perfect background for furnishings of any room. A stenciled border or panel on the walls or ceiling of a kalsomined room produces a beautiful effect at very little cost.

FOR ITS SANITARY QUALITIES. Our Velvet Kalsomine can be easily removed with a sponge and water, taking off all the dirt with it, and a new coat applied to the clean walls, making a perfectly clean and sanitary job of redecorating. No need to cover up or seal the dirt on walls when kalsomine is used.

FOR ITS ECONOMICAL QUALITIES. One package of kalsomine will decorate walls of the average 10x12-foot room, and it is so easy to apply that you can do the work yourself, making the entire cost of decorating a room only 35 cents. Kalsomine is not at all difficult to apply. Complete directions are given on each package.

Kalsomine the Walls of Entire Room for as low as 35c

For Other Kalsomine Brushes See Page 983.

Undercoat for Kalsomine.

A special size to be used on plastered walls before applying kalsomine. Usually retails for double our price. Not a common glue or varnish size, but a special transparent chemical which makes a permanent undercoat for kalsomine and flat oil paints. One pound will make sufficient size to cover the walls and ceiling of a room 10x12 feet, 9 feet high. It is very economical because it produces an extra hard, permanent surface which holds up the kalsomine, thus increasing the spreading capacity and making the color flow evenly. It prevents grease and stain spots from working through and killing the color of the kalsomine. Full directions on every package. Shipping weight, 1¼ pounds.

30N2736—Size (Undercoat for Kalsomine), 1-lb. pkg. 33c

Kalsominers' Wool Sponge.

An excellent large sponge, average 8 inches in diameter. Makes washing off kalsomine easy when compared with the tedious work if you use a cloth. Very handy for washing windows, woodwork, floors, linoleum, painted or enameled surfaces. Include one in your order for kalsomine. Shipping weight, 4 ounces.

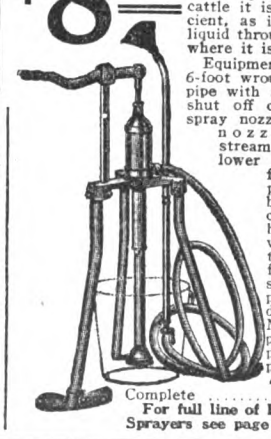
30N2626 ..... 78c

Grass Sponge. This is a low priced sponge and not intended for professional use. For removing old kalsomine from walls and other household uses. Shipping weight, 4 ounces.

30N2624—Sponge 18c

For other Sponges see pages 555 and 967.

Handy Whitewashing and Spraying Machine.



It whitewashes, sprays sheep, cattle, trees and shubbery and does many other useful things.

It forces whitewash into corners and crevices where disease germs lodge and which cannot be reached with brushes. In whitewashing chicken houses infested with lice you can do the work from a door or window, thus avoiding the discomfort of being covered with chicken lice and dirt from head to foot.

$8.45

For spraying sheep and cattle it is especially efficient, as it forces the liquid through to the hide, where it is really wanted.

Equipment consists of a 6-foot wrought iron spray pipe with a ¼-inch brass shut off cock and brass spray nozzle, extra brass nozzle for straight stream-work, iron follower wrench (used for tightening plunger ring in bottom pump cylinder), rubber suction hose with screen attachment, and 8 feet of ⅜-inch special high pressure rubber discharge hose. Net weight, 20 pounds. Shipping weight, 30 pounds.

42N51725¼
Complete $8.45

For full line of Hand and Power Sprayers see page 1062.

Extra Quality Cold Water Paint for Interiors. (No. Oil.)

We prepare the pigment—You add the water.

In powder form, to be mixed with cold water, for coating interiors of barns, basements, chicken houses, factories, factory offices, summer cottages, etc. Used in place of whitewash. Forms a hard, firm and sanitary coating; will not rub, scale or peel off. Not suitable for outside work. Can be applied with a brush or spraying machine. (See Spraying Machine 42N51725¼ listed at left) Ten pounds will cover approximately from 600 to 800 square feet, one coat.

30N2629—White Cold Water Paint.

*Shipped from SOUTHEASTERN NEW YORK or our CHICAGO store.

Outside White Cold Water Paint.

In dry powder form, to be mixed with cold water for painting exteriors of factories, warehouses, docks, stables, farm buildings, sheds, benches, etc. It makes a good interior washable paint, and may be used on sand finished walls, brick, stone, wood, etc. A very good coating for temporary or rough buildings. For permanent buildings of any kind we recommend our Barn Paint as much more durable and protective, and cheaper in the long run. Five pounds will cover approximately from 300 to 400 square feet, one coat. Directions on package.

Chinese Gloss Lacq

A COLORED VARNISH

Makes Mismatched Furniture Harmonize

Most homes, after a few years, cottage and mansion alik have a collection of mismatched furniture—a mahoga rocker, an oak table, a walnut writing desk in the livi room, or perhaps in the dining room, a set of golden o chairs and dining table that does not match the mahoga buffet. This incongruity is always a source of annoyan to a woman who wants a pretty home where the furnishi harmonize. But it is all easily remedied with Chin Gloss Lacquer.

Chinese Gloss Lacquer Makes Old Chairs, Tabl Floors, Etc., Any Color Desired

This material is a high grade colored varnish made especially refinishing work around the home. It is ready mixed and very to apply. Just open the can, pour a little of the Lacquer into or saucer and apply it with a small flat varnish brush. It will about 24 hours. If your woodwork is dark and dingy, or of a you dislike, it may be made any color desired—mahogany, oak, walnut or a beautiful green, by applying one or two coats of C Gloss Lacquer. It is not necessary to remove the original finish the shade of Chinese Gloss Lacquer you desire to use is darker the original color, the Lacquer may be used alone. If the wood is dark and a light finish is desired, apply one coat of Under 30N2697, and then apply the desired shade of Chinese Gloss Lac One gallon will cover approximately 600 square feet, one coa

Sero-Var

Sero-Var Is Our Own Trade Mark, Registered in U. S. Pat. Off.

A Universal Varnish

One Varnish for All Kinds of Uses.

A "Universal" Varnish for Floors, Interiors, Exteriors, Staircases, Window Sills, Tables, Chairs and Furniture.

"Universal" because it may be used any place and every place that a varnish is required. Its usefulness is practically unlimited, as will be readily seen from the above list of surfaces and articles for which it is recommended.

It is easy to apply, dries hard over night and wears so well that we feel perfectly free in guaranteeing it. It fulfills every requirement of a high grade, durable varnish. It is not affected by hot or cold water and water will not turn it white. It is therefore ideal as a finish for outside doors, porch ceilings, under the eaves, or boats, or wherever a varnish is needed that can be depended upon to stand up under severe exposure to the weather.

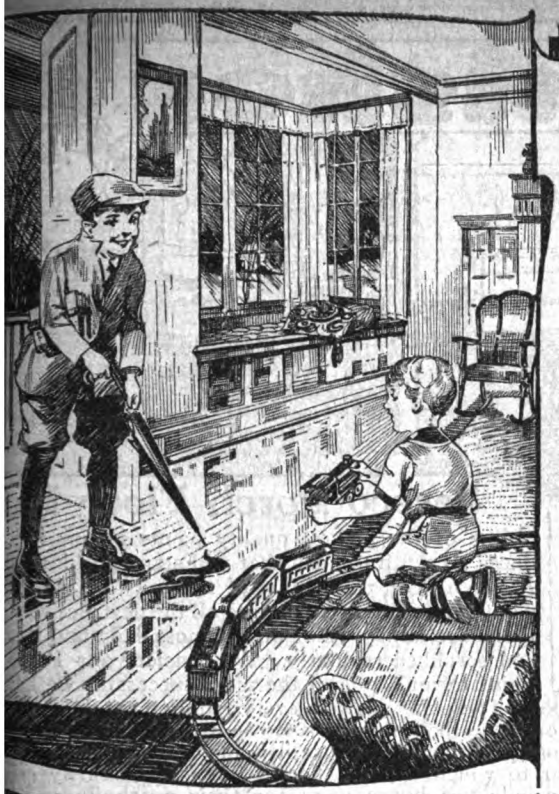
Made in our own factory.

Guaranteed to be the equal of any of the nationally advertised "——spar" varnishes usually sold for $5.00 to $7.00 per gallon.

Our price is only $3.35 per gallon.

30N2727—Sero-Var.

1-pint can	(Shpg. wt., 2½ lbs.)		**$0.57**
1-quart can	(Shpg. wt., 4 lbs.)		**.98**
½-gallon can	(Shpg. wt., 6 lbs.)		**1.75**
1-gallon can	(Shpg. wt., 12 lbs.)		**3.35**
5-gal. can, per gal	(Shpg. wt., 50 lbs.)		**3.25**



On furniture it imparts that beautiful mirrorlike finish so characteristic of ware fresh from the store goods. It may be used on chairs with perfect confidence that it will not soften under the heat from the body.

For floors it is excelled only by our Durable Floor Varnish, which we also urge be used for that purpose.

Every home owner especially should have a can of this universal varnish on hand, as it is economical because it serves so many purposes which otherwise would require a large assortment of special varnishes.

This is clear, transparent varnish and will not change color of the wood on which it is applied. One gallon will cover about 500 square feet, one coat.

Extra Durable Floor Varnish

Our Highest Grade

Made to Withstand Wear

A perfect floor varnish must have five essential points of quality.

1. It must dry quickly, so that the floor can be used again within a reasonable time.

2. It must make a tough, durable film that will withstand hard usage, such as the heel of many shoes and the sliding of heavy furniture.

3. The film must not become brittle so as to show scratches, but must remain alway elastic

4. It must have a high luster so as to be easily kept clean.

5. It must not turn white when water is spilled on it.

Our Extra Durable Floor Varnish is guaranteed to fulfill all five of these requirements and in addition we believe we can save you a great deal of money. It is made in our ow factory and sold to you with only one profit added. We invite comparison of our varnis with any other floor varnish no matter how high priced. We give it actual test, year i and year out, with other floor varnishes selling for more than twice as much, and it wear as well and looks as well as the highest priced in the lot.

This varnish will cover approximately 600 square feet on oak or 400 square feet on soft pine, one coat per gallon. For colored varnish see Chinese Gloss Lacquer on the opposite page.

Special Rubbed Finish Varnish.

For Furniture and Woodwork.

The popular dull rubbed finish can be produced with this varnish without the old time necessity of rubbing. Persons who wish to obtain a rubbed finish on their varnished woodwork and furniture have heretofore found it necessary to apply a coat of rubbing varnish, which required much labor in rubbing to obtain a dull finish. One coat of this Special Rubbed Finish Varnish over old shellacked or varnished surfaces, or two coats ew wood, will produce a finish that looks like a hand rubbed surface. gallon will cover about 500 square feet one coat.

2712—1 gallon, **$3.15**; ½ gallon, **$1.75**; quart, **92c**; pint.....**55c**

Linoleum and Floor Oilcloth Varnish.

Very pale, dries hard, but remains elastic like linoleum or oilcloth itself, therefore it will not crack or check. It is especially recommended for use on new linoleum or oilcloth before it is subjected to wear. By using Seroco Linoleum Varnish the linoleum or oilcloth will retain all its original brightness and luster even under the severe wear it receives at doorways and in halls, thus making the life of linoleum much longer. Hot or cold water does not affect it. One coat will do the work; applied in the evening, it will be dry in the morning. About 1 quart is needed to cover a square 12x15 feet.

30N2642—Quart, **85c**; pint.....**48c**

Pure Shellac. (Orange and Clear.)

A high grade standard light body liquid shellac of the proper consistency to be use as a first coater on furniture and woodwork. Clear shellac is used when it is desired t preserve the natural color of the wood. Orange shellac gives the wood a light oak colo It dries in from three to four hours. It is light bodied, cut in the proportion of 2½ pounds of gum to the gallon. One gallon will cover approximately 600 square feet, on coat. We do not recommend using shellac as a first coat on floors. In place of shella use the varnish itself thinned with 10 per cent turpentine as a first coater. You will fin that it wears far better than the shellac. Shellac is recommended only for woodwor and furniture.

30N2656—Clear Shellac.

Floor Finishes

Seroco Floor Paint

For Bedroom, Play Room, Kitchen and Pantry Floors.

It satisfies thousands. Its durability is unexcelled and the beauty of the finish satisfies perfectly. It is made in our own factory, under our own supervision, and it is systematically tested and inspected for uniformity of color and quality. We guarantee it to answer every requirement of a high grade floor paint. A floor paint must be excellent in every way or it is not worth the trouble of applying, because the severe wear to which it is necessarily subjected will soon cause a cheap paint to break down. Our Seroco Interior Floor Paint contains a large percentage of tough, hard drying varnish, which gives the paint a beautiful, bright glossy finish and forms a wear resisting surface film.

Seroco Interior Floor Paint will dry in a single night so that the second coat may be applied in the morning and in some cases may be walked upon the same day, depending largely on the weather. New or old floors, which have not been previously painted, require three coats. One gallon will cover about 300 to 350 square feet, two coats, and about 200 to 250 square feet, three coats. Apply with a medium size paint brush.

Seroco Creosote Stain

A STAIN THAT PRESERVES AND BEAUTIFIES.

For Roofs, Shingled Bungalows, Summer Cottages Made of Soft Wood Siding, Etc.

We have put all the quality possible into our Creosote Shingle Stain. It is not only a HIGH CLASS DECORATIVE STAIN but will also give MAXIMUM PROTECTION, as we use the largest possible percentage of CREOSOTE OIL, which is the best known wood preserver. You will find it a HIGH QUALITY STAIN in every respect.

One gallon will cover approximately 75 to 80 square feet of shingles two coats and about 120 to 150 square feet, two coats, on fir siding and similar woods. When dipped, 2½ to 3 gallons will cover approximately 1,000 of the regulation 4x16-inch shingles. Two-thirds of the length of the shingle only need be dipped. Two coats should be applied to obtain a real good color.

Directions for measuring your roof for shingle stain are given below.

NOTE—Only the brown can be used on hardwood. For Color Samples See Page 992.

Special Stain for Old Weathered Shingles.

30N1191—Moss Green. **30N1195**—Red. **30N1196**—Bungalow Brown.

This Special Stain is made with double strength color for old shingles that have weathered dark. Our regular stains are intended for bright, new, clean shingles only. If you want a stain to be used on old weathered shingles, be sure to order the following numbers and allow 30 cents additional per gallon the shingle stain price below.

Stain for New, Clean Shingles.

How to Measure Your Buildings for Painting

...re are 231 cubic inches in every full gallon of paint, re...s of the brand. Do not be deceived by varying claims ... for the spreading capacities of various paints, for com...ense will tell you that the larger the surface over which ...read a gallon of paint the thinner the film will be, and ...inner the film the more easily will it be destroyed by ...ather. Seroco Paint will go just as far as any other ... with the right thickness of film. We give you the ...ing capacities which will insure you a paint film with ...aximum protection and endurance.

...asure the length, width and height of the building, ...together the total length in feet of the two sides and ...ds of the building. Multiply this by the height of the ...ing at the eaves with two feet added for cornice. This ... you number of square feet of surface to be painted.

...r example, ...pose your ...ding meas... 26 feet wide, ...et long and ...et high, you ...d figure it as ...e opposite.

Front.....	26 feet
One side.....	33 feet
Rear.....	26 feet
Other side.....	33 feet
Total.....	118 feet
Multiply this by height, plus two feet for cornice.....	24 feet
Total.....	2,832 sq. ft.

The Covering Capacity of Paint.

No. 1—For poor surfaces where no paint has been applied for 12 to 18 years, and the wood is bare and porous, for three coats divide the number of square feet by 100. Three coats are necessary for a surface of this kind. If only two coats are applied, chalking and spotting are sure to follow.

No. 2—For fair surfaces where paint film is worn thin and chalking rapidly. For two coats divide the number of square feet by 180, for three coats divide by 125.

No. 3—For new wood three coats are always necessary. Divide the number of square feet by 165.

No. 4—For good surfaces where paint film is unbroken and is chalking only slightly. For two coats divide the number of square feet by 250, for one coat divide by 500.

In figuring the amount of trimming required the rule of 1 gallon of trimming to 5 gallons of body is usually followed.

Remember This:

The square feet of covering capacity of any paint is dependent upon the kind of surface over which it is applied. This varies widely. A badly weathered and very porous surface will require twice as much paint as another surface which is in good condition. So in judging your surface we give you the tables to the left to guide you in estimating the number of gallons you will need.

Barn Painting.

If you have taken the height of your barn to the eaves and it has a high gable, you will have to allow paint for this space. Multiply width of barn by the height of the gable above the corner post. Divide the number of square feet by the covering capacity, and this gives you the amount of paint needed for both gables. The amount of trimming required for a barn is about 1 gallon of trimming to 10 gallons of body.

In figuring roof paint or stain, multiply the length of the house by the width, then add one-third that amount and the total will be the approximate area of the roof. Now divide by covering capacity per gallon of paint or stain you wish to use.

SEROCO

New Seroco Paint Put on FREE if Seroco Paint doesn't live up to our Guarantee

We Guarantee

We agree to furnish new paint free of charge, ship it to you at our expense and PAY FOR PUTTING IT ON YOUR BUILDING, if Seroco Paint does not give you the service you have a right to expect when carefully applied according to our directions—two coats to painted surfaces in fairly good condition, three coats to new surfaces and old painted and unpainted surfaces in bad condition—with raw linseed oil and turpentine added as per instructions on the containers, depending on the condition of the surface.

Or, if after applying a portion of any Seroco Paint you are not satisfied in every way, you may send back the remainder, and we will return the price you paid for the entire quantity, including all shipping charges.

We guarantee Seroco Paint to represent good honest value; that it will make a nice appearing job; will fully protect the surface on which it is applied; is easy to apply and will give you the service you have a right to expect of any paint, regardless of price.

You May Need Some Linseed Oil—On painted surfaces in fairly good condition apply two coats of Se Mixed House Paint with the first coat thinned with ½ pint of turpen gallon of paint. **On surfaces that have never been painted and on old porous surfaces badly in need of paint, three co be applied, the first coat thinned in proportion of about two quarts of pure raw linseed oil to each gallon of Ready M** On new surfaces of pitchy lumber that have never been painted, you will need about one quart of **turpentine** and **one quart** of per gallon for the first coat.

Pure Linseed Oil.

The price of Linseed Oil is changing constantly and were we to quote definite prices in this catalog they would probably be incorrect before we received your order. Send us a post card and immediately upon receipt of it we will send you our regular **quotation card** quoting the lowest prevailing prices, which we will guarantee for a stated period.

Substitute Turpentin

Guaranteed to be as good for thinning paint as P tine, except on new wood. Economical for cleaning However, if you prefer the Pure, write for prices.

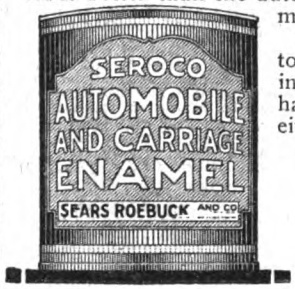
Paint Your Own Car



Auto Enamel

Make the Old Car Look New Again!

Give it a coat of Auto Enamel and make it shine and glisten like a new car! Thousands of car owners are doing it! You can too!

Here is an enamel of smooth cream like consistency, made of pure non-fading colors and high grade varnish especially for auto refinishing. It flows freely and spreads easily and evenly, so that anybody can apply it. It dries with a smooth mirror like finish and has a beautiful gloss. No other finish need be applied. It is made in our own factory, under our own supervision, and we guarantee it to give perfect satisfaction. It is exactly as good and in many cases better than the auto enamels retailing for over twice as much per gallon.

About three quarts should be enough to refinish the body and gear of a touring car two coats. If the old finish still has a gloss it should be removed, using either steel wool or sandpaper.

For color samples see page 992.

Auto Top and Seat Dressing.

Jet Black.

For refinishing and waterproofing leather and imitation leather automobile tops and seats. Will dry over night with an excellent finish and positively will not crack or peel. The most delicate fabric will not be affected by coming in contact with the material after it has dried. About 1 quart needed for the top and seat of a runabout, and about 1 quart and 1 pint for the top and seats of a touring car. Apply with a good varnish brush.

Seroco Black Dye for Auto Top Linings.

Apply this dye to the under lining of auto tops and it will make them look like new. It is an indelible black waterproof liquid for dyeing top linings, and is not to be used on leather or imitation leather. For leather or imitation leather auto tops and seats we recommend our Black Auto Top and Seat Dressing listed above.

30N3418
1-quart can .....(Shipping wt., 3 lbs.).....**65c**

Black Dressing for Mohair Tops.

Leaves cloth soft and pliable. Mohair has a drill backing held with cement. The cement loses its adhesive qualities through age, thus causing the mohair to readily wear out. This special Seroco Mohair Top Dressing prolongs the life of adhesive qualities of the cement as well as waterproofing the mohair and making the old top look like new. Will dry over night. About 1 pint is needed for a runabout and 1 quart for a touring car.

30N3421

SPECIAL OIL FOR FORD CARS

Auto Owners! Save Enough on Your Oil This Season to Buy New Tires

Buy Your Lubricating Oil by the Barrel, at 9 Cents per Qua Save About $35.00 on Your Oil This Season.

And Use the Same Kind of Oil All the Time.

Buy your oil in barrel lots and not only save money but also be sure of using the same kind of oil in your car all the time. Buying your oil at the filling stations, whenever and wherever you happen to need it, at 25 cents per quart, not only makes your oil bill run high but adds greatly to your repair bills. To run your car efficiently and economically it is not only necessary that you use good oil but also that you use the same kind and quality all the time. Each shipment of oil we receive is thoroughly tested in our laboratory, so that we unhesitatingly guarantee it to be of the same standard grade all the time.

Don't expect your car to give good service if you drive up to any filling station and say, "Give me a gallon of oil." And, furthermore, don't expect to keep your operating bills down by paying any price you are asked for the oil.

You Need a Special Oil for Your Ford Car or Ford Truck.

The Ford engine runs at a high rate of speed and is cooled by the thermo-siphon system, two features which cause the engine to attain a higher temperature than most water cooled engines.

We have devoted considerable time and study to the problem of properly lubricating the motor and transmission of the Ford automobile. We had to produce an oil which would lubricate perfectly in spite of extreme conditions. After exhaustive experiments and actual tests in cars in daily use we have perfected an oil which will overcome your most common source of trouble and annoyance. It will lubricate the cylinder walls and pistons of your car at the highest temperature which the engine attains.

Send for a gallon of this Special Oil with the understanding that it will give you the service you have a right to expect; that your money will be returned to you if you are not entirely satisfied.

30N3343—Light. For All Ford Cars and Trucks.

★50-gallon wood barrel	(Shpg. wt., 430 lbs.)	Per gallon	36c

The 30 and 50-gallon steel barrels are equipped with a non-leaking lock faucet.

★Shipped from SOUTHEASTERN PENNSYLVANIA or NORTHEASTERN ILLINOIS.

Very old Fords with worn rings need a heavier oil to help seal the explosion chamber and prevent loss of power. Use our Superoil (Light) listed below.

Special Non-Chattering Oil for Fords.

Refiners are producing this special grade of non-chattering oil especially for Fords to improve the operation of its motor and to furnish proper lubrication to its planetary transmission, causing bands to operate smoothly and without undue gripping on drum, thereby eliminating the quiver, enabling you to start and stop with ease and smoothness.

Refiners claim the frictional resistance in the motor is reduced to such an extent that the gasoline mileage is increased from 10 to 20 per cent. Less carbon is formed, insures clean spark plugs and eliminates sticking of valves.

Cross Country Differential Compound for Ford Passenger Cars.

Same quality as that in all Ford cars when sent from the factory; 1½ pints of this quality of compound the amount standardized by the Ford Motor Car Co. the correct quantity to be in the rear axle. This is guaranteed to overcome the trouble of a leaky axle. Thoroughly clean the rear axle with a kerosene before putting in this grease, should not be used on top of old grease.

30N3459

5-lb. pail.....(Shipping weight, 7 lbs.)

10-lb. pail.....(Shipping weight, 13 lbs.)

THE MORE YOU CONSIDER QUALITY the more impressed you will be with our values. Scientific merchandising with frequent laboratory tests insure unusual values.

Cross Country Automobile Oil

Cross Country Is Our Own Trade Mark, Reg. in U. S. Pat. Off.

A Guaranteed Pennsylvania Oil.

Mr. Automobile Owner! Do you drive into the garage or filling station and say, "Give me a quart of oil"? Of course, you want the best and you pay for the best, but do you know whether you are getting the oil that is best for your car? And furthermore, do you get the same kind of oil each time? These are your two most important oil problems. Find the oil that is best for your car and stick to it. Don't mix a dozen different kinds of oil in your car and expect it to give the maximum of service. You probably wonder sometimes whether you are using the right kind of oil and just how you are going to find out about it since you have neither the time nor facilities for making tests of your own. But it is not necessary for you to worry about these technicalities. **Just buy your oil each time in a labeled drum with a reliable firm's name on it.**

Quality Guaranteed—and We Save You Money.

Quality is the only thing that should interest you when you buy auto oil and you should be **satisfied** when you have found an oil you know is right. Look for **quality** in Cross Country and forget the price—then see how much money you have saved.

Order a quantity of this high grade automobile oil and try it out. If not perfectly satisfied, return what you have left and get your money back, including freight charges. **Each steel barrel equipped with a non-leakable brass faucet.**

Zero and Low Cold Test Texas Auto Oil.

Automobile Oil That Flows in Cold Weather and Does Not Form Hard Carbon.

Light and **Medium** will not congeal until temperature drops below zero. **Heavy** and **Extra Heavy** will not congeal until temperature reaches 10 degrees above zero. Full bodied, clean and clear.

Auto oils refined from Texas crude oil do not cause hard flinty carbon on cylinder heads or spark plugs. Sometimes, through some mechanical defect or too much oil fed to the engine, a slight deposit of soft fluffy substance like lampblack forms which can readily be wiped off with a rag and kerosene.

Our Texas Motor Oil is the same quality as standardized by the large distributers of auto oils, refined from Texas crude oil. Owing to its low cold test it is considered by some motorists as an ideal oil for winter use.

Order Light, Medium, Heavy or Extra Heavy, whichever you have been using, or specify the make and model of your car and we will send the right oil. Each steel barrel equipped with a non-leakable brass faucet.

Tractor Engine Oil.

Regardless of the make of your tractor engine, this oil will prove your insurance against friction. The heat generated in the cylinders of the kerosene or distillate tractor is enormous. It therefore requires an oil which will not break down under the highest temperature, but which will retain its lubricating efficiency, maintaining a frictionproof film between moving parts, protecting them from wear and giving you the utmost power from your engine.

We recommend this Tractor Oil as possessing every requirement of a high grade lubricant. By passing an exceptionally high fire test it insures lubrication, even under the very high temperatures, saves power, reduces friction and lengthens the life of your engine.

Our guarantee of satisfaction or money returned assures you that it will do all we claim for it. In all our practical and laboratory tests we have not found an oil which we could recommend so highly as the grade which we are listing.

5-lb. can	(Shpg. wt., 7 lbs.)	.67
10-lb. pail	(Shpg. wt., 13 lbs)	1.21

High Quality Transmission Grease.

Exceptionally high grade. Compounded from pure acidless fats and oils. Made especially for automobile transmission and differential gears. Water will not mix with this grease and it retains proper lubricating consistency, summer and winter.

30N3457

5-lb. pail	(Shpg. wt., 7 lbs.)	$0.80
10-lb. pail	(Shpg. wt., 13 lbs.)	1.42
25-lb. pail	(Shpg. wt., 32 lbs.)	3.15

Longlife Harness Oil.

Since harness seldom **wears** out until it **dries** out, it is real economy to keep it well oiled. Rain, sun, dust and perspiration shorten the life of harness because they **dry up the natural oil.** Oil your harness and keep it from cracking. A little time spent oiling your harness with this Longlife Harness Oil will be time well invested because it will add years of service to the life of your harness. Get your harness ready for work during your spare time.

This is a special high grade compounded oil containing neatsfoot and other leather oils that will renew harness, make it pliable and prevent leather from cracking. It contains sufficient coloring matter to color the cracks in old harness and make the leather look like new without any injury to it. Send us a trial order; if you are not satisfied after a fair trial, send back the balance of the oil and your money will be promptly returned.

Auto and Tractor Transmission Oil.

Recommended by automobile manufacturers. Extra heavy body, similar to steam cylinder oil, but is especially treated for use in automobile transmission and differential gears. A transmission oil has the advantage over transmission grease of being fluid enough to reach all parts to be lubricated. Can be used as tractor transmission oil and for differential in Ford trucks.

QUITE NATURALLY OUR PRICES ARE LOW.

Our great purchases and economical selling methods assure it. But add to this the quality our scientific tests assure you and you must admit our values are extraordinary.

Seroco Solid Axle Grease.

Axle Grease can be made from good or poor quality oils. Appearance is no test. It is only after several months' use that you can tell the difference in greases and then it is too late. The best and surest way to buy axle grease is to buy of a concern that has a reputation for fair dealing—a concern that guarantees the grease and stands back of the guarantee.

Our Seroco Axle Grease is a high grade lubricant. It has been used by many large teaming concerns in Chicago and other large cities.

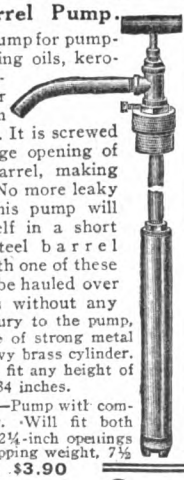
10-lb. pail	(Shpg. wt., 12 lbs.)	.92

Empty Steel Barrels. (Without Faucets.)

Painted Red or Black, as Desired.

hese are the same high grade steel barrels for storing oil, gasoline, etc., which ve sold for years. By buying your oil in large quantities you can save money lways have a supply on hand just when you need it.

We have discontinued our Gasoline Tanks, which we formerly carried, because ave decided that these high grade steel barrels are a much better investment for our customers. They cost less, are much stronger built and will last much longer. When equipped with either a barrel pump or a faucet these steel barrels furnish a very handy and convenient storage tank which can easily be hauled from place to place either filled or empty. You will find that they will give excellent service. We are quoting the pump and faucet separately, at the right, so that you may order whichever serves your purpose better. Some states have laws making it a misdemeanor with a severe penalty to store or ship gasoline in anything but a red container. It is also unlawful in such states to ship or store any other liquid than gasoline in a red container. We supply you with either a red or a black barrel to suit your requirements. **In ordering state which color you wish.** If no color is stated black will be furnished.



ucet not included.

Wood Tub, Dolly Type

s type of machine is very popular and in these models we have
orated every principle of good washing machine construction
ars of experience have shown us to be desirable.
wringer is the latest power type with 12-inch white rubber rolls, has safety
nd swings to four positions.
tubs are made of selected Virginia White Cedar, one of the best woods
r the purpose. It does not splinter and will not warp. Tubs measure 22¾x12
side, are corrugated inside and fitted with **brass** drain faucets threaded for
nection. Each tub has a washing capacity of six sheets.
gearing is entirely enclosed. The main gears are packed in grease and the
nections are provided with oilless bushings. Will give years of service with
ntion.
stand is made of heavy angle steel, securely riveted and braced, and is
h a strong folding rack, large enough to hold two large tubs.
lectric and engine equipped machines are mounted on large easy rolling

shed With Electric Motor, Gasoline Engine or Plain Power Pulley.

lectric model is supplied with a powerful ¼ horse-power motor,
under the tub out of the way. Motor can be furnished for standard
al lighting current or for 32-volt farm lighting current. This motor
te both washer tubs and the wringer at the same time. Furnished
with connecting cord, switch and plug ready to connect with any
electric light socket.
os. 44N7572 and 44N7578 in the price list below.
ngine model is just the machine for the home without electric power. It
with a ½ horse-power **air cooled, four-cycle type magneto equipped gaso-
ne,** mounted under the tub out of the way, yet easily accessible. It will
oth washer tubs and wringer at the same time and a quart of gasoline is
enough for a big washing. The engine is equipped with a simple mechanical
stead of a crank and starts easily.
N7573 in price list below.
plain power pulley model is fitted with plain power pulley, 8 inches in
1½-inch face and must be driven about 300 revolutions per minute.
already have an engine or line shaft outfit and do not want a machine
hed engine, this is just the washer for you.
N7574 in price list below.

ecially Recommend the Double Tub Machine for Its Many Advantages.

tubs can be used for washing and, together with the wringer, can be
ndependently of one another. You can wash twice as fast as with a single
ne; one tub can be used for slightly soiled light articles, while the other
ed for heavier or colored clothes which require different treatment. While
n one tub, the other may be used for rinsing or bluing and, when machine
e rinsing is more thoroughly taken care of than when done in the old way.

Double Tub Electric Washers.

Illustrating one advantage of our four-position swinging wringer and showing how engine is mounted under the tub.

Another advantage of the swinging wringer and the roomy folding tub rack.

Thirty Days' Trial

We ship any of the machines on this page with the understanding that you may use it in your home for thirty days. Compare it with any other machine from the standpoint of mechanical construction or washing efficiency and, if for any reason you are not perfectly satisfied with it, you may send it back and every cent of your money will be returned to you. Judge for yourself whether you want to keep the machine.

Improved Liberty Washers

This machine is a single tub model of the Double Tub Machine described above. It is furnished in three styles, viz: With an electric motor, gasoline engine, or plain power pulley. It is furnished complete with the same 12-inch power wringer with safety release, swinging to four positions.

The tub is full size, 22¾-inch by 12-inch, six-sheet capacity, made of selected Virginia White Cedar.
The gearing is entirely enclosed with the main gears packed in grease and the lever connections provided with oilless bushings.
The stand, as shown in illustration, is fitted with a folding rack, large and strong enough to hold another wash tub or basket.
Electric and engine equipped machine is mounted on large easy rolling casters.
The electric model has motor mounted directly under the tub and is furnished complete with necessary cord and attachment plug to connect with any electric light socket. Motor will operate washer and wringer at the same time.
See No. 44N7586 and 44N7587 in price list below.
The engine model is just the machine for the home without electric power. The engine, a high grade, four-cycle air cooled type, magneto equipped, is the same as used on the double tub machine and is mounted out of the way, as illustrated, but is easily accessible.
See 44N7588 in price list below.
The plain power pulley model is fitted with a pulley 8 inches in diameter, 1½-inch face, and must be driven about 300 revolutions per minute. If you already have an engine or line shaft outfit, this machine will fill the bill.
See No. 44N7589 in price list below.

Requires No Electricity.

The "Sanitary Special" VACUUM CLEANER. Only $18

Non-Electric.

Equal in Value to Similar Cleaners Sold at From $5.00 to $10.00 More Than We Ask.

Powerful suction gets dust and dirt. Revolving brush gathers up threads and lint. All you have to do is put it down on the floor and push. No work to it at all. Any child can push it around the room and it cleans in just the same manner as electrically operated vacuum cleaners.

Costs Nothing to Operate.

Is gear driven. The wheels drive gears propelling a fan, which in turn draws the dust, dirt and lint by SUCTION, just as do electric cleaners.

It is sturdy, well made, and will give you long service. The brush is removable, permitting you to operate the machine for suction cleaning alone, without brushing the surface to be cleaned.

Body is cast aluminum. Wheels are rubber tired. Bag is made of dustproof fabric and readily removed for emptying. Actual weight, 8½ pounds. Shpg. wt., 11 lbs.

99N2141 .....

For Electric Vacuum Cleaners see page

Cook the Fireless Cooker Way!-It's Easier!

$9.45

OUR "BEST MADE" FIRELESS COOKERS.

Make your kitchen more efficient and give you leisure hours. No need staying home. Cooks automatically with "Stored Heat" in insulated aluminum compartments with steam tight covers. "Stored Heat" is produced right in your own kitchen in ten to twenty minutes by heating the soapstone radiators. This heat is enough to cook an entire meal with absolutely no attention from you.

SAVES FOOD—SAVES FUEL—SAVES TIME.

Furnished with aluminum cooking utensils and full equipment as illustrated. The cook book which we furnish free with each cooker contains full directions and recipes for cooking cereals, vegetables, soups, etc., roasting all kinds of meats and baking beans, bread, biscuits, pies, puddings, cakes, etc.

New Jersey Pattern R. R. Milk Cans

5-Gal. $3.95 | 8-Gal. $5.30 | 10-Gal. $5.90

Our Prices Save You $1.00 to $2.00 According to Size.

Latest Improved Construction. One of the Best and Most Popular Patterns on the Market.

Made of heavy steel plate, seamed and riveted, heavily tinned and soldered so as to leave no crevices or corners to collect germs and dirt.

Body and bottom rolled together, forming a rigid joint of great durability.

New Jersey Pattern Cans are rigid and stiff and will stand hard usage. Breast and bottom are full rounded, which makes cleaning easy.

New Jersey Pattern Cans are guaranteed to give satisfaction.

99N2506 5-GALLON SIZE. Shipping wt., 12 pounds..... **$3.95**

Milwaukee Pattern Riveted Milk Cans

5-Gal. $3.60 | 8-Gal. $4.10 | 10-Gal. $4.70

We recommend these cans for wagon use, but for shipping purposes we recommend our New Jersey Pattern Railroad Cans.

Made of smooth sheet steel, double seamed and riveted throughout. Neck and bowl drawn in one piece. Breast is joined to body in such a manner as to form a very strong and rigid edge. Heavy steel bottom is riveted to body. Milwaukee pattern cans are tinned and retinned, and inside seams are soldered, have full rounded breast and bottom and are easily cleaned.

99N2500 5-gallon size. Shpg. weight, 11 pounds. **$3.60**

99N2501 8-gallon size. Shpg. weight, 15 pounds. **$4.10**

99N2502 10-gallon size. Shpg. wt., 17 lbs. **$4.70**

BUTTER in Three Minutes!

"Holstein" Butter Ke... by Actual Tests Makes Butter From Sw... or Ripened Cream in From 3 to 5 Min... Satisfaction Guaranteed or Your Money...

The peculiar construction of the dasher gives a violent action to the cream, without breaking the granular form, quickly extracts all butter fat particles, forming solid first quality butter in from three to five minutes' time.

Save Your Time! Save Your Strength!

Why waste valuable time using the old time slow and hard method of churning when by using modern methods you can obtain better results in but a few minutes' time?

Churn is light in weight and easy running. Can made of heavy tin plate and holds 3½ gallons. Churns up to 1½ gal. Shipping wt., 23 lbs.

Dilution Cream Separators.

$3.90 10-Gallon.

$4.60 14-Gallon.

$5.20 18-Gallon.

Separates cream from milk in three to four hours; gives sweet diluted milk, which is far superior to sour milk as stock food. Saves several hours' waiting for cream to rise. As water mixes with the milk, cream separates and rises to top; this can be watched through gauges. Heavy tin, securely seamed and soldered. Enameled on outside. Prices include tin tubes, strainer faucet and legs.

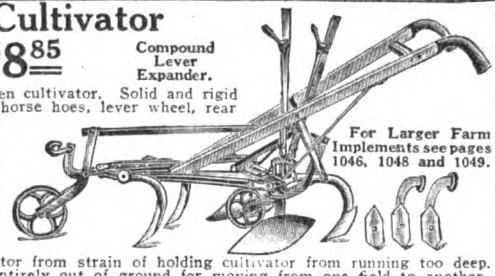
Push Bar Garden Cultivator.

$3.85



Can be used as a plow, cultivator or weeder. The tool is hung by a swivel and can be shifted from side to side independently of the course of the wheel. 18-inch wheel. Furnished with five cultivator teeth, plow, weeder attachment and wrench. Shipping weight, 25 pounds. **Not mailable.**

99N6211—Complete **$3.85**

Steel Cultivator

A Wonderful Bargain at Our Price. $8.85 **Compound Lever Expander.**

A high quality garden cultivator. Solid and rigid in construction. Has horse hoes, lever wheel, rear wheel depth regulator and outside handle braces. Lever wheel and rear wheel depth regulator enable operator to control the working depth of teeth. This enables the cultivator to run steadily and relieves the operator from strain of holding cultivator from running too deep. Teeth can be raised entirely out of ground for moving from one field to another. Lever expander widens or narrows width of cultivator to suit different widths of rows. Shipping weight, 85 pounds. **Not mailable.**

Sarven Pattern Buggy and Light Wagon Wheels

COMPLETE WITH ROUND EDGE TIRES

IMPORTANT! Read This Before Ordering Wheels.

Sarven Pattern Wheels are furnished in the white only, oil finished, not painted or varnished, and in two heights, as follows:

LOW WHEELS—Fronts, 35 in. high; **hinds,** 39 in. high.
REGULAR WHEELS—Fronts, 39 in. high; **hinds,** 43 in. high.

Wheels are furnished without boxes. We do not set axle boxes in hubs.

We Cannot Furnish Painted Wheels. State Height Wanted.

State Height. Extra Grade Wheels. State Height.

White straight grained second growth seasoned hickory spokes. Rims are screwed on each side of each spoke to prevent splitting. Have extended malleable flanges and tires bolted between spokes. Cost a little more than ordinary wheels, but will give you double the service and save you money in the end. Not mailable. Be sure to state height wanted.

Catalog No.	Kind of Wheels	Size of Tires, in.	For Axles, Inches	Shpg. Wt., Lbs.	Per Set of Four

Crystalline Farm Bells.

Every farm, no matter how small, should have a good bell. Our bells are standard in every detail and are unexcelled for service. The metal in crystalline bells is properly distributed to insure a clear, pleasing tone that can be heard for a long distance; and tone will always remain the same. Will not go flat with use. We recommend No. 3 for use on the average farm.

	Size No.	Bottom Diameter	Shipping Weight

IRON BARS

are handled only for the convenience of our customers who buy other merchandise from us as well.

We Will Not Fill Orders for Iron Bars Alone.

Orders must be for five bars or more, all one size or assorted as desired, on account of expense in bundling for shipment.

DO NOT ORDER BY THE POUND. WE SELL IRON BY THE BAR ONLY. ORDER NOT LESS THAN FIVE BARS.

We do not solicit inquiries for large quantities of iron bars for the use of dealers and manufacturers.

EMERY WHEEL STANDS AND COLUMNS

Stands and Columns Are Sold Separately.

If you desire grinder mounted on column, order a column at the same time you order the stand. Stands are equipped with dustproof brass oil cups and furnished with bolts for attaching to columns. Columns have raised edge around top to prevent tools from falling off, are bored and furnished with lag screws for fastening to the floor. These grinders are well made, properly fitted and guaranteed to give satisfactory service.

Columns Have Raised Edge Around Top to Prevent Tools From Falling Off.

Emery Wheel Stand Complete With Column as Illustrated.

$18.50

EMERY WHEEL STAND. With adjustable tool rests. Will run two 8x1-inch grinding wheels with ¾-inch holes. Size of spindle, ⅞ inch in diameter by 14 inches long, with 2¼-inch babbitted bearings. Size of pulley, 2¼ inches in diameter by 2-inch face.

COLUMN — Height, 33¾ inches. Size of base, 13x14 inches.

99N5549—Emery Wheel Stand complete with column, as illustrated. Shpg. wt., 79 lbs. **Not mailable. $18.50**

99N5552—Emery Wheel Stand only, as above. Shipping wt., 27 pounds. **$10.25**

BLACKSMITHS' HIGH GRADE POST DRILLS.

Blacksmiths' Acme Ball Bearing Two-Speed Self Feed Third Gear Post Drill.

$14.80

Easy Running.

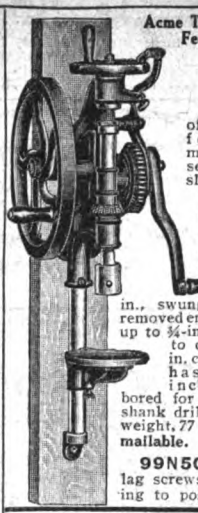
Strongly Made of High Grade Material.

Made extra strong at points of greatest strain. For general blacksmith and repair shops.

DESCRIPTION.

Bearings are made of die steel. Make running easy and double the life of the drill.

Self feed attachment can be set to a fast or slow speed.



Improved third gear enables the operator to change to a fast or slow speed by simply changing the crank on the same side of the machine.

Drill table is extra heavy, can be raised or lowered 10½ inches, swung around or removed entirely.

Shaft and spindle are made of high grade steel. Drills up to 1¼-inch holes and to center of 14⅝-inch circle. Has up and down run of 3¾ inches and is bored for ½-inch round shank drills. Shipping wt., 124 lbs. **Not mailable.**

99N5081 — With lag screws for fastening to post **$14.80**

Steel Face Cast Anvil.

$12.00 — 100 Lbs.

Face of this anvil is one solid piece of tempered steel, securely welded to body and guaranteed not to come off. Horn is tough, untempered steel. Body, cast iron. A very good low priced anvil, guaranteed to give satisfactory service. **State weight wanted.**

		Shpg. Wt., Lbs.	Takes Hardie, Size

$13.50 FULTON All Steel One-Piece ANVIL $22.50

75 Pounds — Rings Like a Bell. TAKES ¾-INCH HARDIES. — 125 Pounds

Tempered and Finished Right. Molded in one piece of fine alloy steel; the face cannot loosen or come off.

Correct Design. Horn is long, well shaped and round its entire length, permitting the forging and welding of rings at any point. Tail is long and formed so as to permit the bending of small V shapes. Base has a wide spread, insuring stability and prevents tipping when doing heavy work near the ends of anvil.

ONE PIECE CONSTRUCTION insures anvil against breaking at the waist.

Complete Line of Farm Implements and Machinery, Cream Separators, Farm Engines, Power Equipment, Windmills, Incubators, Brooders, Poultry Supplies, Bee Keepers Supplies, Farm and Lawn Fencing, Buggies, Wagons, Harness, Saddles and Stable Supplies

OUR Special Catalog of Implements and Farm Equipment is a real buyers' guide for the Farmer, Fruit Grower, Dairyman, Bee Keeper and Poultry Raiser. It contains the most complete line of High Quality Farm Equipment carried by any store and because of our exceptionally low prices this special catalog is the best possible medium the farmer can use in determining by comparison the prices he should pay for standard implements and farm equipment.

We guarantee the high quality of our Farm Equipment.

We guarantee to save you money on every purchase.

The limited space available in our Big Catalog does not permit us to show all of our extensive line of farm equipment, hence we have prepared this Special Catalog of Farm Implements and Equipment which we will be pleased to mail you postpaid if you will fill in and mail to us the request blank below.

Order this special catalog today and buy better quality for less money.

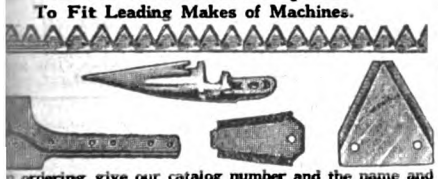
Plow and Implement Repairs

NISHED FITTED PLOWSHARES WITH BOLTS READY TO ATTACH.

t Hand Only.



Right Hand Shares to fit plows only as listed. Solid Steel Shares (known to the trade as crucible) should be used in sandy, gravelly or stony soils which are apt to break tempered shares. No manufacturer can guarantee tempered shares against such breakage or breakage th being improperly bolted to the plow bottom. d Tempered Soft Center Steel Shares are intended for sticky soils and ground practically free from stones, ise we recommend the use of Solid Steel Shares. MPORTANT—READ BEFORE ORDERING. n ordering give our catalog number, size of share d, the name or make of your plow and the exact s and letters which appear on the back of your old Weights, 12, 14 and 16 pounds. pped from our Chicago store, excepting those d (●) which are shipped direct from the factory hicago. OTE—Other shares than listed below can be shipped rect from factory at 25 cents per share additional ces quoted below for shares of corresponding sizes ickness.

Adjustable Grain Saving and Pea Harvesting Guards, Fit Either Mowers or Grain Binders.

Every farmer has need for these guards at one time or another. Do not wait until your grain is actually down, but order a set of these guards at once. They are made of malleable iron, light and strong. Long guard bolts are furnished for attaching to any cutter bar. Generally used in sets of five for a mower, five for 6-foot, six for 7-foot and seven for 8-foot grain binders. **Shipped from our store.**

32N7057¼—Adjustable Grain Saving and Pea Harvesting Guard. Weight, 4 pounds **85c**

Handy Platform Cart.

Very useful for handling milk cans, barrels, sprayers, etc. Frame is constructed of steel bars, strongly bolted and braced. Wood platform is 32x28 inches and set close to ground. Has detachable chain across front of cart to hold load on platform. Wheels, 36 inches in diameter with 1¼-inch tires. At an extra price we furnish removable side and end boards, forming a box 11¾ inches deep. With this box the cart is adapted for almost any use to which a hand cart could be put. **Shipped from BRADLEY, ILL., or PHILADELPHIA store.**

32N2236—Handy Platform Cart. Weight, 100 lbs.
From BRADLEY, ILL. **$7.65**
From PHILADELPHIA store **8.50**

32N2237—Removable Box. Weight, 27 pounds.
From BRADLEY, ILL. **1.70**
From PHILADELPHIA store **1.93**

Steel Frame Barrel and Spray Cart.

Useful for carrying swill for feeding, also as an orchard spray cart. Made entirely of steel and iron. The steel wheels are 36 in. high with 1¼x¼ inch tires. The frame is bolted solidly to the axle castings, and these castings are made to fit the sides of a barrel to which they are bolted. A kerosene, molasses or vinegar barrel can be used. Price includes bolts to attach to barrel and one bracket or rest for bottom of barrel. **Shipped from BRADLEY, ILL., or PHILADELPHIA store.**

32N2225—Barrel Cart. Weight, 66 pounds.
From BRADLEY, ILL. **$4.85**
From PHILADELPHIA store **5.40**

Attachments for Walking Plows.

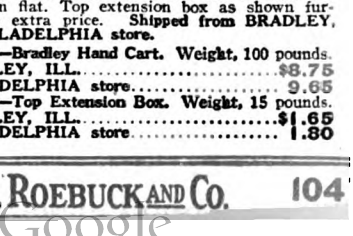
Excepting the fin cutter, these attachments will fit any steel beam or wooden beam steel walking plow. If ordered without plow, state whether for wood or steel beam, right or left hand and kind of plow.

32N114¼—Knife Coulter. Weight, 9 pounds **$1.55**

32N115¼—13-Inch Bradley Caster Rolling Coulter. Fits any make of walking plow. Large chilled bearings, convenient to oil and easily replaced if ever worn. No wear on axle bolt. Adjustable. Wt., 26 lbs. **$3.15**

32N116¼—Quincy Reversible Coulter. Same as shown in illustration of 32N130 Brush Plow on page 1048. Weight, 9 pounds **$1.35**

32N117¼—Fin Cutter. Furnished only for David Bradley Stubble, General Purpose and Royal Blue Walking Plows. When not ordered with plow be sure to state number appearing on bottom of your old share. Weight, 4 pounds **90c**



32N118¼—Steel Moldboard Jointer. Weight, 15 pounds **$2.30**

32N119¼—Gauge Wheel for steel beam plow. Wt., 11 pounds **98c**

32N123¼—Gauge Wheel for wood beam plow. Wt., 11 pounds **99c**

When above attachments are ordered with plows they are shipped with plows, otherwise we ship from our store.

Bradley Hand Cart.

A strongly constructed and high grade hand-cart, without springs. For farmwork and other rough usage. Has large, deep selected wood box, 1-inch steel axle. Wheels are 36 in. high with 1¼x¼ in. tires. Box is 36 in. long, 21 in. wide and 9½ in. deep. End boards are held in place by steel rods. Ends and sides can be removed, leaving bottom flat. Top extension box as shown furnished at the extra price. **Shipped from BRADLEY, ILL., or PHILADELPHIA store.**

32N2227—Bradley Hand Cart. Weight, 100 pounds.
From BRADLEY, ILL. **$8.75**
From PHILADELPHIA store **9.65**

32N2228—Top Extension Box. Weight, 15 pounds.
From BRADLEY, ILL. **$1.65**
From PHILADELPHIA store **1.80**

David Bradley Garden City Clipper Walking Plows

Every David Bradley plow is sold subject to a fair test in your own field and with the understanding that it must please you perfectly, that it must satisfy you both as to quality of material and work performed, or we expect you to return it to us at our expense and we will return to you the full purchase price, together with the freight charges you paid.

MOLDBOARDS, SHARES AND LANDSIDES are made of hard tempered steel. **SHARES are 5/16 inch thick and have reinforced points, insuring long wear.**

MOLDBOARDS are double shinned, that is, an extra thickness of hard steel is welded on top of the front of the moldboard, the point where the wear is the greatest.

LANDSIDES are medium high and are double thickness at the heel, where the wear is the greatest. They are bolted to an inner steel landside bar, which is securely welded to the steel frog underneath the moldboard and share.

TEMPERING: Moldboard, share and landside are all uniformly hard tempered by the David Bradley process, insuring long wearing and easy scouring qualities. They are carefully ground and highly polished, the grinding of the plow bottoms being done in the same direction the furrow slice follows on the moldboard. That is one reason why David Bradley plows scour so readily.

STEEL BEAMS are made of double beaded high quality beam steel. They are heavy enough to insure ample strength and are formed with high arch so as to clear in trashy land. Clevises are malleable iron, broad and adjustable in all directions. Beams on 12 and 14-inch plows are set for two horses and on 16-inch plows for three horses.

Coulters, Jointers and Gauge Wheels are shown on page 1047.

Style of Plow	Catalog No.	Size, Inches	Weight, Pounds	Shipped From Bradley, Ill.	Shipped From Kansas City, Mo.
Right Hand Stubble Plow, Steel Beam.	32N101	12	111	$ 2.95	$ 3.7

David Bradley Brush Plows.

Wood Beam. Right Hand Only.

For tough plowing and heavy general purpose work among vines, berry bushes and in timber or stony land. Moldboard, share and landside are solid steel, with mild or natural temper. Moldboard is double shinned and share has reinforced point. Beam is heavy seasoned oak and has a steel strap underneath. Standard cap and all braces are steel. Handles are first quality oak. Malleable clevis has ample adjustment. Price is for plow, as shown, with Quincy reversible coulter and gauge shoe.

Bradley Riding Attachment for Walking Plows.

Makes a first class frameless sulky plow out of any wood or steel beam plow or middle breaker. It will make your plow run steadily without side draft and without making the work a bit harder on your team. It can be set for any depth furrow. Being tongueless, the attachment cannot be backed up by the team; neither does it carry the plow high from the ground. By placing the attachment back of a drag harrow and connecting to the harrow drawbar by a long pole or 2x4-inch timber you have a splendid harrow cart. Made entirely of malleable iron and steel. Wheels are the regular type of riding plow wheels with wide oval tires and dustproof hubs. Not intended for use on smaller than 10-inch plows nor rod breakers.

32N192—Attachment for Right Hand Plows. Weight, 147 lbs. **Shipped from BRADLEY, ILL.** $13.25 **Shipped from KANSAS CITY, MO.** 14.30

32N193—Riding Attachment for Left Hand Plows. Weight, 147 pounds. **Shipped from BRADLEY, ILL.** $13.2

David Bradley Northwest Breakers.

Designed for heavier work than the standard type of prairie breaker. Splendid plows for heavy prairie sod and brush work, also for road making and grading purposes. Beam is extra heavy selected oak. Standard is heavy steel solidly braced. Moldboard, share and long bar landside are solid steel, with natural temper. The heavy steel coulter is made with a shoe at the point, into which the point of the share is inserted, making it absolutely solid. Rolling coulter cannot be used. Gauge wheel is adjustable. Handles are steam bent selected oak, extra heavy and strongly braced. Weights, 170 and pounds. Prices include wheel and coulter. **Shipped from BRADLEY, ILL.**

David Bradley Riding Plows

For Tractor Plows see page

David Bradley X-Rays Sulky Plow.

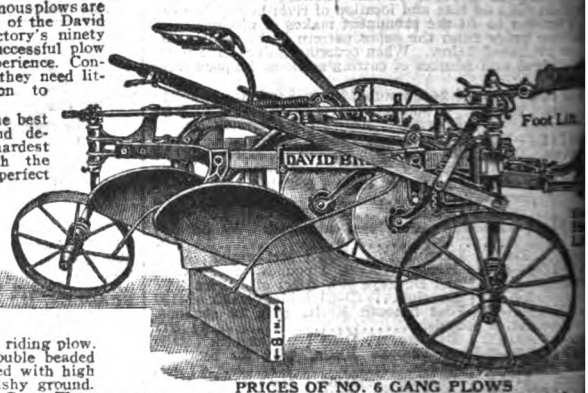
These famous plows are the product of the David Bradley factory's ninety years of successful plow building experience. Consequently, they need little, if any introduction to farmers.

They are made from the best materials procurable and designed to meet the hardest plowing conditions with the least possible draft. So perfect is the design of their foot lift and lever arrangement that a small boy can operate them with remarkable ease.

Frames are formed from extra heavy first quality bar steel, 2¼ inches wide by ⅝ inch thick, making one of the heaviest frames put on any riding plow.

Beams are highest quality double beaded beam steel, 1¾ in. thick, formed with high arch for ample clearance in trashy ground.

Beams on Northwest Special Gang Plows are 2 inches thick.



Bottoms are the famous David Bradley Garden City Clipper Bottoms, with double shin moldboards made of har. tempered soft center steel.

Shares are hard tempered soft center steel, 5/16 inch thick, and are reinforced by welding a ¼ inch slab of steel on top, the point where wear is greatest. Uniformly tempered, finely ground and polished.

Wheels are steel, with staggered spokes set into long dustproof "long distance" hubs, and have wide half oval tires. Land wheels are 34 inches high, front furrow wheels 24 inches high and rear wheels 20 inches high. Wheel bearing surfaces are 9 inches long. The pole plate lever permits quick adjustment of the furrow wheel from the seat.

The hitch is adjustable by simply loosening a bolt and sliding clevis to right or left, affording greater accuracy than when limited to a number of holes spaced a given distance apart.

Bradley No. 6 Gang Plow

PRICES OF X-RAYS SULKY PLOWS.

Prices are for the plows complete with three-horse hitch, pole, neckyoke, Bradley 15-inch rolling coulter, weed hook and wrench. Jointer will be furnished in place of coulter if so ordered.

David Bradley Ideal Tongueless Disc Harrows

Illustration Shows Harrow 32N334.

These machines possess every important improvement in disc harrow construction. The frame is made of heavy steel throughout. It is rigidly braced in all directions. The gangs have bumper washers on their inner ends and are operated by independent levers. The steel bars connecting the levers with the disc gangs are placed under a heavy steel yoke, which is adjustable up and down on the frame. **Hitch is low** and the pull is direct from the gang bearings.

Weight boxes are heavy steel. Discs are carefully tempered steel and highly polished. **Dustproof bearings run in oil soaked maple boxes** and are provided with large compression grease cups. Axles are steel, ⅞ inch square. **The oscillating spring steel scrapers** are operated by slight foot pressure on a foot lever at each side of seat post. They are also provided with a **throw-off lever** at rear. **The spring seat post,** fully covered by Bradley patents, can be used on no other disc harrow. This feature, together with the large roomy seat, makes the David Bradley Ideal an extremely easy riding disc harrow.

A David Bradley adjustable oscillating tongue truck is secured to the stub tongue.

The truck relieves your horses of worry and neck weight and makes it possible for you to work clear out to the edge of plowed ground, close to fences, and to turn corners easily. The tongue truck can be easily detached and used on numerous other implements. If you wish us to furnish a pole with the harrow, we will do so for $2.10 extra. If you intend to use a forward pole, you should order extra either our 32N348 Pole Plate, price extra, 60 cents, or 32N349 Offset Pole Attachment, price extra, $1.50. **Buy this harrow and you will have a disc harrow as satisfactory and up to date as you could purchase at any price,** a machine which does perfectly uniform work. **Prices are for the disc harrows complete with eveners, scrapers, weight boxes and tongue truck.** We furnish a two-horse hitch with harrows having eight and ten discs, a three-horse hitch with harrows having twelve discs and a four-horse hitch with harrows having fourteen, sixteen, eighteen or twenty discs.

Shipped from BRADLEY, ILL., KANSAS CITY, MO., or HARRISBURG, PENNA.
If disc harrows are wanted with pole, and without tongue truck, deduct $3.90 from es at right.

BRADLEY TRACTOR DISC HARROW

One needs but to consider the meritorious features of this David Bradley Heavy Duty Tractor ow to be convinced that the Bradley factory has scored another triumph in having overcome the known faults that have been common to the many makes of tractor harrows.

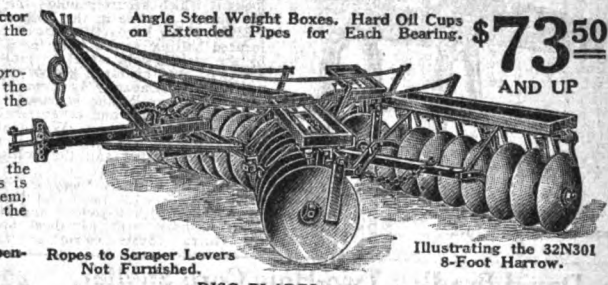
ALL BEARINGS RELIEVED OF SIDE THRUST.

Disc blades do their work entirely by side thrust. The end strain of a disc gang is in the same pro- ion as the forward pull, and all of this strain would be borne by end thrust on the bearings if the per" principle were not used. This is the way horse drawn harrows are made and the way the rd gangs of tandem harrows are made, but with others when it comes to making the trailer or gangs of tandem harrows, they abandon the very principle that has added so many years to fe of disc harrows.

SWIVEL CHAIN END THRUST EQUALIZER.

Flexible swiveling chain connection between rear gangs equalizes the end pull of the gang just the as when the forward gangs roll together on bumper washers. The only strain on the bearings is orward pull. Though the gangs usually revolve at the same speed, the chain revolving with them, sion is made for either gang rolling independently by chilled swivel connections at each end of the

CROSS ARM COMPENSATING TRAILER CONNECTIONS.



Our rear gangs are guided and rear discs held to splitting the furrow of forward discs by compen- g connections or drawbars. Every farmer knows the tendency of a disc harrow to kle up" in the center and the inner discs to run shallow; in a tandem harrow the of rear gangs being reversed, it is the tendency of inner discs to run too deep, by the manner of crossing the Bradley compensating drawbars these forces are ized. Thus the deep running discs of rear gangs exert their force on the shallow ng discs of front gangs and all are kept cutting at a uniform depth. Straight line is accomplished for the rear gangs. The draft is direct from the tractor to the ngs on the front gangs and direct from the same front draw irons through the ensating connections to the rear bearings. The front bearings carry none of the t of rear gangs.

BEARINGS.

Here again Bradley construction scores an advantage. We use oil soaked hard liners in all bearing boxes. Both front and rear boxes are interchangeable, a dvantage in repairs.

FRAME AND WEIGHT BOXES.

The forward frame and stub pole is made into one solid unit from heavy angle Weight boxes are formed from angle steel and are regular equipment.

David Bradley Steel Guarded End Lever Harrows.

Popular for use in new and stumpy ground. The sides and front end of the harrow are protected by a heavy steel I beam which forms the frame. The U shaped steel tooth bars are fastened to this frame at each end, making a very rigid construction. This outer frame serves to prevent the harrow from catching on trees, stumps, stones or other obstructions. The teeth are triangular in shape. They are 7 inches long and connected to the bars with the celebrated steel tooth clip, the same as used on the Bradley U-bar harrow. This clip s one to place the teeth as far apart as desired or to use as many teeth on a wanted. Teeth are swedged. Harrows are made in sections having either 25 or eth; each section has five tooth bars and runner tooth at each corner. The th sections cut about 4 feet and the 30-tooth sections 4¾ feet wide. Illustration shows a 60-tooth two- harrow. Wood drawbar and irons furnished with hree and four-section harrows. Draw irons only with ction harrows.

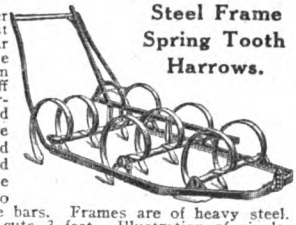
David Bradley Reversible Disc Harrow and Cultivator.



It serves the purpose of a disc harrow or a disc cultivator. The discs can be set at any angle desired and can be reversed to throw the dirt in or out. Can be set close together for harrowing or separated so as to straddle the row. Distance between gangs adjustable up to 18 inches. When set close together inside discs will be 6 inches apart. When discs are close together the six-disc machine cuts about 3 and the eight-disc machine cuts about 4 feet. Discs are 16 inches in diameter, tempered and polished. Aside from cultivating grain, hilling potatoes, cultivating tobacco, etc., this implement can be used to run between rows of berries, grapes, etc., for which work the ordinary disc harrow is too wide. Discs can be tilted either way so as to hill or trench. They have oil soaked maple bearings. Neckyoke and pole with two-horse hitch furnished regularly. Scrapers furnished at extra prices shown.

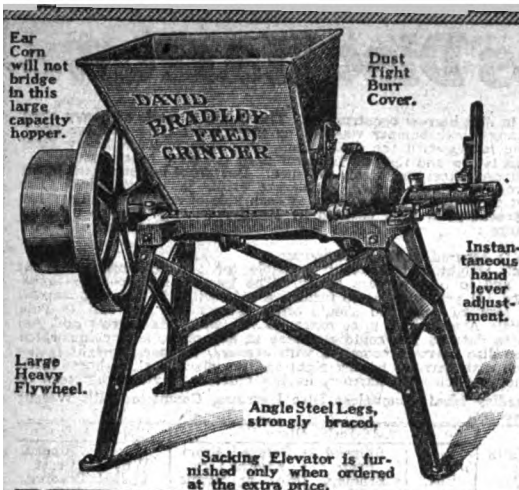
David Bradley Grain Drill.

ONE-HORSE FIVE-DISC DRILL.

Excepting the sides and lid of seed box, this drill is of steel construction throughout. The box is mounted on heavy angle bars and to these bars are also attached the feed cups, making a solid unit in which true alignment is assured. The feed is of the well known fluted force feed type which will sow any small grain or larger seeds, such as cow peas or corn, without cracking. Feed is chain driven from front wheel and amount sown is shown on gauge, which is changeable while in motion; agitator furnished regular, hence their adaptability to handling long bearded oats.



The 13-inch polished discs run on dustproof bearings, having large receptacles for hard grease. Distance between discs is adjustable and they cut an extreme width of 34 inches. **Weight of drill is carried on front wheel and two rear caster wheels,** allowing discs to float at any desired depth, which is maintained by the pressure springs above each disc. Depth adjustment is instantly regulated by releasing hand latch and raising or lowering the handles. **The two outside discs are pivoted at the clevis** and swing against compression springs which allow them to give when striking obstructions. **Drill is equipped with steel ribbon tubes, covering chains and hand guards.**

Shipped from factory at BRADLEY, ILL.

Digitized by Google

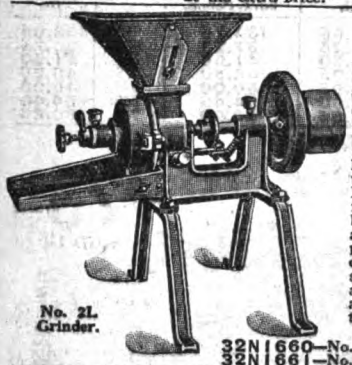
David Bradley Cob Crusher Feed Grinder

Successfully grinds corn on the cob (without the shuck), shelled corn, oats or other small grain and to most any degree of fineness from cracked feed to table meal.

The cob breakers which cut and crush the cobs are set spirally on the heavy shaft and force the grain between the corrugated ring crusher and worm feed, which set next to the burrs and keep them working to their full capacity. Gate between hopper and burrs regulates the amount according to the power available. Burrs are 8-inch, self aligning, are protected by a cushion spring, easily changed, and are instantly thrown out of gear by a handy safety lever. The frame bed is one solid casting with a hinged bottom held to place by wood brake pins, which protect the grinder against solid obstructions that may be in the grain. The stanch construction of this grinder, with the heavy angle steel legs solidly braced, large, true running bearings with hard grease cups and the balanced heavy flywheel, insure long years of service.

Grinder should run 300 to 350 revolutions per minute and requires 4 to 6 horse-power. Pulley is 12 inches in diameter with 6-inch face, or we will furnish either 8x6, 10x6 or 14x6-inch pulley instead without extra charge. **Please state size of your engine pulley and its speed.** Capacity depends on the power, the speed, the kind of grain and its condition. The range of capacities is from 10 to 25 bushels of dry ear corn and 10 to 40 bushels of shelled corn, wheat, oats or barley per hour. Regularly furnished with one set of coarse burrs for crushing or cracking ear and shelled corn for rough feed and one set of medium burrs for finer grinding of shelled corn and small grain. At the extra price we furnish special oat burrs, which are also suitable for grinding table meal.

The sacking elevator is furnished only when ordered at the extra price shown.



Illustrating the "Slice Cut" Burr furnished as extra at extra price quoted.

David Bradley Small Grain Grinder

A feed grinder and family meal and flour mill combined.

No. 2L Grinder.

We have developed this mill to meet the demand for a general purpose mill which can be used for grinding meal and flour for table use as well as the coarser classes of work. It is designed for use with gasoline engines, 1 horse-power and larger. Its capacity, of course, depends upon the power furnished and the class of grinding desired, but in any event we believe you will be surprised at the results and highly satisfied. The self aligning 5¼-inch burrs are mounted in a dust tight case with hand wheel adjustment for fineness of grinding, and hand lever locknut which securely holds the adjustment desired. The removal of two bolts gives access to the burrs. A slide in the hopper regulates the quantity of grain admitted to the spiral FORCE FEED, which keeps the burrs working to their full capacity for the power available. The perforated bolting screen bolts corn meal, graham flour, etc., ready for table use and is operated by the wabble cam wheel on main shaft. The main shaft runs in long babbitted bearings which are lubricated by large grease cups. Pulley is 4x4 inches and should run 700 to 750 revolutions per minute. Capacity is from 5 to 15 bushels per hour, depending upon fineness of grinding, condition of grain and horse-power used. Furnished with one set of coarse burrs for grinding shelled corn, oats and other small grains for feed, and one set of fine burrs for grinding meal and flour for table use. We regard this mill as one of the best values we have ever offered in a small grinder and guarantee it to satisfy you in every respect. Each grinder is furnished with two sets of burrs and the bolting screen.

David Bradley Two-Hole Corn Sheller.

A two-hole table feed sheller of exceptional merit and large capacity. Frame and parts are of extra heavy construction. Balance wheel is extra heavy. Sheller stands 40 inches high, 14 inches wide, 29 inches long. Frame over all is 52 inches long, including the cob carrier. Feed spouts have adjustable rag irons and springs. Fan has strong blast. Sheller has a capacity of 350 to 450 bushels a day with power. Pulley is 10 inches in diameter, with 3½-inch face, and should be speeded about 350 revolutions per minute. A 1 horse-power engine will handle sheller easily.

Large illustration shows sheller with sacking elevator; small illustration shows sheller with wagon elevator and cob stacker, but price on sheller does not include any of these attachments, which are furnished only at the extra prices quoted below. Price on sheller includes crank, pulley, fan and feed table.

Eureka Stone Burr Mi

These mills are fitted with native stone which make a soft meal. Are preferred in sections, especially the southern states, making table meal. They also do good work grinding shelled corn and small grains for ing purposes, and are suitable for custom as well as for individual farmers' use.

The wood frame is made of extra heavy lumber. Entire construction is very strong the mill is well finished throughout and painted. Hopper is wood. Feed is adjustable for regulating flow of grain and is self-locking. A fan cleaner blows out light trashy before reaching the burrs.

The bolter or sifter is driven from an tric on main shaft. Bolter can be attached detached while mill is in motion. These mills will grind rapidly, coolly and Instructions are furnished for operating mills and for redressing stones. **Shipped from factory in NORTH CAROLINA.**

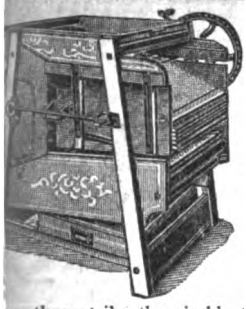
For Small Hand Sheller see page 1010.

Triple Geared Ball Bearing Swe Feed Mill.

For grinding corn and cobs, shelled corn, oats and other small grain for feeding, but will not grind ear corn with the husks.



Easy running and has good capacity. Ball bearings support the internal revolving mechanism. The gearing is enclosed. The cob breaker breaks the ear corn and forces it into the grinding rings, which make three revolutions to one round of the horse. Average capacity, based on coarse grinding of dry corn cobs, is from 8 to 15 bushels an hour when horses are used. Grinding rings regularly furnished with the mills are for coarse grinding of corn cobs or shelled corn for feeding purposes. For fine grinding of shelled corn or for grinding wheat, rye or other small grain, fine grinding rings are required. Capacity on shelled corn is from 10 to 20 bushels an hour, oats, 4 to 8 bushels an hour. Grinding medium or fine with fine rings reduces the capacity one-third to one-half. The mill is mounted on a platform. Price is for the mill complete with one pair of grinding rings only, sweep and hitch. **When ordering mill or extra rings, state whether you want coarse or fine grinding rings. Shipped from factory near CHICAGO.**

32N1620—Triple Geared Sweep Feed Mill. Weight, 635 pounds ..... $42.

32N1621—Pair of Extra Grinding Rings. State whether coarse or fine is wanted.). Weight, pounds .....

No. 6 Model X-L-ALL Fanning Mill and Grain Grader

Cleans, Grades and Separates Any Small Grain All in One Operation.

This double-shoe mill, with its regular equipment of screens and riddles, will clean and grade wheat, oats, barley, beans, peas, corn, buckwheat, rice, cotton seed, clover, alfalfa, timothy, etc. The regular equipment consists of four riddles and four sieves and covers all ordinary work. For special separation and grading see list of extra attachments. Riddles and screens are all the same size, 25x27½ inches; this permits screens being used in upper shoe as riddles when desired and is a marked advantage over fixed riddles. Screens are kept clean and prevented from bagging by scrubbing bars. Upper shoe has side shake and lower shoe has end shake, the length of shake being adjustable. **The side spout** is the outlet for all small seeds re they strike the air blast. This saves for recleaning such seeds as tim-, which are ordinarily blown out with the chaff.

The extra large hopper, holding about 2 bushels, has two distinctive and able features, the **feed regulator and agitator.** The slide regulator admits the desired amount of grain to the riddle and the agitator keeps the grain ing evenly without the possibility of clogging. Another valuable feature is screening box or drawer shown in the bottom of the mill, which prevents screenings becoming mixed again with the grain.

Mill is 3 feet 7 inches long, 3 feet 7 inches high and 3 feet wide. All lumber l in its construction is selected high quality and thoroughly kiln dried. acity, 60 bushels of grain per hour.

Shipped from factory in NORTHERN INDIANA.

2N1727—**No. 6 Mill without sack-elevator.** Weight, 225 lbs..... **$35.75**

2N1754—Sacking Elevator for **No. 6** Weight, 60 lbs..... **$9.95**

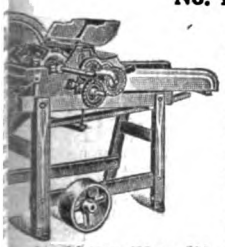
2N1730—**Flax Attachment.** For ordi-clean threshed flax. Takes mustard, , oats, weeds, etc., from Weight 10 pounds..... **$4.07**

2N1737—**Lespedeza or Japanese Clover Attachment.** Consists of five zinc riddles and two screens. Weight, 20 pounds..... **$8.15**



2N1732—**Barley Attachment.** For separating barley from oats. Weight, 14 pounds..... **$7.10**

2N1755—**Timothy Attachment.** Takes out sand, clover, alfalfa, millet, alsike, red top; also pepper grass, plantain, daisy and other weeds. Weight, 15 pounds..... **$7.38**

2N1751—**Power Attachment.** Consists of 8x2-inch tight and loose pulleys with socket wheels and chains; should run about 350 revolutions per minute. Weight, 15 pounds..... **$2.50**

NOTE—These mills are not intended for hulling or shelling peas, but with the ment regularly furnished they will clean and grade peas already hulled. We do ndle pea hullers.

No. 11 Power Feed Cutter.

Extra strong construction. Frame is heavy hardwood, strongly braced. Feed table is long, broad and deep, with fixed sides, and feed throat is large to permit quick and easy feeding. Shaft is heavy 1¼-inch rolled steel.

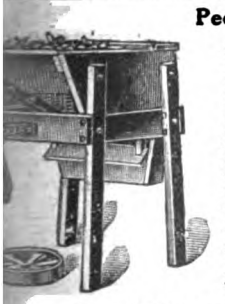
Feed rolls are large and driven by expansion gearing. Pressure on upper roll is controlled by the long hardwood spring shown underneath the feed table. A handy lever quickly starts or stops rolls and gearing. Sliding cone gears provide for quick change of lengths of cut.

Has four tempered steel knives, 11 inches long, which make a downward shearing cut. Steel cutter bar has four edges and all can be used before regrinding. Machine cuts ¼, ⅝ and 1 inch long or, by removing two opposite knives, cuts will be ½, 1¼ and 2 inches long. Flywheel is very heavy and has safety friction block. Pulley is 12x4 inches. Requires 1 to 2 horse- should run 400 to 500 revolutions per minute, and will cut sufficient feed for to forty head of cattle. Capacity, per hour, 1 to 1½ tons of dry fodder or 2 ons of green fodder.

an additional convenience we can furnish a crank for occasional hand use, but e is too heavy for continuous hand use. Crank is extra. **Shipped from factory o.**

2N1530—**No. 11 Power Feed Cutter.** Weight, 380 pounds..... **$46.25**
2N1531—**Crank for hand use**..... **1.25**

Bradley No. 5 Hand Feed Cutter.



A very handy, easy running feed cutter. While not intended to take the place of our larger Nos. 8 and 10 machines, No. 5 does as good work up to its capacity. Cuts hay, dry or green fodder, cornstalks without the ears, etc., and will not clog if properly fed. Frame is strongly bolted together and strongly braced. All mechanism carried on heavy cast end frame. Hard tempered steel cutting knife, 11 inches long, makes a downward shearing cut against a hardened cutting edge and makes three cuts to one turn of the crank. Machine cuts from ½ to 1½ inches long.

Length of cut is regulated by eccentric which operates ratchet on upper roll, and is instantly changed to length desired by thumbscrew adjustment. Upper roll is spiked and raises and lowers with light or heavy feeds. Lower roll is smooth. Shaft is 1-inch rolled steel. Balance wheel extra heavy.

pacity from 150 to 200 pounds of dry fodder, and from 300 to 400 pounds of green per hour. **Shipped from BRADLEY, ILL., or from our PHILADELPHIA store.**

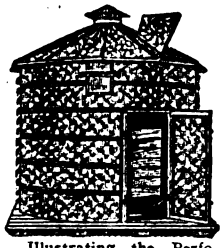
Peerless Root Cutters.



Root crops supply a tonic your stock needs and which is not found in other feeds. A balanced ration will obtain better results and a saving of the more expensive feeds. These machines cut all kinds of roots and vegetables into long, half round pieces, just right for feeding cattle, hogs and sheep. The cutting is accomplished by half round shaped knives set in the face of a heavy cast cutting disc. Knives are easily replaced or sharpened. A grate in the hopper allows dirt to fall through before it reaches the knives. Cutters are staunchly made with hardwood frames bolted together and well painted. No. 1 and No. 2 machines are the same, except that the No. 2 is equipped with a 12x3-inch pulley for power. Used with power it should run 80 to 100 revolutions per minute. **Shipped from factory in NORTHERN OHIO.**

2N1395—**No. 1 Root Cutter,** with crank for hand power only. Capacity, 30 to 50 bushels per hour. Weight, 100 pounds..... **$12.45**

2N1396—**No. 2 Root Cutter,** with crank and ch pulley. **Capacity, by power,** 60 to 80 bushels per hour. Weight, 110 ..... **$14.00**

Galvanized Steel Corn Cribs and Grain Bins.

Illustrating the Perforated Corn Cribs. **Price does not include wood platform, shovel or door boards.**

Corn or grain stored in these steel bins is kept in perfect condition. The bins are rainproof, ratproof and fireproof; lightning will not harm them. They are of strong construction, made from No. 22-gauge galvanized steel for the body and No. 26-gauge for the roof. The sheets extend horizontally around the body and are strengthened by double corrugations, one pair of corrugations around the center of the sheet, another pair of corrugations at the top and bottom of each sheet. This makes a corrugated overlapping joint continuously around the body, closely bolted together. Where ends of sheets meet they overlap and are bolted together, the bolts being staggered. Steel circles extend around top and bottom of body inside and the sheets are bolted to these circles. All bolts are galvanized and are closely spaced. Bolt holes are punched with gang punches and sheets will always go together easily. Door frames are strongly formed and doors are bolted to a heavy steel frame with good strong hinges and double steel hasps which can be fastened with padlock. Roof is made in sections joined by standing seams and sections are fastened with bolted clamps and then bolted to body. Hinged door in roof has hasp for locking. Perforated ventilating pipe extends from floor to top ventilator. The body perforations are elliptical, slightly larger at top than at bottom. The tongues of metal are punched out far enough to provide full ventilation, yet the projecting tongues prevent rain beating in. Bottoms are not included at our prices, but are extra. Bolts and anchors are furnished for setting on concrete or wooden floor. **Shipped from factory in CENTRAL OHIO or warehouse at KANSAS CITY, MO.**

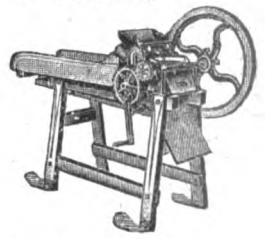
Can furnish larger sizes of round cribs, oblong cribs and cribs of double shed construction. Write for prices.

Portable Corn Cribs.

Made by automatic machinery, and entire uniformity in construction and spacing prevails. Made of heavy fence lath, 4 feet long, securely woven together with five pairs of No. 12 galvanized wires.

Single cribs consist of one single section, making crib 4 feet high. There are 48 lineal feet of cribbing in the 400-bushel crib, 55 feet in the 500-bushel crib, and 67 feet in the 600-bushel crib.

The double section cribs consist of two sections, one set on top of the other, making crib 8 feet high. There are 74 lineal feet of cribbing in the 400-bushel crib, 88 feet in the 600-bushel crib, 108 feet in the 900-bushel crib, 124 feet in the 1,200-bushel crib, and 138 feet in the 1,500-bushel crib.



Capacity is figured at 2 cubic feet to the bushel. Weights vary according to kind of wood used.

When not used as a crib, they make a good garden fence. **Shipped from factory near CHICAGO, ILL.**

If interested in Power Feed Cutters of larger capacity than those shown on this page, write for our Farm Implement Catalog 645GCN.

Bradley Nos. 8 and 10 Hand Feed Cutters.

Built of high quality materials in a first class manner. Have gearing to change length of cut and lever which instantly starts or stops feed rolls. Feed rolls are governed by wood spring shown underneath feed table. Have two tempered steel knives which make a shearing cut against a hardened cutter bar. Will cut either ½ inch, ⅝ inch or 1 inch long, and length of cut may be doubled by removing one knife. Pulley can be attached to shaft. **Pulley is extra.** By power, machine should run from 400 to 500 revolutions a minute. **The No. 8 Cutter** has knives 8½ inches long. Capacity by hand, 200 to 300 pounds of hay or dry fodder or 400 to 600 pounds of green fodder per hour. By power, the capacity can be doubled. **The No. 10 Cutter** has two knives 10½ inches long. Capacity by hand, 300 to 450 pounds of hay or dry fodder or 600 to 900 pounds of green fodder per hour. By power, capacity can be doubled. Each cutter has heavy safety flywheel. **Shipped from BRADLEY, ILL.**

David Bradley Saw Frames

Superior Quality Guaranteed.

For other styles of Rips see pages 1028 and 1029.

Extra well made and finished. Frames are heavy selected lumber, strongly bolted together, and nicely painted. Shafts are 1½-inch cold rolled steel with 5-inch arbor flanges and run in large babbitted bearings which are grooved to prevent end play and connected by a heavy iron frame, insuring perfect alignment. Pole Saw Frames are furnished with 100-pound balance wheel. Either 65 or 100-pound wheels are furnished **with Extension Table Frame** and all are turned to true balance. All pulleys are 5-inch diameter with 6-inch faces. Frames are shipped knocked down, thus securing low freight rates. Directions for setting up accompany each frame. **Rip saws cannot be used on these frames** and 30-inch is the largest cut-off blade that can be used.

Made right hand only. For sawing poles or regular 4-foot cord wood. The table (the table with extension parts 32N2109 purchased separately) can be set at the side for sawing long poles, as shown in the illustration, or in front of the saw for sawing cord wood. The shaft is 4 feet 5 inches long with 1⅛-inch arbor and 5-inch arbor flanges.

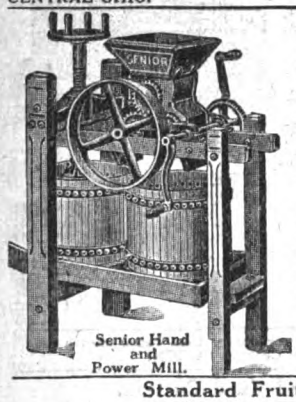
For Farm Bells see page 1017.

Our Famous Crystalline Bells.

Guaranteed for Five Years Against Breakage.



Cast from a special mixture of metal of high quality. Thousands of schools, churches and factories use our Crystalline bells with perfect satisfaction.

We allow sixty days' trial on every Crystalline bell we sell. During this period you can give it a thorough trial. Compare it in tone, volume and quality with composition bells of any other make, and if you find any reason to be dissatisfied you can return the bell to us at our expense and we will return to you every cent you paid for it, including transportation charges.

Thirty-eight inch and larger bells are mounted on **roller bearings.** These bearings enable one person to ring our largest bells with great ease. Bells 24 inches and larger are fitted with our **improved springs and clapper,** which insures a full stroke of the clapper without the possibility of a second stroke. Iron rope wheels are furnished with 20 to 36-inch bells and sectional wood rope wheels with 38 to 48-inch bells. **Tolling hammer is furnished with church bells.**

Prices are for the bells complete with frame, wheel and wood sills. **Shipped from factory in CENTRAL OHIO.**

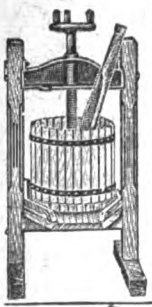
Senior Hand and Power Mill.

Standard Cider Mills.



The frames are heavy hardwood, strongly bolted together. The grinding parts are cast iron and steel. Cross heads for press screws are extra heavy cast iron. Press screws are steel, accurately threaded and fitted. These mills will grind grapes as well as small and large apples. **The Junior mill** has a capacity of two to four barrels of cider per day. Tubs are 10 inches high by 12 inches outside diameter. **The Medium mill** has a capacity of three to six barrels of cider per day. Tubs are 12 inches high and 13½ inches outside diameter. **The Senior mill** has a capacity of six to twelve barrels of cider per day and tubs are 14 inches high by 17 inches outside diameter. Balance wheel on Senior mill has wide face and can be driven by belt from engine. Each size is back geared and has a heavy balance wheel. Hoppers are large and have forced feed. The Junior and Medium mills are of the same general construction, differing only in size, and are operated by a single crank. The Senior mill is much larger, is double back geared and fitted with two cranks. Tubs are strongly made of smooth selected hardwood with heavy wrought iron hoops. **Shipped from factory in EASTERN INDIANA.**

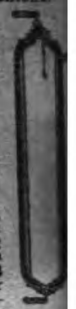
Positive Feed Family Cider Mill.

A first class single tub cider mill and press for family use which will do a satisfactory quantity and quality of work. It is a geared mill and has a larger hopper and wider throat than usually found in mills of this type and will handle larger apples. It is strongly constructed and nicely finished in natural wood. Capacity is one to two barrels of cider per day. Tub is 12 inches high and 13½ inches outside diameter. Press screw is heavy steel, accurately threaded. **Shipped from factory in EASTERN INDIANA.**

32N2386—Force Feed Cider Mill. Weight, 150 pounds **$16.85**

High Quality Road Scrapers.



Made of Heavy Gauge Steel.

Bowls are pressed from a single sheet of special high carbon scraper steel, and by a special method of stamping the full thickness of steel is preserved at the point of greatest wear. Corners, sides and back are formed on a gradual curve, causing scrapers to fill and clean easily. Sides are stiffened by a projecting flange all around upper edge. Nose is rounded and enters ground easily. Bail and swivel are heavy forged steel. Hooks and handle sockets are heavy steel securely riveted in place. Hardwood handles. **Double runner scrapers** are the favorite, having two runners of hardened steel riveted to bottom. Double bottom scrapers have an extra bottom plate of hard steel, 13x21 inches, riveted to bottom. Our scrapers are unsurpassed for the heaviest work of farmers, contractors, townships and railroads. **Shipped from factory in WESTERN OHIO.**

Peerless Oval Steel Stanchions.

Our Most Popular Pattern.

Side bars are heavy U bar steel, lined with smooth, rounded hardwood strips. The channel of the steel U bars, being turned inward, the wood linings are firmly supported by the steel.

Hinge, latch and top are malleable castings.

Adjustable top and bottom for 5½, 6½ and 7½ inches neck space, and are 48 inches high inside. Chains, 6 inches long. Durably finished in black japan.

32N2214—Oval Steel Stanchion, Plain. Weight, 21 lbs. **Shipped from factory near Chicago, Ill. ... $2.52**

Shipped from Philadelphia store $2.68

32N2220—Bottom Anchor for fastening any chain stanchion to concrete curb. Weight, 1½ pounds **26¢**

32N2221—Malleable Clamp with bolt for hanging stanchion to pipe frame (1⅝ inches outside diameter). Weight, 8 ounces **2**

Peerless Two-Way Steel Stanchion.

Sides are heavy steel U bars lined with hardwood strips. Open both ways from the center, giving extra wide head space. A lug or cog wheel pivoted in the center engages with the two reversible top bars, causing them to move in or out equally on both sides. Stanchion is about 48 inches high inside. Neck space is adjustable. Spring latch locks stanchion when closed. The U bar construction provides a rigid frame all around.

32N2211—Peerless Two-Way Stanchion. Weight, 5[illegible] **Shipped from factory near Chicago, Ill. ..... $3.[illegible]**

Shipped from Philadelphia store ..... $4.[illegible]

Model A Stall, regularly furnished with Stanchion 32N2211 will be furnished with the Two-Way Stanchion 32N2211 at an extra price of $1.25 per stall.

Peerless Wood Bar Stanchions.

Low priced, but strong and satisfactory.

Side bars are clear white hardwood, rounded, smoothed and oiled. Tops and bottoms heavy malleables. Adjustable for 5, 5½, 6, 6½, 7, 7½ or 8 inches neck space. Cowproof lock.

Pivot swinging or chain hanging. Pivoted stanchion has a tumbler which prevents stanchion turning in frame when open. Stanchions are 49 inches high inside. Chains are 6 inches long, pivots are 2½ inches long.

32N2215—Wood Stanchion, Pivot Hanger. Weight, 17 lbs. **Shipped from factory near Chicago, Ill. $2.19**

Shipped from Philadelphia store $2.35

32N2216—Wood Stanchion, Chain Hanger. Weight, 17 pounds. **Shipped from factory near Chicago, Ill. ..... $2.**

Shipped from Philadelphia store ..... $2.

For Barns and Silos see page 1160.

X-L-All Lime and Fertilizer Sower.

Strongly built to handle all kinds of commercial fertilizers, ashes, lime, [illegible] pulverized limestone.

The agitator and force feed consists of [illegible] cast paddles or propeller wheels mounted on 1¼-inch square steel shaft axles and driven by both wheels. Each wheel drives half the [illegible] and a clutch, operated by a hand lever, throws out one or both drives.

The feed wheels are spaced 6 inches apart, directly over each discharge opening in the bottom. Two steel rods extending full length pass through each feed wheel and in addition strengthening the feed they serve as agitators.

Hopper holds 10 bushels, is strongly built of good lumber, well braced, with hinged [illegible] sheet iron bottom. A removable galvanized [illegible] keeps obstructions out of discharge opening. A deflecting board underneath distributes fertilizer uniformly. Size of openings regulated by [illegible] lever to sow any desired quantity. When sowing, 8 feet. Steel wheels, 30 inches in diameter, 4-inch concave tires. Price includes [illegible] without neckyoke or eveners. **Shipped from factory in WESTERN OHIO.**

Defiance Horse Power Cane Mills.

The strong and heavy construction of these mills insures long wear, and with the large rolls a large capacity is possible, at the same time pressing the cane dry. They are made rigid by a solid panel frame in both front and rear. This prevents the gears and rollers from getting out of line, which would cause friction. The gears are cast separate from the rollers, two large clutches on each engaging with the rolls. Gearing is encased and cannot become clogged. The three rolls are of large diameter and are turned from extra hard iron with serrated surface. Main rolls are flanged at top and bottom. Shafts are extra heavy cold rolled steel. Top and bottom journals run in brass boxes. Estimated capacities are stated in tons of cane per twelve hours. Illustration shows single pitch cap, but double pitch cap for two sweeps will be furnished if so ordered. **Shipped from factory in SOUTHERN ILLINOIS.**

32N2374—No. 2 Fruit Drier. Wt., 65 pounds $8.00

David Bradley Steel Beam Potato Hillers and Diggers.

beams are made of forged steel with high arch to clear in patches and an adjustable rear gauge wheel regulates the Blades are ground and polished. The digger blade has six steel rods in addition to the flat side blades. It works with draft and throws potatoes out of the ground without cutting them. The hiller or wing shovel blade has hinged wings, which are adjustable for width. Either the hiller or digger blade can be used on the same beam and it is but a moment's work to detach one and replace it with the other. If front gauge wheel is wanted it must be ordered and paid for extra. We recommend its use especially in hard ground. Buy the combined hiller and digger. Every farmer has need for both and the combination will serve as both. **Shipped from BRADLEY, ILL., or KANSAS CITY, MO.**

David Bradley Shaker Potato Digger.

This digger will give good results under proper working conditions, but no shaker digger will do good work in ground too soft or loose to turn the trip wheel. If other growers are using shaker diggers successfully you can order the David Bradley with assurance that you are getting a good digger. The roller weed fender parts the weeds and vines, leaving the way clear for the blade. Blade is hardened polished steel, flat in shape, 17 inches wide, 15 inches long. The rod platform is operated by a trip shaker wheel underneath. The rods on the shaker platform are malleable, 20 inches long, and will not break. Beam is heavy steel and high arched. Shaker has side rails which prevent the potatoes from shaking off at the side. Clevis is adle. We furnish this digger with or without adjustable gauge wheel truck, shown stration. The truck straddles the row and holds the digger at a uniform depth. ecommend that you buy digger complete with truck. **Shipped from BRADLEY, or KANSAS CITY, MO.**

Globe Bee Veil With Springs.

Made of French cotton tulle with silk face piece. Five spring steel bars keep the veil away from the face and neck. These bars button to studs on neckbands of veil.

32N3544—Globe Bee Veil. Weight, 5 ounces $1.10

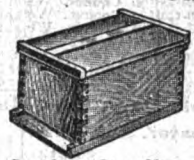
Little Giant Engine Power Cane Mill.

For Use With Small Gasoline Engines.

Strongly built and thoroughly well made. A strictly high grade cane mill in every way. Large roll is 8 inches in diameter; small rolls are 5½ inches in diameter, and all rolls are 8 inches long. Large rolls flanged to give full width for pressing. Rolls are corrugated to insure a positive feed and are adjustable by screws for large and small cane. Steel shaft in large roll is 2 5/16 inches in diameter; in small rolls, 1 15/16 inches in diameter. Shaft boxes are babbitted with hard engine babbitt. The frame consists of very heavy castings held together with heavy bolts extending through from one side to the other, all forming a very strong and rigid structure. Mill is double back geared to adapt it for use with small gasoline engines from 2 horse-power upward. Pulley is 12 inches in diameter with 4-inch face and should run about 250 revolutions per minute. Estimated capacity of mill is about 1 ton of cane per hour. **Shipped from factory in SOUTHERN ILLINOIS.**

32N2420—Little Giant Engine Power Cane Mill, on wood platform, as illustrated. Weight, 650 pounds $74.20

If interested in Cane Mills of larger capacity write for our Farm Implement Catalog 645GCN.



BEE KEEPERS' SUPPLIES.

We can supply nearly everything used by bee keepers. If the articles you want are not listed on this page, write us for prices.

The bodies of our hives are made of clear white pine, free from sap. This material takes a smooth finish and cuts easily, permitting the very close accuracy of fit which is so necessary to insure a perfectly satisfactory completed hive.

Beehives are always shipped partly knocked down and are not painted. Complete and simple instructions for putting together are sent with each crate of brood chambers and supers, and a sufficient supply of nails is also included. **Beehives, sections, frames and similar supplies are shipped from our CHICAGO store. For Eastern trade, from our PHILADELPHIA store.**

One-Story Dovetailed Hives.

These are the standard hives—universally used by bee keepers—and are fitted with Hoffman frames, which are pierced for wiring. Excelsior cover and reversible bottom. No foundation starters or division board furnished. The metal roofed double cover, which we furnish at an additional price, has telescoping sides which fit down over the hive and an inner wood cover which can be used as an escape board.

Supers, or upper stories, are not included. To make 1½-story hives you must also order the style of super desired; or you can make full depth 2-story hives by ordering the hive bodies we list below.

Complete 1-Story Hive		Wood Cover	Metal Cover
32N3501¼—	Crate of five 8-Frame 1-Story Hives. Wt., 113 lbs.	$11.95	$14.50
32N3508¼—	Crate of five 10-Frame 1-Story Hives. Wt., 130 lbs.	12.85	15.40

32N3499¼—	Single 1-Story 10-Frame Hive. Weight, 28 lbs.	2.95	.....

Hive Bodies.

Complete with frames but without cover and bottom. The Jumbo hive body has the same dimensions as the standard 10-frame except that it is 11 15/16 inches deep, standard being 9 9/16 inches deep, and is designed to accommodate those who prefer a brood chamber deeper than the standard 10-frame. No division board or foundation starters furnished. Nails and tin rabbets are included. These bodies may be used as brood chambers or as a full depth upper story to make a full 2-story hive for extracted honey.

32N3480¼—Crate of five 8-Frame Standard Hive Bodies. Weight, 62 lbs. $6.50
32N3481¼—Crate of five 10-Frame Standard Hive Bodies. Weight, 70 lbs. 7.25
32N3482¼—Crate of five 10-Frame Jumbo Hive Bodies. Weight, 78 lbs. 8.35

Supers for Comb Honey.

The supers for comb honey are 4¾ inches deep and are fitted with scalloped section holders, scalloped separators, follower board and flat springs. No sections or starters are included, except that sections are included with the single supers. 4¼x4¼x1⅞ scalloped sections only can be used with this furniture.

32N3504¼—Crate of five 8-Frame Supers for Comb Honey. Without sections. Weight, 30 pounds $3.95

32N3509¼—Crate of five 10-Frame Supers for Comb Honey. Without sections. Weight, 35 pounds $4.40

32N3490¼—Single 8-Frame Super for Comb Honey. Includes twenty-four 4¼x4¼x1⅞ sections. Weight, 8 lbs. $1.40

32N3491¼—Single 10-Frame Super for Comb Honey. Includes twenty-eight 4¼x4¼x1⅞ sections. Weight, 10 lbs. $1.55

Supers for Extracted Honey.

Supers for extracted honey are 5⅝ inches deep and are complete with 5⅝-inch shallow frames. No wax foundation is included.

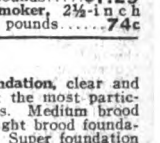
32N3512¼—Crate of five 8-Frame Supers for Extracted Honey. With frames. Weight, 37 pounds $4.50

32N3516¼—Crate of five 10-Frame Supers for Extracted Honey. With frames. Weight, 42 pounds $5.00

32N3492¼—Single 8-Frame Super for Extracted Honey. With frames. Weight, 7 pounds $1.05

32N3493¼—Single 10-Frame Super for Extracted Honey. With frames. Weight, 9 pounds $1.20

Bee Gloves.

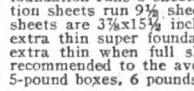


Furnished in two grades and large, medium or small sizes. Have fingers and long gauntlet with rubber cord to exclude bees. The canvas gloves are heavy and rendered stingproof by special treatment. The rubber gloves are made of a thin elastic material, rubber coated, with sewed seams. We recommend rubber gloves as most comfortable. **State size wanted.**

32N3546—Canvas Bee Gloves. Weight, 8 ounces. Per pair 82c

32N3543—Rubber Bee Gloves. Weight, 8 ounces. Per pair 98c

Bee Smokers.



Latest Improved Model. Made in three sizes. The two larger sizes have flexible hinge which permits close, tight fit of nozzle over fire chamber. The small smoker has no hinge. All are made of heavy tin and guaranteed perfect.

32N3471—Standard Smoker, 3¼-inch diameter. Weight, 2¼ pounds $1.05

32N3472—Jumbo Smoker, 4-inch diameter. Weight, 2½ pounds $1.29

32N3470—Junior Smoker, 2½-inch diameter. Weight, 1½ pounds 74c

Wax Comb Foundation.

Very high quality genuine Weed Process Foundation, clear and tough, and easily worked by the bees. Will suit the most particular bee keeper. Brood foundation sheets are about 7⅞x16⅝ inches. Medium brood foundation runs 8 sheets to the pound and is used without wiring. Light brood foundation sheets run 9½ sheets to the pound and should always be wired. Super foundation sheets are 3⅞x15⅛ inches. Thin super foundation runs about 28-sheets to the pound, extra thin super foundation about 32 sheets to the pound. Thin is used for starters, extra thin when full sheets are used. Medium brood and thin super foundation are recommended to the average bee keeper. Shipping weight, 1 pound boxes, 1½ pounds; 5-pound boxes, 6 pounds.

32N3528—Medium Brood Foundation. 5 pounds, $3.15; per pound 68c
32N3533—Light Brood Foundation. 5 pounds, $3.25; per pound 70c
32N3529—Thin Super Foundation. 5 pounds, $3.55; per pound 76c
32N3534—Extra Thin Super Foundation. 5 pounds, $3.65; per pound 78c

Handy Feed Cookers.

Full Capacity.

Boiler is made entirely of heavy galvanized sheet steel, strongly bound at top and bottom, and has a close fitting hinged cover. Fire box is No. 16-gauge blue annealed steel, Fire flue is 4 in. deep and extends entire length of boiler. A partition in the center deflects the heat from the fire box to the opposite end and then back to the smoke pipe. Can be used for cooking feed, boiling water and many other purposes. Has heavy cast iron grate and will burn coal, wood or cobs. Price includes one joint of 6-inch pipe. **Shipped from factory in NORTHERN INDIANA.**

Bradley Automatic Hog Feeder.

Thousands of large hog raisers have installed this feeder with satisfactory results. It has a large compartment to hold about twenty-five bushels shelled corn and two small compartments to hold two bushels each of mineral feed and tankage. It is built in sections, to be bolted together, and is shipped knocked down flat, taking low freight rate. Dimensions, about 6 feet long, 3½ feet wide, 3½ feet high. Ends, sides and bottom are ⅞-inch dressed lumber with lapped joints. Trough has 2-inch sides. A removable board above trough provides a larger opening for feeding ear corn. Painted with oil paint. Runners on bottom with hook for moving. We believe this is the best made feeder of this type on the market, and it should not be confused with inferior feeders made of light material. **Shipped from BRADLEY, ILL.**

Let your hogs feed themselves and grow fat.

32N1875 — Automatic Hog Feeder. Weight, 300 pounds.....**$16.98**

Sanitary Stock Watering Fountain.

The increasing demand for this type of fountain proves its usefulness to the stock raiser. Adapted for all kinds of stock, especially hogs and sheep. Water feeds to trough automatically and does not overflow. Sled has wide tee iron runners and is strongly braced throughout with heavy angle iron. Tank is made of heavy galvanized steel, both top and bottom being double seamed by special machinery and not held in place by solder. Top is pressed into a funnel shape with large brass filling plug in center, which makes it quick and easy to fill. By using this construction there are no rivets through the tank and no solder around head to crack and break and cause leaks. **Shipped from factory in OHIO.**

Dohm Double Duty Tank Heater.

Scalds feed at the same time that it heats the tank, making it doubly valuable. Can be used in any kind of tank. Heats faster because of its large heating surface and no waste of heat. Besides warming the water throughout the tank by radiation from its outer surface, it will heat 40 gallons of water for scalding feed to a boiling temperature in an inner reservoir, which is part of the heater. When not wanted for scalding feed, by removing two wooden plugs from holes inside of heater the water circulates through the heater and quickly warms the entire supply. Body of heater is made of heavy sheet iron and all seams are welded. Sudden changes in temperature cannot crack seams or cause leaking. Heater, 18 inches long, 24 inches high and 21 inches wide. It burns any kind of fuel. Furnished complete with grate, two lengths of 6-inch smoke pipe, scraper, poker and two anchoring rods. **Shipped from factory in WISCONSIN.**

32N4487—Dohm Double Duty Tank Heater. Wt., 175 lbs....**$24.50**

The All Year Sanitary Hog Watering Fountains.

Will not freeze in winter and will keep the water cool and clean in summer. The water compartment being airtight, the water is automatically fed to the drinking pan by the partial vacuum, which releases it only as used. No mud hole around the drinking place. Made with either one or two drinking troughs in each size and are **protected so stock cannot get their feet into them.** The air space in the top of the tank helps keep the water cool in summer. One lamp furnished with singles trough and two lamps with double trough. **Lamps set directly under drinking pans, and will protect troughs against freezing with temperature 35 degrees below zero.** Tank and outer casing are separate, with air space between. Heat from lamp passes around drinking pans and up through casing around tank. Waterers are made of galvanized steel. The 55-gallon size is 31¼ inches in diameter, 41½ inches high. The 90-gallon size is 31¼ inches in diameter, 52½ inches high. **Shipped from factory in CENTRAL IOWA.**

32N1883—90-Gallon Double Trough. Weight, 140 pounds.....**$29.45**

Marvel Feed Cookers.

The boiler is made of heavy galvanized steel, with hinged cover and heavy band iron around top so that the weight of feed will not bend it out of shape when being lifted about. The furnace is made of black steel. Front, back and hearth are heavy castings. 32N1956, 32N1957 and 32N1958 have cast iron grate and will burn either coal or wood, and the furnace in these sizes has an extra steel inner lining with air space between it and the outer wall.

The cookers for burning wood have no grate, nor inner lining, and the furnace is made without the ash pit and ash pit door. Illustration shows the cooker for burning coal or wood. All cookers substantially made and well crated.

Price includes one length 6-inch pipe and elbow. **Shipped from factory in WESTERN ILLINOIS.**

"Can't Clog" Rotary Hog Feeder.

A feeder that can't clog. Particularly desirable for feeding tankage or other feeds which bridge in ordinary feeders. Hog feeds himself without waste and gets all he wants to eat. Will pay for itself in short time in the saving of feed. **Cone inside rotates as hogs naturally push against partitions inside of trough and feed comes down just fast enough to supply their needs.** Base and feed trough made of heavy lumber and trough is steel clad. Balance of feeder made of heavy galvanized steel. Cover is hinged. Adjusting screw under cover regulates space between base and drum, according to kind of feed used or the speed of feed flow wanted. Feeder is 47 inches high and 40 inches in diameter, with a capacity of about 13 bushels. Can be used for feeding any kind of ground feed or small grain, shorts, middlings, shelled corn, tankage, etc. **Shipped from factory in WISCONSIN.**

32N3048 "Can't Clog" Rotary Hog Feeder. Weight, 160 lbs.....**$23.50**

Rotary Hog Oiler.

Over 30,000 in Use.

One of the most simple, durable and economical oilers on the market. Made of heavy cast iron. Animal cannot tip it. When the animal rubs wheels they rotate and pick up oil from basin; sufficient to spread on the hog and balance runs back. No waste. Requires practically no attention and as there are no springs or valves it will never wear out. Will give lasting service under the most exacting use. 13½ inches high and 13½ inches wide. **Shipped from factory in IOWA.**

32N1768 — Rotary Hog Oiler. Weight, 87 lbs..**$7.98**

Extra Strong Galvanized One-Piece Hog Trough.

Shipped nested at a saving of one-half in freight charges.

Trough is formed from one piece of heavy galvanized steel, which makes a liquid tight trough without soldered or riveted joints. Legs are separate, and slotted to slip over the folded end, and creased at the top for easy nesting over the trough end. Thus they are held there securely and cannot become loosened. Galvanized crossbars are spaced 12 inches apart. The troughs are shipped with legs and crossbars off, nested together, thus saving about half the freight you would pay on troughs which cannot be shipped nested. Troughs of same or different sizes can be nested. It requires but a moment to attach the ends and braces. Troughs are 11 inches across top, 6 inches deep. **Shipped from our store.**

Cast Iron Hog Troughs.

On account of their weight and durability these troughs are very popular among hog raisers. They have smooth bottoms and can be easily kept clean. Made of good quality of close grained iron and sufficiently heavy so they are not easily tipped over. The 3-foot trough has one crossbar, the 4-foot trough has two, and the 5-foot trough has three crossbars. Troughs are 12 inches wide. **Shipped from factory near CHICAGO or PHILADELPHIA.**

Three-Bar Hog Oiler.

A three-bar oiler, simple in construction and automatic in operation. The only moving parts are the rubbing posts. When animal rubs one of the bars the plunger forced into the small cup, displacing a few drops of oil the cup contains and causing the to flow down over the rubbing bar. There are no valves to become clogged, held open and no matter point where the flow of oil would be while. The oil is contained and supplied from an inverted tank that on the top of the Vacuum maintains a full supply that into which the plunger works and at the same time seals the only opening in the supply tank. Any oil draining from the rubbing post is caught in the recessed in the pedestal, and from there is to the under parts of the animal. This is economical in handling of the oil, of simple and stanch construction. **Shipped from store.**

Standard Galvanized Steel Tanks

Order a tank from us with the understanding that it must be exactly as we resent it and perfectly satisfactory to you or you can return it at our expense we will return your money and freight charges. Prompt shipment of all sizes. s tanks are shipped knocked down, all holes are punched, every part is fitted ther at the factory and sufficient solder and rivets are sent with which to put the t together. The sides of all tanks over 4 feet high are made with riveted seams. tanks made of No. 20-gauge steel unless otherwise specified. Will make regular 20-gauge tanks of No. 18-gauge at price 30 per cent higher or No. 16-gauge at price er cent higher.

Certain Standard tanks which are regularly shipped set up can and will be shipped cked down if so ordered.

All seams in No. 20-gauge tanks are lock seams and are carefully soldered, no edges coming in contact with the water. Stock tanks made of No. 18 and No. 16-gauge steel have riveted and soldered seams. Tops are bound with angle steel. Bottoms of all tanks over 1 foot in height are secured between two pieces of flat steel or are bound with angle steel, depending upon size and shape of tank. (See illustration.) Sides of tanks 6 feet or longer are firmly braced with angle steel bars. Measurements in all cases are outside, over all.

Tanks in these two columns are shipped from factory in SOUTHWESTERN HIGAN or KANSAS CITY, MO.

WAGON TANKS.

In our wagon tanks a 1x1½-inch galvanized steel angle is riveted around the inner side at the nd the cover is flanged over this angle closely riveted between the angle and ip of ⅞x¼-inch band steel, extending round the tank. A three-quarter par- is fitted across the center of 8-foot and two partitions fitted in 10-foot . All made 2 feet high, and with rtight top, having 14-inch round man- Have 1-inch pipe connection in rear

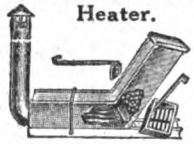
Cast Iron Tank Heaters.



The body and down draft flue are cast in a single piece without seams, joints or bolt holes, and will not leak. They are self sinking and will not crack or leak from heating or freezing. Short legs in bottom permit circulation of water underneath. Construction insures a slow combustion with any kind of fuel, and the draft can be regulated so as to keep the fire alive for hours. The basket is easily hooked out by the bail and the ash pan is then removed in the same way. Prices include heater complete with cast iron ash pan, fire basket, lifter and smoke pipe 2 feet high with damper and spark arrester. **Shipped from factory in WESTERN ILLINOIS, or warehouse near KANSAS CITY, MO.**

	Heater No.	Diam., In.	Ht., In.	Wt., Lbs.

32N4492	6	16	24	195	12.60

We recommend the larger sizes of these heaters for fuel economy and best results.

Submersible Tank Heater.

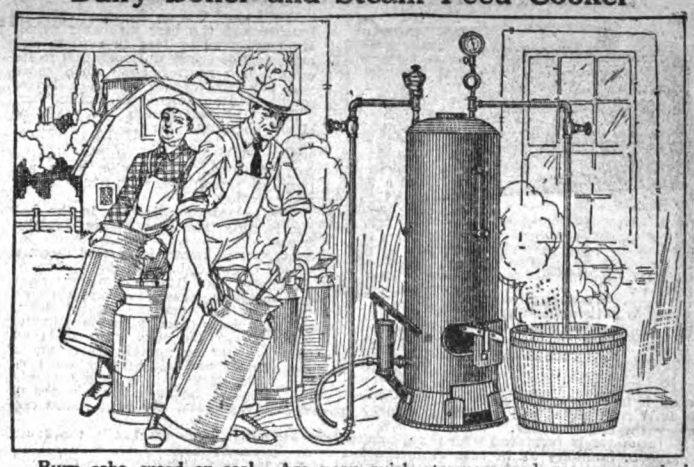
The submersible heater is made of 14-gauge boiler plate with all seams welded, doing away with rivets, bolts or packing. Heat chest and fire box are each 30 inches long, 12 inches wide and 8 inches high, joined together at an angle of about 45 degrees. The heating chamber, lying all under water, saves more heat and requires less fuel. Heater burns any kind of fuel. For coal a basket grate is provided, but for wood or other fuel no grate is needed, and it burns wood 30 inches long. It may be set flat on the tank bottom, with weights placed on its top, or strapped to a platform, as shown in the illustration. The strap is furnished, but the platform is not. **Shipped from factory in IOWA.**

32N4493—Submersible Tank Heater, without grate. Weight, 75 pounds.....$9.98
32N4494—Submersible Tank Heater, with coal grate. Wt., 85 lbs. $11.65

Wood Stock and Storage Tanks.

We can furnish cypress wood tanks of most any size in 1½ and 2-inch amterial. If interested write for prices.

PIPE CONNECTION FOR STEEL TANKS.



We do not cut pipe connection holes in steel tanks, because it is a difficult matter for anyone to tell until he receives his tank just where it is best to cut the hole. You can easily cut the hole by using a cold chisel, and cutting against a block of hardwood. Our galvanized pipe connections consist of one close nipple, two leather washers, two locknuts and one pipe cap to close the pipe hole when you wish. **Shipped from our store or from factory with tanks.**

Dairy Boiler and Steam Feed Cooker

Burn cobs, wood or coal. Are very quick steamers and very economical in use of fuel. Used for cooking feed, scalding hogs, scalding milk cans, thawing out water tanks, and for all steam cooking, washing or renovating purposes. Used indoors or out of doors. Require no experience. No flues to clog or burn out. Made of heavy boiler plate steel with steel head. Shell and head are welded together by a special process; there are no riveted or patched joints or seams to leak, and the welded seams are stronger than riveted seams. Has cast iron base and dump grate. Has a cone shape fire box extending full height of boiler inside. This fire box is surrounded entirely by water and will not burn out. The water surface is least where the heating surface is greatest, making the boiler a quick steamer. Boilers are equipped with safety valve, adjusted to 15 pounds pressure, sufficient for all agricultural purposes. No. 2 boiler holds 30 gallons and No. 3 boiler holds 40 gallons. Boilers are furnished with two sets of steam pipes, shut off valves, one try cock, water glass, safety valve, steam gauge, hand pump and hand pump hose. Hose from steam pipe not furnished. Each boiler when used for cooking will heat to the boiling point about four times as much water as it converts into steam. **Shipped from SOUTHWESTERN MICHIGAN.**

32N1998—No. 2 Boiler. Height, 56 inches; diameter, 17 inches. Weight, 270 pounds..... **$54.95**

32N1999—No. 3 Boiler. Height, 68 inches; diameter, 17 inches. Weight, 290 pounds..... **60.45**

Home Meat Smoker

Kill and Cure Your Own Meat Supply.

The Home Portable Smokehouse—Can be used any place on the farm. It can be placed on the porch, in an outbuilding or in the house, as it has an outlet for connection to any ordinary chimney, which permits the escape of excess smoke. It is safe and fireproof.

The low cost makes the **Home Portable Smokehouse** indispensable wherever pork is cured for home or market.

Built in Two Sizes—Three-hog and five-hog capacity. Just the right sizes for farm use, or for meat markets where a limited amount of meat is smoked. Shops that smoke all of their meat frequently use two or more outfits.

Sturdy Construction—The casing, fire chamber and smoke pipe are heavily galvanized iron, strong and well made. There are four hardwood 2x2-inch posts with strap iron hoops on which the meat is hung on hooks. Full set of hooks for hanging meat furnished.

Scientific Method of Smoking—In going from the fire chamber to the smokehouse proper the smoke must pass through a long pipe, thus being thoroughly cooled and avoiding any possibility of overheating the meat. The smoke enters at the bottom of the meat chamber and has thorough circulation through it.

An Ideal Storage House—As a storage chamber alone the **Home Portable Smokehouse** is worth more than its cost. You need not remove the meat from it when smoked. It has two screened ventilators for air circulation which keeps the meat in perfect condition The smokehouse is vermin and insect proof. **Shipped from factory in IOWA.**

32N4650—Three-hog size, as described. Shipping wt., 115 lbs.....**$21.00**
32N4651—Five-hog size, as described. Shipping wt., 135 lbs..... **24.00**

Super-Hatcher Double Wall Incubators

We guarantee perfect satisfaction with any incubator purchased from us, or will return your money.

We regard this as the most efficient hatcher and the best incubator value. It is endorsed by leading experts and has years of successful operation to its credit. No matter how much more you pay you cannot obtain a better constructed or more successful hatcher.

Super-Hatcher Bodies are made of clear, bone dry lumber specially adapted to incubator purposes, handsomely finished and varnished in the natural wood. The double walls are thoroughly insulated with non-conducting packing.

The outstanding feature is the hot air heating and ventilating system. Fresh air, heated without coming in contact with flame, is carried directly to the egg chamber and distributed to all parts. The fresh air current does not, however, pass downward through the eggs, but over and around them, and then down through openings in the walls above the egg tray. It then passes under an airtight space under the nursery and out through the bottom. The nursery is warmed only enough to remove the chill, and no bottom heat is supplied the eggs. The heater is heavily constructed and has an outer jacket packed with asbestos. **No lamp fumes can enter the egg chamber.**

Incubator is furnished with a galvanized tray for moist sand—practically the same degree of humidity as in natural incubation is easily maintained.

The regulator is of the compound metal bar type, very sensitive, accurate and durable. Egg trays are strongly framed, have wire screen bottoms, removable chick drops, and movable slats to prevent rolling of eggs.

Lamp is made of heavy galvanized steel, one-piece bowl, has high grade burner and self centering chimney.

Price is for incubator complete, with lamp, high grade themometer, egg tester and full instructions for operating. **Shipped from factory in PENNSYLVANIA.**

32N3022—125-Egg Hot Air Incubator. Shipping weight, 130 pounds... **$25.95**

32N3023—240-Egg Hot Air Incubator. Shipping weight, 200 pounds... **39.60**

The Genuine Little Brown Hen Incubator.

The original Little Brown Hen Incubator, of which we have sold thousands to satisfied customers. Do not be misled by imitators who may offer incubators similar in appearance or name. This machine has been developed by experts and perfected through years of experience. Famous for the healthy, vigorous chicks it produces. Give the Little Brown Hen a fair trial and if it does not suit you perfectly send it back and we will return the price you paid, with transportation charges.

The incubator is 18 inches in diameter, stands 15 inches high, and holds about fifty average size hen eggs. Made entirely of metal with double walled nest and top lined with insulating felt. Nest slopes toward center so that by taking out a few eggs the others can be rolled over.

Heat radiates above and around nest and is uniformly distributed, the fumes being carried off through side openings.

Regulator is of the expansion disc type, with brass disc.

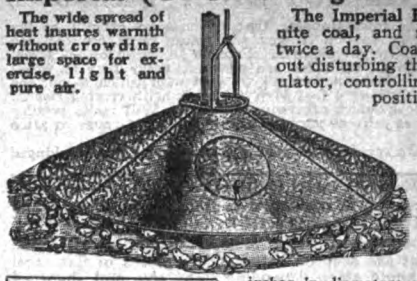
Thermometer is guaranteed high grade, and can be easily read through glass window in top. Lamp has heavy one-piece bowl and burner and chimney of improved safety design. Incubator is finished outside in a durable brown enamel. Moisture pan and complete instructions for operating furnished. Can be shipped by parcel post. **Shipped from our store.**

32N3011¼—Little Brown Hen Incubator. Shipping weight, 15 pounds... **$5.95**

Electric Incubator. For Either 32-Volt or 110-Volt Current.

Electricity is being so extensively used today that the demand for electric heated incubators is constantly increasing. We offer our customers a dependable electric incubator that is absolutely automatic and operates at a very low cost. Furnished complete, ready for use for attaching to lamp socket. Made entirely of metal. The case is double walled and packed with wool felt insulation, insuring constant, even temperature. The heating arrangement extends around the entire top of the machine, distributing the heat evenly. The heat is controlled by a very sensitive thermostat. This automatic regulator makes an electric bulb or pilot light inside of the incubator throw light directly on the thermometer when hinged lid is raised. Egg tray made of closely woven, heavy galvanized wire screen, easily kept clean. **Can be used on either direct or alternating current.**

Machine is very economical in fuel consumption, as the current is automatically turned off when temperature reaches the required degree, depending on outside temperature. Price includes an egg tester, high grade thermometer and full instructions for operating. **Shipped from our store or factory in INDIANA.**



32N3006¼—60-Egg Electric Incubator for 32-Volt Current. Shipping weight, 25 pounds **$15.15**

32N3007¼—60-Egg Electric Incubator for 110-Volt Current. Shipping weight, 25 pounds **$15.20**

32N3008¼—100-Egg Electric Incubator for 32-Volt Current. Shipping weight, 40 pounds **$19.85**

32N3009¼—100-Egg Electric Incubator for 110-Volt Current. Shipping weight, 40 pounds **$19.90**

Imperial (Coal Burning Stove) Colony Brooder

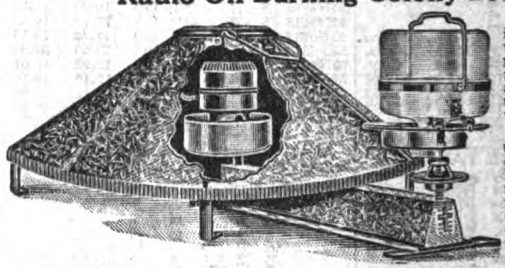
The wide spread of heat insures warmth without crowding, large space for exercise, light and pure air.

The Imperial Brooder burns hard, soft or lignite coal, and requires attention but once or twice a day. Coal is put in through the top without disturbing the canopy hover. The heat regulator, controlling the draft, is automatic and positive in maintaining an even temperature. Canopy is suspended from the ceiling by cords and pulleys furnished and can be raised while the floor is cleaned or lowered to regulate temperature desired.

Imperial Brooders are made in two sizes. No. 1 stove will care for up to 500 chicks and measures 20 inches high, 7 inches in diameter; grate is 9 inches in diameter, and canopy 42 inches in diameter. No 2 stove will care for up to 1,000 chicks. It measures 23 inches high, 12 inches in diameter; grate is 10¼ inches in diameter and canopy 52 inches in diameter.

On these pages we show only a few of our poultry supplies. We have a complete line. Send for our Poultry Supplies Circular, 8869GCN. We can save you money.

Canopies made of galvanized sheet steel. Prices include stove, canopy, pulleys and cord and thermostat regulator, but no stovepipe. Stove takes 3-inch pipe. Ordinary galvanized 3-inch drain pipe will serve the purpose. **Shipped from CHICAGO or factory in PENNSYLVANIA.**



32N3000¼—No. 1 Imperial Stove Brooder. Shipping weight, 80 pounds $16.1

32N3001¼—No. 2 Imperial Stove Brooder. Shipping weight, 105 pounds $19.8

For Other Poultry Supplies, Poultry Houses, Etc., See Index.

Radio Oil Burning Colony Brooder.

A convenient, economical and practical brooder which has gained great popularity. Burns ordinary kerosene oil, gives a wide spread of continuous warmth with good ventilation and light.

Height of flame is regulated by raising or lowering the glass reservoir by means of the hand wheel screw arrangement underneath, and the indicator scale guides the operator in determining the adjustment required.

The burner gives a steady **blue flame** without smoke or odor. It has been successfully used for years and is one of the most prominent oil stove makers. It lights easily and generates heat more rapidly than most others. The glass reservoir holds 1 gallon and requires but little filling a day. The oil pipe from reservoir to burner is continuous—no threaded or packed joints to leak, part of it being a flexible brass tubing, which permits of an up and down adjustment of the reservoir, without use of a stuffing box or gasket joint. The glass fountain and burner are protected by a metal shield. Oil pipes are shielded by a galvanized steel frame which securely holds all parts in alignment. The galvanized sheet steel canopy has ventilating openings and damper at the top. Complete instructions and three lighting rings with every brooder. **Shipped from our store.**

32N3074¼—Brooder with 42-inch canopy, for 500 chicks or less. Shipping weight, 55 pounds ..... $12.

32N3075¼—Brooder with 52-inch canopy, for 1,000 chicks or less. Shipping weight, 60 pounds ..... $14.

Cozy Hover and Brooder.

Will give your chicks the necessary warmth and protection and enables you to save the chicks that you would lose otherwise. Made of sheet metal with double outing flannel curtain. Can be used in a room, shed or box. When **inside a substantial box it makes an excellent outdoor brooder.**

Lamp compartment is galvanized steel, with brass screen and mica window in door. Lamp and burner are specially designed for safety and economy in use of oil. Lamp fumes are carried off through a galvanized pipe which gives a good draft for lamp flame and prevents fumes from entering hover.

The cage, if wanted, must be ordered separately. Made of close meshed galvanized wire and sheet steel. Can be spread to allow exercise or closed tight around the hover to protect chicks from rats, etc. Order a Cozy Hover with your Little Brown Hen Incubator and you have an ideal outfit. Can be shipped by parcel post. **Shipped from our store.**

32N3013¼—50-Chick Size Cozy Hover, 18 inches in diameter and 12 inches high without cage. Shipping weight, 15 pounds ..... $4.

32N3033¼—100-Chick Size Cozy Hover, 22 inches in diameter and 18 inches high without cage. Shipping weight, 25 pounds ..... $7.

32N3014¼—Pest Proof Cage for 50-Chick Cozy Hover. Shpg. wt., 11 lbs. $3.

32N3034¼—Pest Proof Cage for 100-Chick Cozy Hover. Shpg. wt., 14 lbs. $3.

$4.48 Poultry Raisers' Special Grist Mill.

For grinding coarse grains, hominy, dry shells, dry bones, charcoal, etc. Cracked grain digests quicker. Dry shells, bones and charcoal are necessary for every fowl. Enables you to prepare your own poultry food. Grinds coarse, medium or fine. Screws furnished for attaching. Shipping weight, 36 pounds. **Shipped from our store.**

32N3188¼ **$4.48**

32N3189¼—Extra Burrs. Weight, 8¼ pounds. Per pair **$1.47**

Galvanized Steel Brooder Coops. $2.25

Hens crowd their chicks into corners and sometimes smother them. Round brooder coops prevent this. Has ventilator top and two sliding doors. Slotted door gives ventilation and protects chicks from rats, etc., at night. Solid door keeps out cold. Bottom of coop is removable for cleaning. Height, 18½ inches. Bottom diameter, 21 inches. Order for one or crate of three shipped from our store. **Orders for crates of six shipped direct from factory near CHICAGO.** Not mailable.

32N3192¼—Weight, 20 pounds. Each ..... **$ 2.25**
32N3193¼—Wt., 65 lbs. Per crate of 3 .... **5.95**
32N3194¼—Wt., 125 lbs. Per crate of 6 .... **11.50**

Poultry Root Cutter.

Cut all kinds of roots and vegetables into fine ribbonlike shavings. An iron grating in the hopper allows dirt to drop through before reaching the knives. The small machine has crank only. The larger machine, 32N1391, furnished with crank only or with pulley and crank. It cuts fine enough for sheep or fowls, with ample capacity for cattle. **Shipped from factory in NORTHERN OHIO.**

32N1390¼—No. 1A Poultry Vegetable Cutter, with crank only. Shipping weight, 40 pounds **$5.25**

Shipped from Philadelphia store.$5.65

32N1391—No. 2A Poultry Vegetable Cutter, with crank only. Shipping weight, 170 pounds **$19.45**

32N1392—Pulley for 2A. Weight, 10 pounds **$1.25**

Oats Sprouter.

Poultrymen will appreciate the merits of this sprouter. Each pan can be removed without disturbing the other pans. Made entirely of galvanized steel. Made with seven perforated pans 12½ inches in diameter, and one drip pan. Strong galvanized triangular frame, 30½ inches high, braced by truss rods which form shelves for pans.

No lamp or fuel required. Also suitable for sprouting and raising early plants. Can be shipped by parcel post. **Shipped from our store.**

32N7074¼ — Eight-Pan Oats Sprouter. Shipping wt., 23 lbs.. **$3.98**

Lamp Heated Sectional Oats Sprouter.

Made of galvanized steel and insulated with lining of rubberoid roofing which retains heat. Made in two sections so that for a small flock you need only the base section, which is a complete sprouter. For a larger flock you can double the sprouting capacity by purchasing extra top section. Base section is 20 inches square and 24 inches high and contains the lamp, two grain trays, moisture pan, and has a perforated cover.

Top section is 20 inches square, 14 inches high, and has two grain trays. All trays are 18 inches square, have perforated bottoms for the passage of moisture, and each holds 1 gallon of unsprouted grain. Ventilating spaces provided around the trays and these, with the perforated top, provide ample ventilation to prevent mold. Doors have large glass panels for the admission of light to stimulate growth of grain. Mouse proof and requires very little attention. Removal of perforated top cover permits removal of trays from top. **Shipped crated from factory in INDIANA.**

32N7072—Sprouter. (Base Section only.) Capacity, ¼ bushel grain. Shipping weight, pounds ..... $2.

32N7073—Extra Top Section. Capacity, ¼ bushel grain. Shipping weight, 35 lbs. $2.

Thermic Poultry Drinking Fountain.

Non-Freezing. No Lamp Required.

A popular fountain for winter or summer use. Provides fresh, clean water at the proper temperature, so necessary for the best development and health of fowls. Warm water in winter means greater egg production. Keeps a supply of water at just the right temperature all day. Fill with warm or cold water in the morning according to season, and the water will remain at practically the same temperature for twelve hours or longer. Substantially made of galvanized steel, with heavy insulated walls. Has bail for carrying. Cone shaped top prevents fowls from sitting on top. Will last for years without repairs. **Shipped from factory in OHIO or our store.**

All Year Around Poultry Waterer.

An ideal, high grade, sanitary Waterer, designed for large flocks. Keeps water warm in coldest weather and cool in summer. Tank holds **fifteen gallons.** Made of heavy galvanized steel. Water is fed automatically to drinking pans by vacuum system. The eight pockets or openings allow sixteen or more chickens to drink at one time. Top of tank is concave for convenient filling and tank is removable, making it easy to clean. **Heater lamp** has large brass burner and sets directly under tank. Tank and outer casings are separate with air space between. Galvanized bottom prevents any possibility of floor catching fire from lamp. Waterer is 31 in. high and 24 in. in diameter. **Shipped set up from factory in IOWA.**

32N3051—Weight, 65 pounds. **$16.90**

Handy Hopper Feeder.

Made of heavy galvanized steel throughout. Has five partitions provided with adjustable swinging fronts to prevent clogging. Has hinged lids over both hopper and trough, making it mouse, rat and dirt proof. Feeder is 36 inches long, 15 inches high, 14½ inches wide. **Shipped set up,** ready to attach to wall.

32N3050¼—Feeder. Weight, 20 lbs. **Shipped from factory in INDIANA. $3.9**
Shipped from our store..... 4.1

Galvanized Round Hopper Feeder.

Ideal Hopper for feeding dry mash for large flocks of fowls. Feed pan, 22 inches in diameter, 3½ inches deep and divided by partitions to prevent fowls from throwing out feed. Cover can be closed over openings on feed trough to keep out mice and rats. Holds about 1½ bushels.

32N3044¼—Wt., 60 lbs. **Shipped from factory in INDIANA....$6.98**

All items on this page shipped from our store unless otherwise stated.

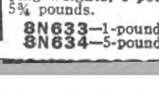
Poultry Needs

It Pays to Caponize

Relative Sizes. Caponized and Non-Caponized.

So Easy to Caponize Them With Our "E-Z" Set.



Caponizing is practiced and endorsed by the leading poultrymen of the country. This simple operation enables one to market birds at a season when most other fowls are off the market; and, due to the scarcity of fowls at these seasons, their added size and firm, choice quality of the meat, bring fancy prices and are always in great demand.

This set is of simple design, safe, easy to use and very effective and, with the completely illustrated instruction booklet furnished, enables all poultry raisers to easily and safely raise capons. Shpg. wt., 10 oz.

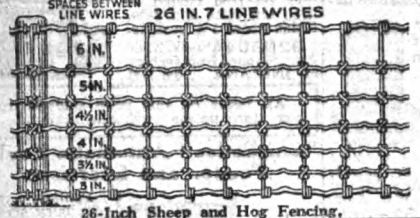
Champion Square Mesh Farm Fencing

For attractive design and lasting qualities Champion Fencing is unsurpassed. It stretches up straight and rigid, and requires the minimum number of posts. Of course, the heavier the fence you order, the longer the service you can expect, and while our Champion Standard meets all ordinary farm requirements, we recommend our Champion Extra Heavy Fencing to those whose needs will justify the additional expenditure.

Champion Square Mesh Fencing meets every requirement of an all around farm and stock fencing. Each wire is full U.S. Standard gauge steel wire, thoroughly galvanized for protection against rust. Wires are heavily crimped between each stay to compensate for expansion and contraction of heat and cold and also to provide a springiness to withstand strain or sudden impacts. Of special importance are the continuous one-piece stay wires which act in the relation of posts every six or twelve inches throughout the fence. They prevent sagging or bagging between posts in a way not possible with short double ties, and maintain more even spacing than would be possible if each represented a hinge joint. Careful to maintain the advantage of one-piece stay wires, we lock each line wire to the stay as tightly as the staples hold the stay to the post. The Champion tie or lock is put on with sufficient crimp to tension in both stay and line wires at the tie so that both wires carry their full share of strain, producing a fence that stands the most severe strains and comes back to its original upstanding position straight and stiff. Observe that the tie crosses the line wire on a slant, thus no pocket is formed to place in the tie to hold water and encourage rust. We recommend this fence to those who desire building a fence once and for all. **Shipped from our factory in CENTRAL INDIANA or from KANSAS CITY, MO.**

Sizes of Wire Used in Champion Square Mesh Fencing. No. 9  No. 10  No. 12 

Champion Standard Fencing.



Is made with stays spaced either 6 or 12 inches apart and, excepting the 26 and 32-inch heights, which have No. 10 top and bottom wires and No. 12 intermediate wires, all other heights have No. 9 top wire, No. 10 bottom wire and No. 12 intermediate line and stay wires.

Champion Extra Heavy Fencing.

With stays spaced either 6 or 12 inches apart. All line wires made of No. 9 hard galvanized steel wire and vertical stays made of No. 10 hard galvanized steel wire.

Champion Fencing is made only in 10, 20 or 40-rod bales. We do not cut bales.

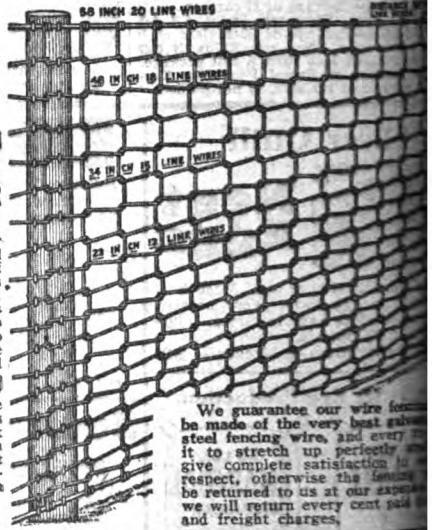
X-L-ALL Poultry and Farm Fencing.

A Closely Woven, Durable General Purpose Fencing.



No. 11  No. 14 

TOP AND BOTTOM LINE WIRES ARE No. 11; INTERMEDIATE WIRES No. 14 GALVANIZED STEEL WIRE; STAY WIRES ARE SPACED 6 INCHES APART.

This fencing, while more particularly intended for poultry yards, orchards, gardens, etc., is really an all purpose fencing, and because of the close spacing of the stay wires and the substantial way in which it is constructed, it is strong enough for general farm use. With posts placed one rod apart it will stretch up as stiff and straight as a board and does not require top or bottom rails to support it. While strong enough to successfully confine the larger kinds of stock, the smaller animals cannot squeeze through, and it will exclude from your garden any poultry large enough to do harm. The fencing costs less than ordinary poultry netting, but it will give you much longer and more satisfactory service. The 23-inch and 34-inch heights provide a close mesh sheep and hog fence and a stock fence of good height which will serve ordinary farm purposes. The 58-inch height has proved the most popular with our customers and is the height we recommend for all general use. **Shipped from factory in CENTRAL INDIANA or from KANSAS CITY, MO.**

For Poultry and Rabbit Netting see page 1060.

X-L-ALL Woven Wire Fencing

The X-L-ALL Interlocked Stay.

Our interlocked stay is a distinctive feature found only in X-L-ALL Fencing. The stay wires are in one continuous length and interlocked with the intermediate line wires. This does away with all ties, thereby effecting a saving of about 2½ inches of wire at every junction of the wires. This method of construction makes X-L-ALL Fencing stretch up perfectly. The strain is evenly distributed over all wires of the fence. You can climb the entire height of the fence and each wire will spring back into place. There are no exposed ends to rust, a feature which adds to the life of the fence. **X-L-ALL Fencing is made from the very galvanized fencing wire we can buy.** Neither too hard nor too soft. The nizing will not scale off, which insures a substantial fence that will last for years.

ACTUAL SIZES OF WIRE USED IN X-L-ALL FENCING.

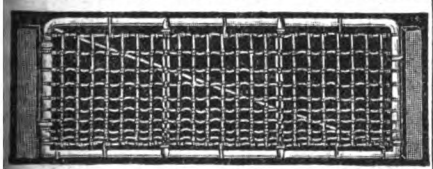
Heavy Standard X-L-ALL Wire Fencing.

Excepting the 26-inch and 33-inch heights, which have No. 10 top and bottom wires, all X-L-ALL Standard Heavy Fencing is made with No. 9 top and No. 10 bottom hard galvanized steel wires. Intermediate line wires and vertical stay wires are made from No. 12 galvanized steel wire. Our Heavy Standard X-L-ALL is a standard weight fencing with great strength and durability.

Medium X-L-ALL Wire Fencing.

The top and bottom line wires are made from No. 10 galvanized steel wire. The intermediate line wires and vertical stay wires are made from No. 13 galvanized steel wire. Medium X-L-ALL Fencing differs from corresponding heights of Heavy Standard X-L-ALL Fencing only in the size of the wires, they being one gauge lighter; otherwise it is exactly the same construction.

Spacing Between Line Wires.



Spacing between line wires in all X-L-ALL fencing is the same in that commencing at the bottom the spaces are 3, 3½, 4, 4½, 5, 6, 7, 8, 9 and 10 inches, according to the height.

PRICES OF X-L-ALL FENCING.

NOTE—X-L-ALL Fencing is shipped in 10, 20 and 40-rod bales. We do not cut bales. Prices and weights are based on 10 rods. Shipped from factory in CENTRAL INDIANA or KANSAS CITY, MO.

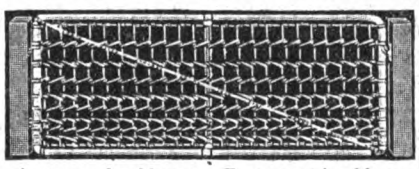
Extra Heavy Galvanized Farm Gate.



Frames are extra heavy steel pipe, 1⅝ inches outside diameter, and galvanized. The 10 and 12- foot sizes have an upright center brace of ⅞-inch outside diameter steel pipe secured with malleable clamps, and a ⅜-inch diagonal brace rod. The 14 and 16-foot sizes have two upright pipe braces. Filling or fabric is our Champion Fencing with stays 6 inches apart. Spaces between line wires vary from 3 inches at the bottom to 8 inches at the top. Furnished with strong eyebolt hinges and a positive supporting latch. Corner elbows and fittings are heavy malleable castings. All sizes are 4½ feet high. **Shipped from our fencing factory in CENTRAL INDIANA or from our warehouse at KANSAS CITY, MO.**

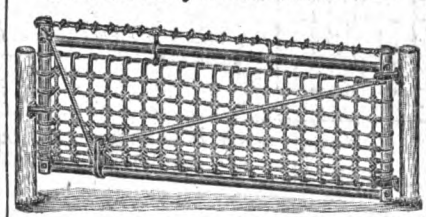
From Kansas City, Mo.	9.95	10.78	12.15	13.10

X-L-ALL Farm and Driveway Gate.

A strong, durable gate. Frames made of heavy steel pipe about 1⅜ inches outside diameter, nicely painted, with one center upright brace of about ⅞-inch outside diameter steel pipe securely clamped to frame in the 10 and 12-foot sizes, and two of these braces in the 14-foot and 16-foot sizes. Diagonal brace in all sizes is a ¼-inch diameter steel rod. Corner elbows and fittings are heavy malleable castings. Entire construction is strong and rigid, to guard against sagging.



The filling or fabric is our Heavy Standard X-L-ALL Farm Fencing, with vertical stays spaced 6 inches apart. Spaces between the line wires vary from 3 inches at bottom to 9 inches at the top, making a close fabric.

We furnish strong eyebolt hinges and a splendid latch. All sizes are 4½ feet high. **Shipped from our fencing factory in CENTRAL INDIANA or from warehouse at KANSAS CITY, MO.**

32N5334—X-L-ALL Farm and Driveway Gate.

Width, feet	10	12	14	16
Weight, pounds	62	70	85	95

From Kansas City, Mo.	6.95	7.50	8.53	9.05

X-L-ALL Adjustable Farm Gate.

Frame is made of steel tubing and U bars. The 1⅝-inch tubing top and bottom bars are hinged into the heavy U bar end members and together form a stanch, rigid frame that will not twist or buckle, and yet permits easy and instant up and down adjustment. Stay brace wires run from both ends to a slip clutch on the lower bar, and by raising the outer end of the gate and slipping the clutch along the lower bar, any desired height adjustment is automatically and positively maintained. This is a handy feature in case of sagging posts, to clear snow, or sorting small stock.

Frames are filled with our Champion Galvanized Square Mesh Farm Fencing with a strand of standard barbed wire across the top which is held by threaded hook bolt for tightening. Gates are hog and chicken proof. Frames painted black, with heavy screw bolt hinges and latch furnished. All sizes are 4½ feet high. **Shipped from factory in CENTRAL INDIANA.**

Weight, pounds	65	75	85	100
Each	$7.30	$7.85	$8.45	$8.95

Indestructible Angle and Tee Bar Steel Fence Posts.

Pointed for Driving. No Holes to Dig. Made From Rail Carbon Steel.

These posts possess the advantage of lightness with strength and stiffness and far greater durability than a tubular post of equal weight. They are suitable for use around orchards, poultry yards, vineyards, etc., as well as for all farm fencing purposes. The posts are pointed for driving and they are generally used in that manner, or one can form a concrete base by setting the post in the hole and pouring cement around it. Anchor plates furnished with all line posts give them a large ground bearing surface.

Line posts have oval shape holes, ½x⅝ inch, punched 2 inches apart and through which ordinary fence staples can be driven and clinched, or the fencing can be attached by tie wires.

Corner and end posts are not punched like the line posts, as it has been found most satisfactory to wrap the wires around them. Line posts should be set 20 inches in ground and corner posts about 32 inches in ground. All posts are painted. **Shipped from factory near CHICAGO, ILL.**

Standard Line Posts, Made of 1¼x1¼x9/64-Inch Angles.

32N5475

X-L-ALL Poultry and Rabbit Netting.

We recommend this netting for all purposes where a fabric lighter than regular field fencing will serve the purpose, yet something stronger than ordinary poultry netting. It is closely spaced at bottom, the spaces between line wires being graduated from 1⅜ inches at the bottom to 4¼ inches at the top as shown in the illustration. Vertical stay wires are spaced about 4½ inches apart. This netting can be stretched between posts without any top or bottom rail and makes a stiff, tight fence. The heavy top and bottom line wires and the interlocked stay wires hold up the fabric and prevent sagging.

This fencing is heavy enough to use for a light fencing around gardens and orchards, but is lighter than our X-L-ALL Poultry and Farm Fencing, and is not intended to serve as regular farm fencing. The top and bottom line wires are No. 14 and the intermediate line wires and vertical stay wires are No. 17 galvanized steel wire. Sold only in 10 and 20 Rod Bales.

32N5465—X-L-ALL Poultry and Rabbit Netting.

Ornamental Lawn and Cemetery Fencing.

Send for This Book.

We have a complete separate Catalog of Steel Picket and Woven Wire Fencing for Lawns, Parks, Cemeteries, Playgrounds, Factory Yards and all similar public or private places.

Be sure to ask for our **Lawn and Cemetery Fencing Catalog 585GCN,** because we also have a separate book for Farm Fencing.

Windsor Lawn Fencing.

One of our most popular designs of lawn fencing. The uprights are single No. 9 galvanized wires, closely corrugated their entire length, which adds stiffness. The double cable line wires are two No. 13 galvanized wires tightly twisted together and placed about 6 inches apart, excepting the two top line wires, which are about 2½ inches apart. This fabric is made with pickets spaced 2⅞ inches apart. Illustration shows 36-inch fencing. **Shipped from our factory in CENTRAL INDIANA.**

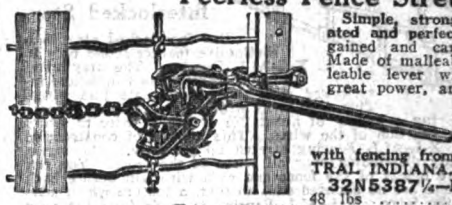
Champion Automatic Wire Fence Stretcher.



Our strongest, most powerful stretcher. The great power of this stretcher makes it possible to do a better job with a heavy fence and also to handle a longer stretch of any fence, thus saving time and labor. Attaches to fence quickly without the use of bolts. The two worm gear jacks are immensely powerful, are self locking at every point and, there being no back action to the handle, are perfectly safe. Jacks are made with heavy malleable castings; clamp bars are angle steel 60 inches long with malleable clamps. Furnished complete with two jacks, clamps, post chains and stretcher chains with swivels, as shown. A single wire stretcher is also included which can be used as a finishing tool, or for stretching single lines of barbed wire. **Shipped from factory in MICHIGAN.**

Genuine Dandy Green Bone Cutters.

Illustrates 32N3200 Cutter.

Known everywhere for their large capacity, durability and easy running qualities. The bones are placed in an oblong box, across the end of which revolves a large geared disc on which are placed knives. These revolve across the end of the boxes, reducing the bones to meal. The knives are easily removed and sharpened.

The small size cutter is back geared, operated by handle on rim of large balance wheel; suitable for a flock of 50 to 75 fowls. The bone box is 3¼x4⅝x6 inches inside. It is fed by a hand feed screw, which has a split nut that swings entirely out of the way when filling the bone box. Cutter has one straight and two corrugated knives.

Illustrates 32N3241 Cutter.

The large size cutter is equipped with automatic screw feed follower block and split nut. Bone box is 4x4x20 inches inside measurement. Equipped with one straight and three corrugated knives. Has capacity to feed 400 fowls by hand power or 1,500 fowls by engine power. **Shipped from factory in WESTERN PENNSYLVANIA.**

Sprayers

$8.95

For Power Sprayers, Bamboo Poles, Nozzles, Etc., Get Our Special Sprayer Circular, 7740GCN. Sent on Request.

$16.75

$14.95

Perfection Barrel Sprayer.

Can also be used for whitewashing, etc. All parts, excepting handle of pump, are inside barrel or tank. Nothing to catch on low hanging branches. Develops 125 pounds pressure. Brass suction cylinder, valves and valve seats. Two-paddle agitator keeps solution thoroughly stirred up. Easily attached to any barrel. Prices do not include hose, shut offs, nozzles or barrel. Shipping weight, 60 pounds.

42N2130¼—Perfection Barrel Sprayer, with paddle agitator. Fitted for one lead of hose..... **$8.95**

42N2131¼—Perfection Barrel Sprayer. Fitted for two leads of hose..... **$9.70**

For hose extensions for barrel sprayers, see bottom of right hand column on this page.

Hercules Wheelbarrow Sprayer.

A big labor and time saver for spraying orchards, garden crops, whitewashing or cold water painting chicken houses, hog pens, cattle barns, horse stables, etc. Sprays better, quicker and easier than a small hand sprayer, as it has much larger pumping and carrying capacity. Pump can be removed and tank and barrow used for carting feed, grain, slops, etc. Open top galvanized iron tank holds 10 gallons. Pump cylinder, base castings and valves are all of brass. Produces a pressure of 150 pounds, sufficient to break up solution into a fine mist or fog. Large agitator paddles keep solution thoroughly mixed. Shipping weight, 70 pounds.

42N1726¼—Hercules Barrow Sprayer, complete with 8 feet ½-inch spray hose, shut off cock and spraying nozzle.... **$16.75**

Large Capacity Barrel Sprayer.

Easily operated. Brass ball valves and valve seat. Brass cylinder, 2¼ inches in diameter. Paddle agitator. For spraying orchards, gardens, whitewashing and cold water painting. Slow pumping produces heavy, large, powerful spray. Adjustable for long or short stroke. Has brass Vermorel nozzle, twin connection for two leads of ⅜-inch hose. Barrel or hose not included. Shipping weight, 90 lbs.

For hose extensions for barrel sprayers, see bottom of this column.

42N2109¼—Barrel Spray Pump. 414.8

Bucket Sprayer.

Double acting pump. Gives steady spray. Brass, with iron handle and foot rest. Has 3 feet of ⅜-inch hose and two nozzles, one for spraying, the other a straight stream nozzle for sprinkling. Shpg. wt., 6 pounds.

42N1744¼ Bucket Whitewash Sprayer **$2.25**

Bucket not included in above price.

Handy Bucket Spray Pump.

Has brass body and brass ball valves. Pressure on the handle is on down stroke, making it easy to operate. Has two nozzles, one for spray and one for solid stream. Shipping weight, 7 pounds.

42N1742¼ Handy Bucket Sprayer, with foot rest, 3 feet ⅜-in. hose and nozzle. **$3.15**

Bucket not included in above price.

Bucket Sprayer.

Galvanized iron, painted. For spraying, whitewashing, cold water painting, washing windows, automobiles etc. Has ball check valves. Includes 3 feet of ⅜-inch hose, 1 foot brass extension pipe and 1 nozzle. Shipping weight, 3¼ lbs.

42N1746¼ — Bucket Whitewash Sprayer. $1.98

Bucket not included.

Marvel Spray Pump.

Double acting. Throws continuous stream or spray. Pump and valves are brass. Has two nozzles, one for spraying, other for fire, or washing windows, automobiles, etc. Fire nozzle throws strong stream 25 to 30 feet. Galvanized steel tank and 3 feet of ⅜-inch hose. Capacity, 6½ gallons. Ht. over all, 27 in. Shpg. wt., 22 lbs. Not mailable.

42N1732¼ $4.90

Combination Barrel and Bucket Brass Spray Pump.

For use with either bucket or barrel for all spraying purposes. Develops 150 pounds pressure. Made of brass with brass valves. Gives continuous spray. Has 3 feet of ⅜-inch hose and two brass nozzles for spray or solid stream. Agitator keeps liquids thoroughly stirred. Height over all, 31 inches. Shipping weight, 11 pounds.

42N1728¼ — Combination Barrel and Bucket Brass Spray Pump **$4.15**

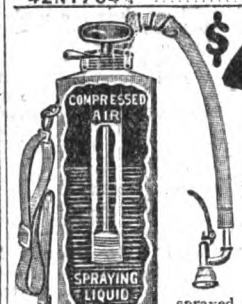
Peerless No. 25 Compressed Air Sprayer

Screw Lock Type.

$3.95

For Spraying or Whitewashing.

There are many who want a good, reliable and serviceable sprayer that will serve every practical spraying purpose for which a compressed air sprayer is used, with as little expense as possible. To those we offer our Peerless Compressed Air Sprayer illustrated here. This sprayer operates on the same principle and has same capacity, etc., as our Hercules Sprayer, but the pump is attached to the tank by a screw locking device instead of the quick acting lever cam lock with which our Hercules Sprayer is equipped. This screw lock is made entirely of brass and threads are machine cut. This sprayer may be used for all general spraying purposes, such as garden spraying, whitewashing, cold water painting, etc. Shipping weight, 9 pounds.



Showing Screw Pump Lock.

42N1764¼ $3.95

$4.45 Hercules Compressed Air Sprayer

Cam Lock Type.

For Spraying or Whitewashing.

Showing Cam Pump Lock.

Has latest improved quick acting lever cam pump lock. A few minutes' pumping charges the tank, and it will then spray without further pumping until pressure in tank gets low again. Three gallons of liquid can be sprayed with three charges of air. Total capacity, 3 gallons. Tank tested to 60 pounds pressure. Pump cylinder is of seamless brass tubing with rubber valve and brass valve spring. Shipping weight, 10 pounds.

42N1760¼—Sprayer with galvanized tank..... **$4.45**

42N1761¼—Sprayer with brass tank..... **6.95**

42N1417—Brass Extension Pipes, 2 feet long. Shipping weight, 8 ounces..... **40c**

Ideal Sprayer. Made with tin pump and reservoir. Simple and efficient. Capacity, about 1 quart. Shipping weight, 2 lbs.

42N1028 ..... 34c

Little Wonder Sprayer. Has brass ball check valve. Throws continuous spray. Sprays up or down in any position.

42N1022—2-quart size, with tin pump and tin reservoir. Shipping weight, 2 pounds..... **$1.10**

$9.90

For Spraying, Whitewashing or Cold Water Painting.

Has 6¾ - gallon open top reservoir. Pump cylinder is brass with iron handle. Agitator keeps solution thoroughly mixed. Pump fitted with 8 feet of three-ply ⅝-inch hose, stop cock and latest pattern large misty spray nozzle. Nozzle has heavy brass strainer and can be easily taken apart for cleaning. Sprayer, filled, is easily carried. Height over all, 33 inches. Shpg. wt., 40 lbs. Not mailable.

42N1734¼ Handy Improved Sprayer **$9.90**

Simplex Compressed Air Sprayer.

$3.75

For spraying small garden plots, small trees, potatoes and all other low growing vegetation. Extension pipe with nozzle attached directly to tank. The automatic lever shut off is attached in such a way that the same hand that carries the sprayer about can operate the shut off, leaving the operator's other hand free to hold back leaves so that the underside can be properly sprayed. The pump is made of brass, the tank will drain dry. Unexcelled for greenhouse use. Capacity is 1½ gallons. Height over all, 19 in. Shpg. wt., 8 lbs.

42N1783¼ $3.75

Handy Whitewashing and Spraying Machine.

It forces whitewash into cracks and crevices where disease germs lodge and which cannot be reached with brushes.

For spraying sheep and cattle it is especially efficient, as it forces the liquid through to the hide, where it is really wanted.

Has 6-foot iron spray pipe with a ¼-inch brass shut off cock, brass spray nozzle, extra brass nozzle for straight stream-work, rubber suction hose with screen attached and 8 feet of ⅜-inch special high pressure spray hose. Shipping weight, 30 pounds.

42N1725¼ ..... 13.

Double Acting Tubular Spray Pump.

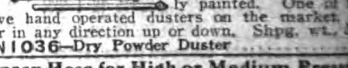
For spraying whitewash, applying disinfectants. Double acting. Operates by working pistons in tubes here and back. Sprayer has brass with wood handle and ½-inch rubber suction hose with piece of pipe and strainer on end. Four nozzles furnished. One for coarse spray, one for fine spray, one for sprinkling and one for fire stream. Shipping wt., 5 lbs.

42N1032 ..... 13.

Gem Crank Duster.

Fan drive by gears, not a belt. This duster will have two rows of plants as fast as one can walk and is adjustable for two different widths for dusting all trees and bushes. Furnished with two tubes, two nozzles, one Y connection, two elbows and two carrying straps with snaps. Complete instructions included. Shpg. wt., 10 lbs.

42N1740 Gem Crank Duster $0.30



Powder Duster.

Will dust Paris green, bordeaux, dry arsenate of lead and other insect killing powders. Made of light sheet steel and nicely painted. One of the most effective hand operated dusters on the market. Distributes powder in any direction up or down. Shpg. wt., 3 lbs.

42N1036—Dry Powder Duster ..... 1.

Spray Hose for High or Medium Pressure.

When comparing our prices on sprayer hose remember we furnish two couplings with each length of hose.

Half-inch hose furnished with standard ¾-inch hose connections; ⅜-inch hose furnished with standard ½-inch connections. Be sure to order correct size hose for your sprayer.

Economy King

MADE AND SOLD ONLY BY SEARS, ROEBUCK & CO.

Guaranteed Cream Separators at very low prices

Very Easy to Buy We make it easy for you to become the owner of an Economy King Cream Separator. If you prefer to buy any of the Dairy sizes on monthly payment terms just fill out the time payment order blank on page 690 and send it to us together with a deposit of $5.00 (or $10.00 in case you order an electric drive separator). Once a month, starting after 30 days' trial, send us a payment of the amount stated under the price of the size selected and in a few months the separator is paid for and is your property. Should you prefer to send cash with the order as most of our customers do, you can make a saving by taking advantage of our low cash price as quoted under each size.

We Build Them Ourselves Every Economy King Cream Separator is built in our own big modern factory at Buffalo, New York. Sears, Roebuck and Co., are in fact one of the largest makers and dealers in hand cream separators in the entire world. Our factory represents an investment running into millions of dollars and is equipped with every necessary machine and device to turn out cream separators of highest quality at the lowest possible cost.

It is called the King Separator Works and is located at Rano and Welland Streets. Should you visit Buffalo, we cordially invite you to call on us so that we may show you through our big plant and you can there see with your own eyes the fine quality of material used, the extreme care and accuracy and careful tests we insist upon, which insure each Economy King being perfect in every detail of finish and operation.

Used Nearly Everywhere The use of the Economy King has become so general and widespread that almost any prospective buyer who is considering the purchase of an Economy King can, by a little inquiry, find neighbors close at hand who will gladly give him their opinion of the Economy King as based on practical, everyday experience.

> Ottawa, Ill.
> Feb. 24, 1923.
>
> Sears, Roebuck and Co.,
> Gentlemen:
>
> Acknowledging your letter of February 16th, you are assured that it is very gratifying to know that you are still interested in the working of my King Cream Separator.
>
> Wish to state that in the seven years that it has been in use there has been no cost for repairs and it is still giving the very best of results, easy to clean, also skimming the milk very close, etc., and have saved time and labor by using the same.
>
> The King Cream Separator is much lower in price than any other separator that I know of, and to my knowledge there is no comparison.
>
> Should I hear of anyone in the market for a separator, I will gladly recommend the King Cream Separator. I would not be without mine.
>
> Yours very truly,
> HENRY DAMMAN.

If it should chance that you are in a community where little dairying is done and cream separators are not widely used, or if you cannot for any reason readily locate one or more Economy King users, just drop us a line and we will gladly send you the names and addresses of some users near you.

Perhaps the best evidence of the perfect satisfaction the Economy King affords the user is the steady growth of our separator business. With not a single salesman or agent in the field or a local dealer to represent us and push the sale of our machines, our business in this line has become one of the largest in the world. We can attribute this mostly to the recommendations of our satisfied customers.

Prices That Save You Money Building cream separators in large quantities and in an economical way gives us a very low cost, and to this cost we add only a single moderate profit, so that our price to you is a wholesale factory price and about the same as a jobber or large dealer would pay a maker for similar separators. As the jobber must pay his handling expense and make a profit and sells to a retailer or agent, who also makes a profit, it is natural that their prices must be much higher than ours.

If you will compare our prices, size for size and weight for weight, with prices asked by retail dealers or agents, you will see that you can make a big generous saving by buying your cream separator direct from us. There is also the added advantage in buying direct from the maker that you are always sure of being able to obtain any repairs or spare parts if ever needed in years to come.

We Allow You 30 Days' Trial We have sold more than 700,000 Economy Cream Separators and every one was sent out on trial. We always allow 30 days' trial, with the understanding that if the separator does not please you in every way you can box it up and return it to us. We will then, at once, and without question, send back any money paid by you and also pay all freight charges both ways, so your 30 days' test costs you not a penny if you do not keep the machine.

You can skim the milk, morning and evening for a full month, and have the cream and skim milk tested at the creamery or test it yourself. Compare the Economy King with other standard separators, compare ease of running, closeness of skimming, quick and thorough cleaning, sanitary features, the strength and solidity of construction and make any other comparison you see fit. Remember, we make the buyer the sole and only judge, allow plenty of time for a long farm test in daily use and accept his decision without question, so you run no risk whatever in ordering on trial.

Bigger Dairy Profits There are about 700,000 Economy Separators in use in the United States. You will find them in every county and in nearly every township where dairying is done, making and saving money for their owners. They are turning losses into profits, turning losing cows into money makers and making paying dairies pay better than ever.

They reduce the daily dairy tasks from hours to minutes by taking away the hardest and most disagreeable part of it, do away with most of the heavy lifting and fire building of the old method and make the daily dairy work light, agreeable and quickly finished. They save so much time and labor that you can often double your herd with a corresponding increase in profit and still your dairy work will be less than before.

Some of the results of using the Economy King, as proven by thousands of our customers, are larger herds handled with less work, more butter fat from each gallon of milk, better prices for cream or butter because of improved quality, more young stock raised and fed at a profit, improved soil fertility, larger and better crops, with increased prosperity and growing independence from year to year.

An Economy King will help you, too, just as it has so many others, and you can make no mistake in ordering one on trial and testing it under your own farm conditions.

Small Freight Charges and Speedy Delivery To reduce the freight charges you must pay to a very small amount and insure very quick delivery, we aim to carry complete stocks of Economy King Separators in all sizes in warehouses at six different railroad centers in the east and west. Warehouse stocks at:

St. Paul, Minn. — **Grand Rapids, Mich.**
Chicago, Ill. — **Sioux Falls, S. Dak.**
Kansas City, Mo. — **Buffalo, New York**

Mail your order direct to Sears, Roebuck and Co., Chicago or Philadelphia, Penna., whichever is nearer, and we will arrange to make shipment from the warehouse closest to you. You only pay the local freight charges from a nearby warehouse and they are just a small item in nearly every case. As we can ship direct to nearly any point, avoiding transfers and delays, your separator will usually reach your home town in from two to five days after we receive the order.

> Mr. P. H. Bradley, Fairbury, Ill., R. 3, Box 88, says: "I have had two Economy Kings. The first one was a No. 12. After I used it six years it was still in good shape, but as my herd increased in size I bought a No. 15. I saved $40.00 on it, and when I buy another machine it will be an Economy King. About all the separators in use around here are Economys."

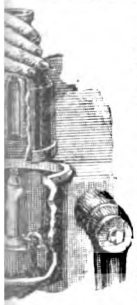
Economy King



MADE AND SOLD ONLY BY SEARS, ROEBUCK & CO.

Our no splash supply tank is formed with full curving sides and convex bottom, which prevents the milk splashing over on the floor and machine, no matter how hastily you pour it into the tank. The top rim is broad and easily grasped for lifting from any position. Feet are provided which protect the faucet if set on a flat surface. No seams or sharp corners. draining, easy to wash and very sanitary.

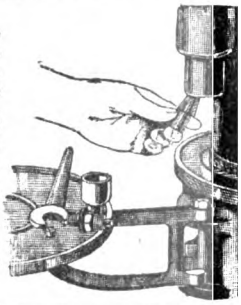
Our oiling indicator is a little glass window against which the oil splashes constantly in operation. It shows you that the oiling system is working properly, and if the oil should be frozen or the oil supply too low you see it at once. An overflow pipe keeps the oil at the proper level and an oil drain screw provides for the quick emptying of the oil basin.

The skimming bowl, for emptying or washing, is lifted off the driving spindle and can be replaced just as easily. This makes the bowl lighter and easier to handle and also avoids damage to the spindle or driving worm by striking it or by accidentally dropping the bowl, which often happens if the bowl is attached to the driving spindle. The driving spindle sockets in a bronze sleeve in the bowl, and a wedge shaped key locks it in place.

The upper bowl spindle bearing is flexible. It cushions and centers the bowl so it runs smoothly and easily without noise or vibration. This is due to our improved multiplex spring, which, though a single piece, has a series of spring steel tongues which yield gently to the of the bowl, preventing undue vibration or but at the same time holding it in perfect

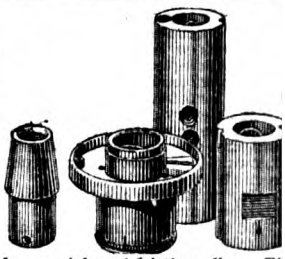
Economy King Advantages

Skim Closely Our cream separators, in all sizes, are wonderfully close skimmers and take the cream practically to the last drop under all dairy conditions. In winter or summer, and with the milk warm or cold, regardless of feed, breed, or condition of lactation, they skim to a trace, give you smooth, velvety cream of any desired thickness and a purified aerated skim milk free from froth and in splendid condition for feeding or other purposes.



Easy to Clean The easy cleaning features are the delight of the housewife. The frame is smooth with full rounding surfaces and without sharp corners or crevices where dirt can gather. The base on the dairy sizes is open and easy to sweep or mop under with no place for dampness or mold to collect. A drip shelf with handy faucet catches and saves the used oil, preventing oil stains on the floor. The supply tanks are made from a single piece, smoothly retinned and without a seam or sharp corner.

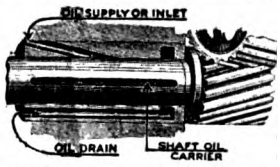
Our bowls are the sanitary loose disc type and heavily double tinned, giving a smooth, bright, rust resisting finish. The skimming discs for cleaning are not handled separately but are quickly transferred to a handy disc washer where they can be rinsed, dried and aired almost as quickly as a single piece.



Other Good Points All sizes have heavy, sturdy frames, scientifically designed to prevent shaking or weaving while running. Cranks are at the proper height for easy and continued turning without strain on the back or arms. Crank speeds are moderate and easily maintained, varying from 48 to 60 turns a minute, according to length of crank and capacity of machine. Supply tanks are so low that they can be easily filled by a person of less than average height with little effort. Cream and milk spouts are plenty high enough to set milk cans under them if desired.

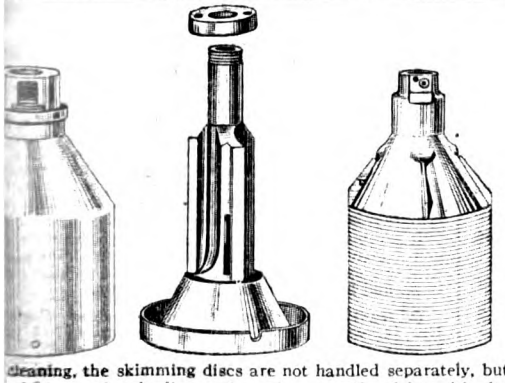
All gears are heavy and wide faced with helically cut or slanting teeth, which are best for quiet and easy running. Shafting is of hard carbon steel of extra large diameter and bearings are of ample length with long wearing surfaces. With ordinary care there is almost no wear out to the Economy King, yet all parts are exactly alike and interchangeable and, if necessary, any new part can be obtained at a moderate cost, that will fit into place exactly, without fitting or filing.

We ask you to check up the Economy King as shown and described on these pages, point by point, with the best separators in your neighborhood and you will find that not a single one can offer you more than part of the many advantages and features of convenience which you will secure in the Economy King.



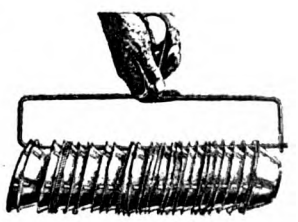
Lower bowl spindle bearing is quickly removed from the bottom without disturbing the gearing and, when replaced, centers itself accurately. Putting in a new bearing if ever necessary is the work of but a few minutes. In many other separators part of the gearing must be removed to replace this bearing.

At the lower end of the bowl driving spindle is a tool steel bearing point, which turns on a hardened steel ball. The bowl spins like a top on this almost frictionless bearing and is held in true line by bushings of a special anti-friction alloy. Th pinion shaft bearings are of extra length and all bea ings run in a bath of oil, which makes them almo frictionless.



Our cream screw is quickly regulated, does not require a fine adjustment and gives you any cream from the thinnest to the heaviest. It is extra large and substantial, and much more durable than the small light cream screws necessary to save space in some separators and which if lost or mutilated prevent the use of the separator until replaced.

Reduced view of a right hand pinion shaft bearing, cut away to show the oil circulation. Oil feeds in at the top and the flat spot on the shaft, in connection with an 8 shaped groove o the bushing which is not shown in the picture, sprea it evenly. Oil reaching the end of the shaft does n leak out, but is collected in a circular channel an drained back into the oil basin.



Make your own test—Order an Economy Kin on 30 days' trial. Then try it along side of any othe cream separator made and decide for yourself whic is best. If your test does not prove the Econom King not only the best at the price but the best at an price, we do not ask you to keep it.

Our Sanitary Skimming Bowl

Here are the parts of our improved detachable spindle skimming bowl. It is of the latest loose disc type, is very simple, easy to take apart, wash and assemble, and a wonderfully close skimmer. It will skim milk that is warm or cold. Milk from cows on dry feed, stripper cows, and milk from breeds whose milk is most difficult to skim, taking the cream practically to the last drop.

It gives you a smooth, velvety cream of any desired density from the thinnest to the heaviest, all regulated by turning a simple screw in the bowl head in or out. The cream is purified, aerated and free from froth. The butter fat globules are unbroken and after cooling it is in elegant condition for shipping or to ripen for home butter making.

cleaning, the skimming discs are not handled separately, but are removed from the bowl and ed to our handy disc washer, shown on the right, with almost the ease and speed of a single s permits you to clean each disc separately or rinse all at once, after which the discs are on the washer and hung up to dry and air.

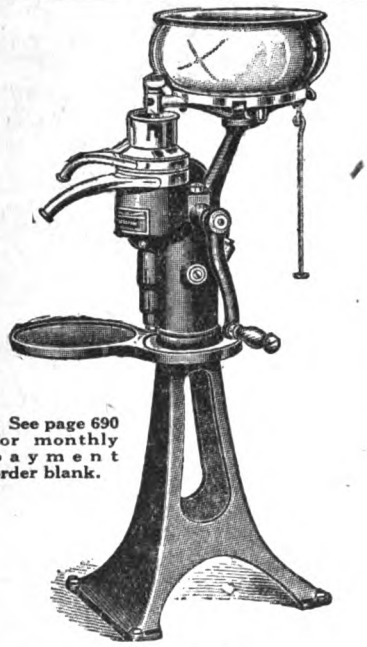
Economy King

MADE AND SOLD ONLY BY SEARS, ROEBUCK & CO.

Make your dairy a Big money maker

The Best Size to Buy.

The 600-pound capacity size, listed on the following page, skims a milk pailful in about two minutes, while to skim the same amount with the 250-pound size will require about five minutes. A proportionate saving of time and labor for larger skimmings twice daily during all the years you use the separator is, of course, a wonderful advantage.



Shipped Complete With Everything Needed.

Each Economy King Cream Separator is packed complete with all the needed tools and supplies for setting up, cleaning and operating. We include cleaning brushes, a supply of separator oil, wrench, cream screw key, bowl vise, rubber bowl rings, lag screws for fastening to the floor and everything needed.

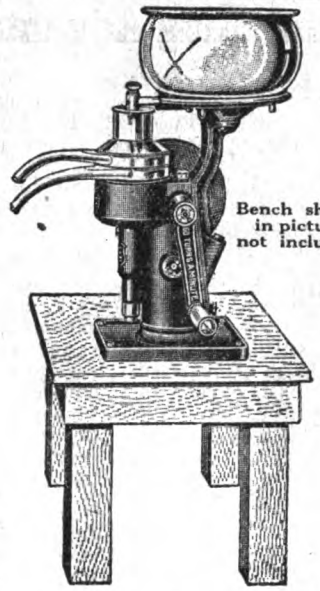
We also send directions for setting up and operating the machine, giving you full and complete instructions on every point, telling you all you need to know about the separator in a plain, simple way that you will find easy to understand and follow, even if you know nothing about a cream separator and have never seen one in operation.

Our separators are packed in substantial cases of matched lumber.

All bright and tinned parts are coated with heavy oil to prevent damage from moisture in transit, and we guarantee your separator to reach you in the same new and perfect condition that it leaves the factory.

See page 690 for monthly payment order blank.

Homestead Cream Separator No. 40



Skimming Capacity, 400 Pounds (About 190 Qts.) an Hour.

A new size, with sanitary close skimming loose disc bowl, oil splash lubrication, speed timer and all the improvements of our regular Economy King line, but is of lighter construction throughout. It is plenty heavy enough, however, to give many years of splendid service with ordinary care and is adapted for dairies of two to eight or ten cows.

We always recommend our sturdy, heavily built Economy King as the best to buy in the long run. Still, if you wish a machine of good capacity at a lower price, the Homestead will give you excellent satisfaction.

23N3740—Homestead Cream Separator No. 40. Shipping weight, 155 pounds.

Cash With Order, $47.50 | **$5.00** with order and balance in monthly payments of **$5.00** each, starting after 30 days. **$55.00**

Bench shown in picture not included.

Table Sizes for Homes and Small Dairies.

Economy King Cream Separator No. 10

Skimming Capacity, 135 Pounds (About 65 Qts.) an Hour.

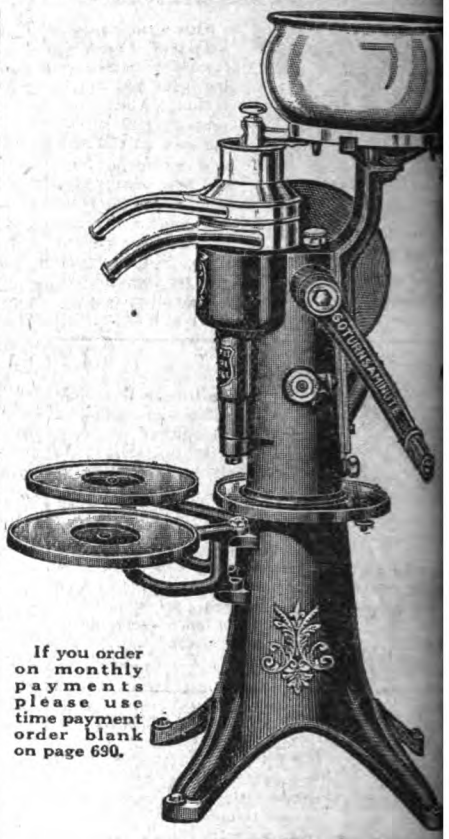
This size skims at the rate of a trifle over a quart a minute. Because of its small capacity we recommend its use in households where only one or two cows are milked and the quantity to be skimmed is always small. In most cases it is better to buy the larger capacity table machine, listed below, as it saves time with every skimming.

23N1030—Economy King Cream Separator No. 10, without stand. Skimming capacity, 135 pounds of milk an hour. Shipping weight, 90 pounds. **$34.75**

Sold for Cash Only.

Mr. Leo Suter, Marine, Illinois, R. 1, Box 71, says: "I have never had a bit of trouble with my Economy King yet. We make butter from our cream and I could sell three times as much butter if I had more cows. The skim milk for the little pigs is most profitable. I know that I saved $50.00 in buying my cream separator from you, as I have priced them at dealers here."

Economy King Cream Separator No. 11



Skimming Capacity, 200 Pounds (About 95 Qts.) an Hour.

These sturdy little machines are built with greatest care. They have our sanitary loose disc bowls with detachable spindle, oil splash lubrication and the same improvements and conveniences as our regular dairy sizes, except the crank speed timer. For dairies of one to three cows, which you do not expect to enlarge later on, this is the size we advise buying. Before ordering, however, be sure to figure on future additions to your herd, which may make your purchase of a larger size advisable.

23N1031—Economy King Cream Separator No. 11, without stand. Skimming capacity, 200 pounds of milk an hour. Shipping weight, 100 pounds. **$38.90**

Sold for Cash Only.

NOTE—The table size Economy Kings, listed above, are not supplied with stand and are intended to be bolted to a small bench or table, about 20 inches high, to be supplied by the user.

If you order on monthly payments please use time payment order blank on page 690.

Economy King Cream Separator No. 12, With Sta

Skimming Capacity, 250 Pounds (About 120 Qts.) an Hour.

This is the smallest of our regular dairy machines stand and will give good satisfaction where the h small, two to four cows, and you do not intend to i it. This size is easy to run, handle and to keep s It skims any quantity of milk from 1 gallon up an all our latest features, including crank speed time detachable spindle loose disc skimming bowl.

23N1032—Economy King Cream Sepa No. 12, with stand. Skimming capacity, 250 po milk an hour. Shipping weight, 175 pounds.

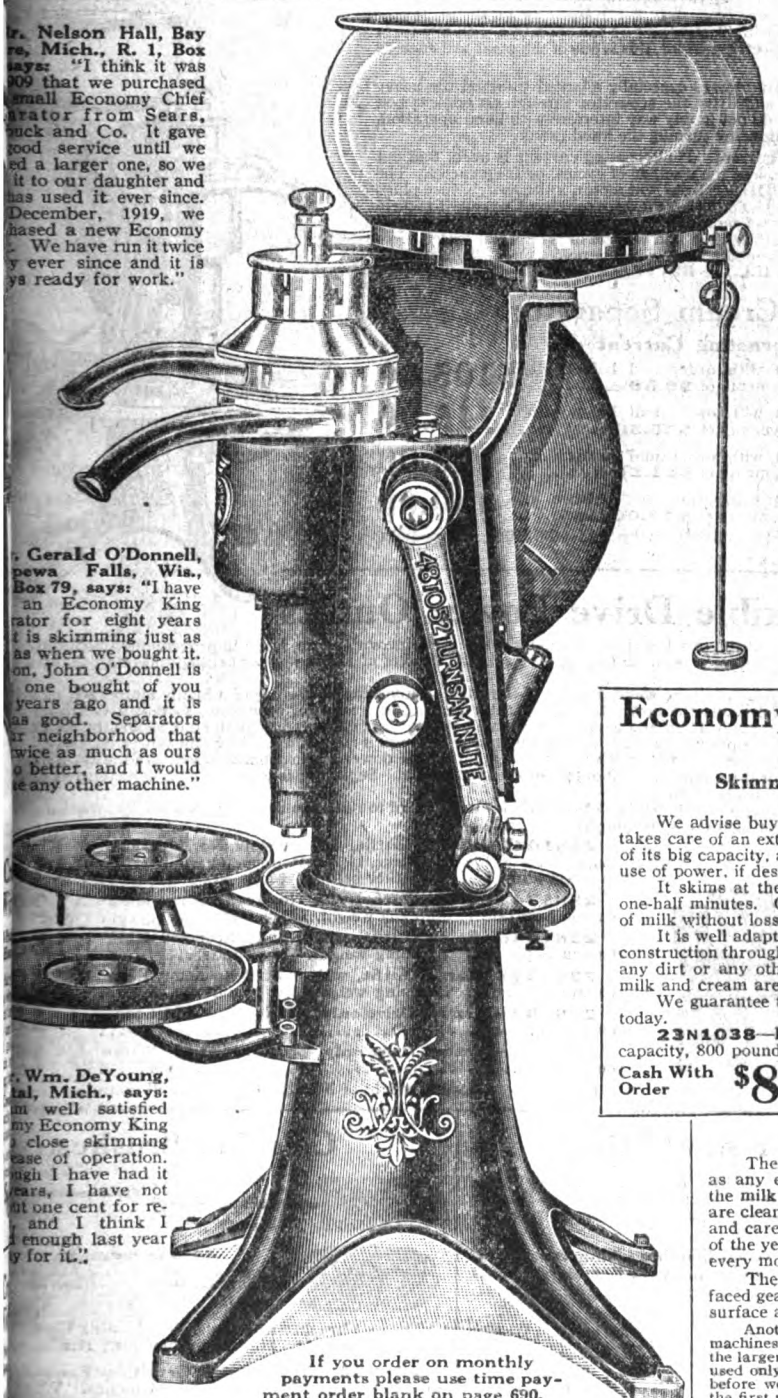
Separators that any dairyman can be proud of



Economy King

MADE AND SOLD ONLY BY SEARS, ROEBUCK & CO.

r. Nelson Hall, Bay re, Mich., R. 1, Box says: "I think it was 09 that we purchased small Economy Chief arator from Sears, uck and Co. It gave ood service until we ed a larger one, so we it to our daughter and as used it ever since. December, 1919, we hased a new Economy . We have run it twice y ever since and it is ys ready for work."

. Gerald O'Donnell, pewa Falls, Wis., Box 79, says: "I have an Economy King rator for eight years t is skimming just as as when we bought it. on, John O'Donnell is one bought of you years ago and it is as good. Separators r neighborhood that twice as much as ours better, and I would e any other machine."

. Wm. DeYoung, tal, Mich., says: m well satisfied my Economy King close skimming ease of operation. ugh I have had it ears, I have not ut one cent for re- and I think I enough last year y for it."

If you order on monthly payments please use time payment order blank on page 690.

Economy King Cream Separator No. 16 With Stand

Skimming Capacity, 600 Pounds (About 290 Quarts) of Milk an Hour.

This is the best size for dairies of from three to twelve or fifteen cows, and is the size selected by most of our customers. It skims at the rate of a milk pailful every two minutes and does a big skimming in short order.

If you have a small or medium size herd, this is the Economy King we recommend. It saves time and labor daily, and because of its big capacity handles the big spring milk flow easily. Should you enlarge your herd in coming seasons, as you will be more than likely to do, it will take care of the extra milk up to a herd of eighteen or twenty cows, if necessary, and save you the expense of buying a separator of larger capacity.

It is a wonderfully close skimmer and takes the cream to a trace from warm or cold milk, gives you a cream of any wished for density, from the thinnest to the heaviest, and cleanses and aerates both the cream and skim milk.

This No. 16 Economy King has all our latest improvements and conveniences. We fully guarantee it and allow you full thirty days for trial, giving you plenty of time to prove its worth in your own dairy.

23N1036—Economy King Cream Separator No. 16 with stand. Skimming capacity, 600 pounds of milk an hour. Shipping weight, 240 pounds.

Cash With Order **$69.75** | **$5.00** with order and balance in monthly payments of **$7.50** each, starting after 30 days. **$80.00**

Mr. Thos. Flint, Jr., Tustin, Mich., R. 3, says: "We have used our separator for the last four years now and it is still giving good service, with no expense except for one rubber ring. At the time I purchased the Economy King No. 16, it cost $65.00 and our local agent wanted $110.00 for another make, making a saving of $45.00 by buying from you."

Economy King Cream Separator No. 18 With Stand

Skimming Capacity, 800 Pounds (About 390 Quarts) of Milk Per Hour.

We advise buying this size for herds of ten or twelve to fifty cows or more. It readily takes care of an extra large milk flow when the cows are fresh or on spring pasture, because of its big capacity, and runs so easily that you can handle a large quantity of milk without the use of power, if desired.

It skims at the rate of six and one-half quarts a minute, or a pailful in about one and one-half minutes. City milk dealers and ice cream makers who must separate large quantities of milk without loss of time will find this size just what they need.

It is well adapted for use with power because of its heavy frame and base and substantial construction throughout. The purifying and aerating feature is of great advantage as it removes any dirt or any other foreign matter that may have fallen into the milk, so that both skim milk and cream are in better condition than the whole milk before skimming.

We guarantee this Economy King to please you in every way. Send us your trial order today.

23N1038—Economy King Cream Separator No. 18 with stand. Skimming capacity, 800 pounds of milk an hour. Shipping weight, 255 pounds.

Cash With Order **$82.50** | **$5.00** with order and balance in monthly payments of **$9.00** each, starting after 30 days. **$95.00**

Don't Buy Too Small a Size

There are many good reasons for selecting a cream separator of ample capacity, as any experienced cream separator user will tell you. The larger sizes skim the milk much more quickly, saving time and labor every day in the year. They are cleaned about as quickly as the smaller sizes and are practically as easy to run and care for. They easily handle the big milk flow you will have at certain times of the year and save much valuable time in the planting and harvest seasons when every moment counts.

The two larger sizes listed above are extra heavy and substantial, with broad faced gearing, shafting of large diameter and long bearings, giving plenty of wearing surface and thus insuring great durability.

Another advantage of these larger sizes is that they will last longer than the smaller machines. A cream separator, like any other machine, only wears as it is used, and as the larger sizes do any skimming in about one-half the time of the smaller sizes, they are used only about half as long each day and naturally will run about twice as many days before wearing out or needing repairs, so that although the price is a little higher in the first place, in the long run they cost you less per year than the smaller sizes.

Our Guarantee Protects You

With your Economy King Separator you will receive our binding guarantee th protects you against defects in workmanship and material during all the s you use the separator. Should any part give out through a flaw in material defect in manufacture, even after years of use, we at once replace it with a new perfect piece entirely free of cost to you.

Our careful and thorough inspection system, by which we not only rigidly ine every part of the separator, but analyze and control the metals used in our dry and machine shop, is the best guarantee that an Economy King is perfect very way. But should a hidden flaw, by any rare chance, escape the watchful of our inspectors, our guarantee protects you fully.

Repairs and Repairing

Repairs cost nothing if they come under the terms of our guarantee. If, however, it is necessary to replace a part giving out through natural wear, or a part broken through accident, we supply the needed piece promptly and at a very low price.

We carry a complete stock of repairs for all Economy Separators, old and new, at Chicago, and, of course, another stock at the factory. In addition we have complete repair shops at Chicago and Buffalo, N. Y., where we are equipped to do bowl repairing and balancing and Economy Separator repairing of all kinds skillfully and at reasonable prices.

In the instruction booklet we supply with each separator you will find a repair list showing pictures of each part, together with a price list which makes it very easy to order just the part needed.

MANY EXCLUSIVE FEATURES

All sizes have our improved splash lubrication system by which all bearings in a constant bath of fresh oil, reducing wear and friction to almost nothing, ring long life and easy running. Our patented crank speed timer supplied on dairy sizes enables you to turn at just the right speed to insure perfect skimming uniform cream. A patented oiling indicator shows that the oiling device is king properly. Our patented wide range cream regulation, instant bowl seating e and other exclusive features give Economy King users valuable advantages obtainable in any other separator, regardless of the price you may pay.

Our big cream separator business has been built up by supplying our customers with a better separator with more distinct advantages and improvements than can be obtained in any other make, and we allow you an ample trial to prove this to your own satisfaction in everyday farm use.

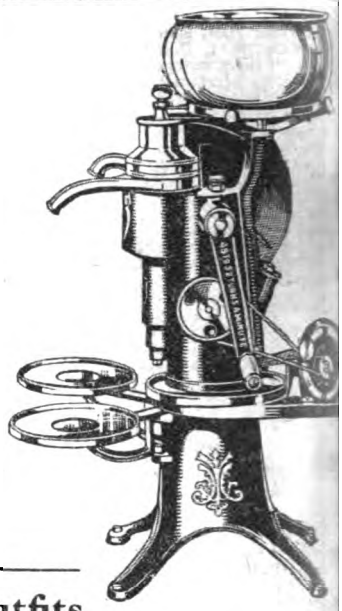
Economy King



MADE AND SOLD ONLY BY SEARS, ROEBUCK & CO.

Electrically operated Cream Separators give splendid satisfaction

We supply Economy King Cream Separators in the dairy sizes equipped with electric motors for operation with any form of electric power. If you have a home electric lighting plant, or can purchase electric current, this is one of the most satisfactory and economical methods of operating a cream separator.

Our electrically operated separators are provided with special heavy duty motors especially adapted to stand the heavy starting load. The motors are mounted on a bracket below the drip shelf and drive the separator through an endless belt connecting with a pulley mounted on an extension of the pinion shaft. They do not in any way interfere with hand operation, and if the power is off, the belt can be slipped off the pulley and separating done by turning the hand crank.

In ordering give voltage and say whether you have direct or alternating current. If alternating current is used, find out from your electric company whether single phase, two-phase or three-phase, and the number of cycles, or frequencies. The **32-Volt Direct Current Electric Drive Separator** is complete with 32-volt DIRECT current motor, knife switch, fuse plugs and 40 feet of insulated wire. (Price of extra wire, if wanted, 3 cents per foot.) The **110-Volt Alternating Current Electric Drive Separator** is complete with 110-volt 60-cycle ALTERNATING current motor and 10 feet of cord, with attachment plug for lamp socket. If different from those listed herewith, send us full information and we will quote special prices. We can also supply electric equipment at reasonable prices for the dairy size Economy King you are now using. If interested, write us. Electrically equipped separators are **shipped from CHICAGO, ILL., or BUFFALO, N. Y.**

Complete Flexible Drive Power Outfits

These complete outfits consist of a 1½ H.-P. Economy gasoline engine with all the latest improvements, including W magneto, an Economy King Cream Separator of the size selected, 15 feet of 1-inch leather belting and our patented Fl Power Drive.

This improved drive absorbs all the shock and jar of the engine explosions by the use of a highly tempered, closely steel spring shaft which transmits the power to the separator gearing in a smooth, even flow, so that it is under eve strain than with hand operation. Tight and loose pulleys enable you to start engine without starting separator and st engine stop suddenly a ratchet permits the separator to run unchecked until it runs down. When the power is applied a rocker arm swings inward, permitting the belt to slip and applying the power to the separator gear gradually, bringi to skimming speed in two or three minutes, without shock or undue strain. Separator is provided with an extended pan to which the driving pulley is attached.

The 1½ H.-P. Economy engine supplied with this outfit is also adapted to run a fanning mill, corn sheller, washing ma pump jack, grinder or other light farm machinery.

Shipping weight of Flexible Drive only, 50 pounds.

Pulleys for Power

Pulleys for use when our cream separators are to be operated by gasoline engine or other power are applied by simply removing the crank and replacing it with the pulley.

Never attempt to belt from gasoline engine direct to these pulleys, as it runs much too fast, and to do so is highly dangerous. Use a countershaft and have the size of the pulleys calculated by some one you know is competent.

23N135—Friction Clutch Pulley for Economy King Cream Separators Nos. 10, 11, 2, 4, 12 or 14. Size, 14 inches in diameter, 1½-inch face. Shipping weight, 25 pounds..... **$3.90**

23N130—Friction Clutch Pulley for Economy King Cream Separators Nos. 6, 8, 16 or 18. Size, 14 inches in diameter, 2-inch face. Shipping weight, 30 pounds..... **$4.25**

If pulley is ordered separately always state in your order which size separator it is for. We do not furnish pulleys to fit other cream separators.

Rubber Bowl Rings

Important Notice—Rubber bowl rings will only fit the size and style of separator they are intended for. Be very careful in ordering to insure getting the correct rings for your separator.

Rubber Bowl Rings to Fit Economy King Separators. (Will Not Fit Improved Economy or Economy Chief.)

ermoil Engines Start and Run on Cheap Fuel.

The Thermoil is a wonderful engine as it will start and run on all grades of sene; the lowest grades, costing about one-half as much as gasoline, will give best results. Just turn on the fuel by opening the speed control wheel, relieve the pression and crank the engine. The instruction book that we send with each le tells how to do it.

Thermoil Engines are complete with belt pulley, fuel tank, starting crank, lubri- and grease cups. They operate on the four-cycle throttling governor principle, intake and exhaust valves are mechanically operated by an all steel cam shaft, is extra long, fitted with five special ground rings, so that you will have no trouble with the compression on this engine than on any gasoline engine. We antee a Thermoil will give you satisfactory service as long as you have it.

Thermoil Engines have no carburetor, batteries or electrical ignition of any kind. fuel is fired by the heat of compression. The piston compresses the air in the der to 480 pounds per square inch, heating it to about 1,000 degrees Fahrenheit, h sets fire to the fuel in the cylinder. Ignition is positive and sure under all itions even in below zero weather.

Thermoil Engines start easily in below zero weather.

Mossehead Lake, Capen's Maine.

Time and again last winter, when the mercury reached 20 to 28 below zero, d the wind sifted the snow completely over the forward part of the engine, it continually from early morning until dark, threshing and grinding grain. It as regular in its running as steam could be, and at a much lower cost.

MR. AARON CAPEN.

Shipped on 60 Days' Trial.

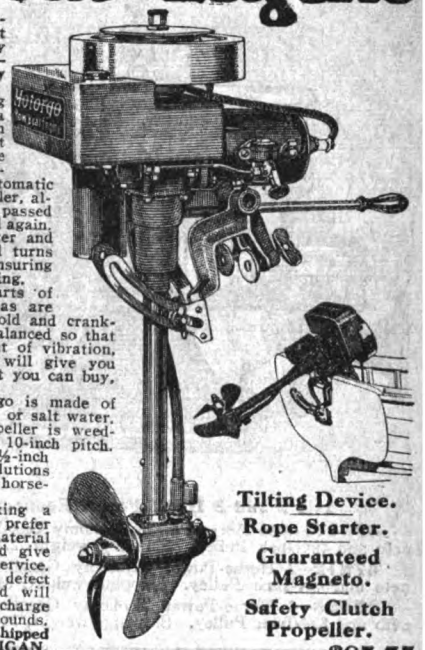
We will ship you a Thermoil engine on receipt of our price with the understanding you are to try it sixty days before you decide to keep it. If, at the end of that you are not entirely satisfied, you may return it to us and we will exchange it an engine that will give you satisfactory service, or we will return your money, ther with any freight charges you have paid. Thermoil Engines are guaranteed ast defect in material and workmanship as long as they last. We will replace tive parts at any time free of expense to you.

Save Two-Thirds of Your Fuel Cost.

Thermoil Engines are constructed so that they use only 60 per cent as much fuel he gasoline or throttling governor kerosene engines, and they will operate on lower grade fuels. If you are in position to buy fuel oil, crude oil or any of the r grade fuels, you can take advantage of this additional saving, as the Thermoil operate on any fuel that is thin enough to flow through the ¼ inch fuel pipe.

Fuel Consumption For an Eight Hour Run.

	ON ¼ LOAD	ON ½ LOAD	ON ¾ LOAD	ON FULL LOAD
HORSE POWER	2½ GALLONS	3 GALLONS	4 GALLONS	5 GALLONS
HORSE POWER	3 GALLONS	3¾ GALLONS	5 GALLONS	6½ GALLONS



F. W. Kellog has 4 Thermoil Engines.

LaBelle, Fla.

The first Thermoil engine I bought from you has been operating 10 hours ractically every working day for over 2 years, and is running just as nicely as did the first day.

This is the fourth Thermoil I have bought, and I have never seen any gaso- ne engine that any where near equals them for economical even service. I have eplaced all of the engines on my drilling rigs with Thermoils. F. W. KELLOG.

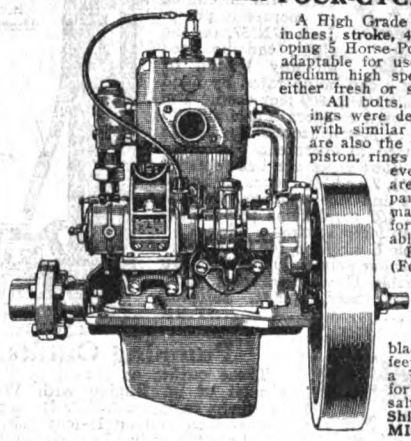
Motorgo Row Boat Engine

Fastens on the back of any ordinary row boat and will push it from 6 to 8 miles an hour any place that a row boat will go—through streams with barely enough water to float the boat.

It is equipped with a tilting device so that if you strike a rock or log or run into a bunch of weeds the propeller tilts just enough to let it go by. If the propeller blade strikes the obstruction it is equipped with an automatic safety clutch to release the propeller, allowing it to slip until you have passed over the object, when it takes hold again.

The Motorgo has a rope starter and a high grade magneto. One pull turns the engine over several times insuring easy starting and constant running.

The fuel tank, holding 3 quarts of gasoline is made of aluminum, as are also the flywheel, exhaust manifold and crankcase. The engine is accurately balanced so that it will give the minimum amount of vibration, and we guarantee the Motorgo will give you just as good service as any outfit you can buy, regardless of price.



The lower part of the Motorgo is made of bronze, so it can be used in fresh or salt water. The automatic safety clutch propeller is weedless, 9 inches in diameter with 10-inch pitch. The cylinder is 2⅝-inch bore, 2½-inch stroke, running 850 to 1,000 revolutions per minute, commonly called 2 horse-power.

Some manufacturers are making a feature of light weight, but we prefer to furnish an outfit built of material that we know will stand up and give years of satisfactory, dependable service. We guarantee every part against defect in material or workmanship and will replace defective parts free of charge at any time. Actual weight, 65 pounds. Shipping weight, 95 pounds. **Shipped from factory in SOUTHERN MICHIGAN.**

Tilting Device.

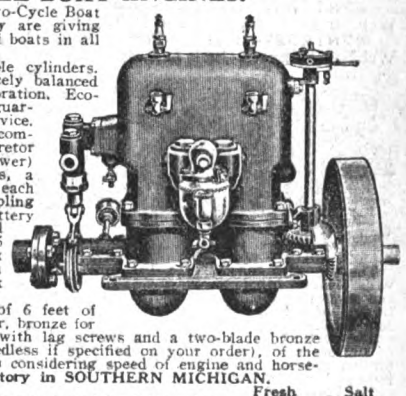
5 HORSE-POWER FOUR-CYCLE BOAT ENGINE.

A High Grade Four-Cycle Boat Engine. **Bore,** 3¾ inches; **stroke,** 4 inches; **weight,** 160 pounds; developing 5 Horse-Power; **speed,** 350 to 1,000 R. P. M., adaptable for use in slow speed work boats or for medium high speed pleasure boats; can be used in either fresh or salt water.



All bolts, nuts, manifold gaskets and bearings were designed so as to be interchangeable with similar parts used on the Ford engine, as are also the valves, valve tappets, timing gears, piston, rings and connecting rod; in fact, wherever possible, parts were used that are interchangeable with Ford engine parts, so that no matter where you may be you can always get new parts for your engine and at a very reasonable price.

Engine is complete with carburetor (Ford style), Bosch magneto, a spark plug and wire, brouze plunger pump and rear coupling for attaching propeller shaft.

For boat equipment we furnish and recommend a 14-inch two-blade bronze speed propeller with 6 feet of ⅞-inch propeller shafting and a ⅞-inch stuffing box; steel shafting for fresh water, bronze shafting for salt water. Shipping weight, 200 lbs. **Shipped from factory in SOUTHERN MICHIGAN.**

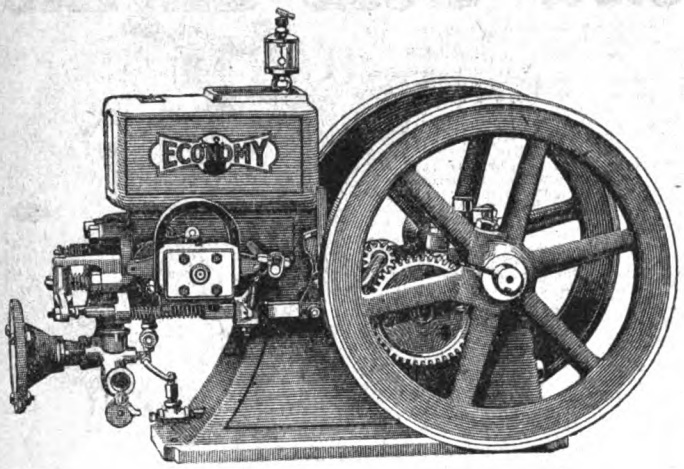
	Fresh Water	Salt Water
47N805—5 Horse-Power Four-Cycle Boat Engine with Bosch Magneto and Boat Equipment.....	**$109.95**	**$115.00**

TWO-CYCLE BOAT ENGINES.

We have been selling Motorgo Two-Cycle Boat Engines for over ten years. They are giving satisfactory service in thousands of boats in all kinds of waters.

Furnished with single and double cylinders. Painted battleship gray enamel, nicely balanced to run your boat with the least vibration. Economical in the use of fuel and are guaranteed to give you satisfactory service.

At the prices quoted engines are complete with timer, Schebler carburetor (mixing valve on the 2½ horse-power) bronze plunger pump, grease cups, a spark plug and priming cup for each cylinder, thrust bearing, rear coupling for attaching a propeller shaft, battery ignition, consisting of six dry cell batteries, (Bosch Magneto $19.85 extra), a high grade vibrating spark coil and the necessary wiring with terminals, muffler, starting crank and book of instructions.



Also boat equipment consisting of 6 feet of propeller shaft (steel for fresh water, bronze for salt water), a bronze stuffing box with lag screws and a two-blade bronze speed propeller (or will furnish weedless if specified on your order), of the proper size to give the best results considering speed of engine and horse-power developed. **Shipped from factory in SOUTHERN MICHIGAN.**

	Fresh Water	Salt Water

Pump Jacks.

47N312

A pump jack is used with an engine to operate a pump. Jack 47N337, on the right, can be used on any hand or windmill force pump so that pump can be operated by hand or with engine. Will handle wells up to 300 feet deep. The Jack 47N312, as shown above, is used to operate a horizontal pump, a clamp being furnished to fasten around the handle of the pump. It can also be used to operate a three-way pump or as an overhead jack. Both jacks are back geared four to one, with three strokes, 4½, 7 and 9½ inches, equipped with 13-inch tight and loose pulleys, 2¼-inch face. Should run 160 revolutions per minute operating the pump forty strokes a minute.

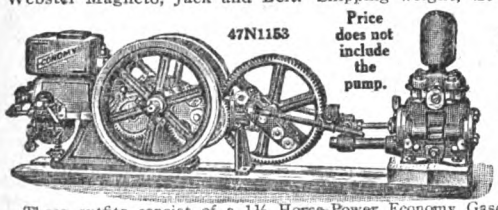
47N337—Double Gear Jack, for wells up to 300 feet deep. Shipping weight, 90 lbs....**$7.50**

47N312 — Double Gear Horizontal Jack, with hand clamp and stand support. Shipping weight, 95 pounds.....**$7.95**

47N337

Price does not include the pump.

Pumping Outfits.



These outfits as shown at the left consist of an Engine with Webster Magneto, pulley, a 47N337 Double Gear Pump Jack and an 11-foot belt. Can be used on any hand or windmill force pump. Pump can be run with engine or by hand. Will handle wells up to 300 feet deep.

47N15337—1½ Horse-Power Pumping Outfit, including Engine with Webster Magneto, Jack and Belt. Shipping weight, 380 pounds.....**$62.55**

47N12337—2 Horse-Power Pumping Outfit, including Engine with Webster Magneto, Jack and Belt. Shipping weight, 420 pounds..... **77.35**

Direct Connected Gear Driven Pumping Outfits.

Shipped only from EVANSVILLE, IND.

47N1153

Price does not include the pump.

These outfits consist of a 1½ Horse-Power Economy Gasoline Engine with **Webster Magneto**, 4x4-Inch Pulley and a Pump Jack, fastened by four cap screws to the base of the engine so that the jack is driven by gears instead of a belt. Jacks furnished for vertical or horizontal pumps, with four strokes, 5, 6, 8 and 10 inches.

The vertical jack shown at the right is built to clamp around the body of any ordinary hand or windmill force pump, furnished with long iron pipe pitman rods and crosshead. Will handle up to 300-foot well. Width, 22 inches; length, 45 inches.

The horizontal jack shown above has a stand that holds the outer end of the jack and short rods with a clamp to fasten to the handle of any force pump. Width, 22 inches; length, 59 inches. When engine is not used for pumping it can be detached from the jack and used for other work. Shipping weight, 390 pounds.

47N1152—1½ Horse-Power Economy Gasoline Engine with Webster Magneto, 4x4-Inch Pulley and Direct Connected Vertical Pump Jack.....**$72.50**

47N1153—1½ Horse-Power Economy Gasoline Engine with Webster Magneto, 4x4-Inch Pulley and Direct Connected Horizontal Pump Jack....**$72.50**

47N1152

Price does not include the pump.

Use Is the Best Proof of the Economy Superiority

We now have fourteen of your Engines and have standardized on the Economy after trying six different makes.

These engines are put to very hard service, and we find they cost very little for repairs and seldom have any trouble in keeping them moving every day.

ACKER DRILLING CO.
Scranton, Penna.

Have used my 1½ horse-power Economy for over 5 years, spending only 30 cents for repairs. Would advise any one needing an engine to buy an Economy.

JOSEPH RICHTER.
90B Greenville Ave., Cincinnati, Ohio.

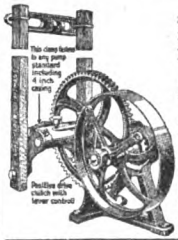
Have been running a 1½ horse-power Economy for 6 years. It has done a great deal of hard work, and is good for 6 years more. Have had very little trouble, and on account of its simplicity have always been able to take care of it myself.

JOHN W. FOLEY,
R. 6, Seward, Neb.

Have used an Economy engine for 5 years and have not spent $1.00 for repairs. It sure is economical and has to have as much power now as when new.

THEODORE LARSEN,
Makoti, N. D.

Hand Trucks for Small Engines.



47N1 Truck, as shown in the illustration, has an angle steel frame, 26 inches long; ¾-inch pipe axle, 18 inches wide; cast wheels, 9-inch diameter with 2-inch tires; for use with our 1½ and 2 horse-power Economy or Thermoil engines, or may be used with any 1½ or 2 horse-power engine.

47N35 Truck has an angle steel frame, 36 inches long; 1⅛-inch solid steel axle, 30 inches wide; steel wheels, 14 inches in diameter with 2½-inch tires, for use with any engine from 2½ to 5 horse-power.

47N1—All Steel Hand Truck for any 1½ and 2 horse-power engines. Shipping weight, 45 pounds.....

47N35—All Steel Hand Truck for any 2½ to 5 horse-power engines. Shipping weight, 118 pounds.....

A Universal Pump Jack.

A center drive jack that will work in any position, any style of vertical or horizontal pump. Can be placed in any position, on the floor, side wall or ceiling, and pump can be run by an engine or operated by hand.

It is equipped with a clutch; press the shifting lever with the foot to start or stop the jack, or if used over head ropes may be fastened to the levers and operated from below.

The belt pulley is in exact center of the jack, eliminating all side strain and reduces friction. A very sturdily made jack that we guarantee will give you satisfactory service.

Gear reduction five to one, three strokes, 5, 7½ and 9½ inches, 13-inch pulley, and will handle 2-inch cylinder 4 feet. Fitting any pump standard up to 4 inches in diameter. Shipping weight, 85 pounds. **Shipped** from factory, **SOUTHERN MICHIGAN or HARRISBURG, PENNA.**

47N315—Center Drive Clutch Jack.....

Governor Pulley and Line Shaft.

Line Shaft Outfit consists of a speed governor and its control, complete, with fittings to attach to ceiling or wall. Can be used on any engine up to 3 horse-power, to run the cream separator, churn, washing machine, pump jack or any small machine, as the governor takes care of variations in speed of engine and size of engine pulley.

A special adjustment on the speed governor regulates the speed of the shaft. It can be set permanently for any desired speed, or the speed can be increased or decreased as desired. Governor also acts as a clutch. Full instructions with each outfit.

47N321—8-Foot Line Shaft Outfit consists of an 8-foot shaft, the speed governor, one 4-inch, one 6-inch, two 8-inch pulleys and two hangers, mounted on 8-foot wood base. Weight, 115 pounds.....

47N322—12-Foot Line Shaft Outfit consists of a 12-foot shaft, the speed governor, one 4-inch, two 6-inch, three 8-inch pulleys and three hangers, mounted on 12-foot wood base. Weight, 150 pounds.....

Drag Saw Outfit.

The Economy Drag Saw Outfit is complete with a 1½ horse-power Economy gasoline engine with Webster Magneto for ignition, mounted on a 9-foot hardwood

A multiple disc lever clutch enables the operator to start the engine without g the saw or to stop the saw without stopping the engine and prevents damage blade in case it binds in the cut.

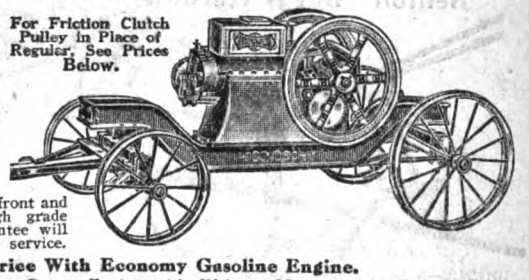
e two all steel wheels, 18 inches in diameter, with 3-inch tires, are mounted on axles that can be easily changed, so the outfit may be drawn from one place to or moved from cut to cut along the log. Saw blade is 5 feet long, made of rade saw steel and is filed and set, ready for use. Length of stroke, 20 inches; perates at 150 strokes per minute.

gine will operate saw successfully on any log from 8 inches up to 2 feet in ter. Exhaustive tests show that one man with this outfit can cut through a 2-foot two minutes, while it requires two men ten minutes to cut the same log with rosscut saw. It can be readily seen that this outfit will pay for itself in a very time, as it will enable one man to saw in one week what would take three men four weeks to handle with an ordinary crosscut saw.

e saw is held by a guide, which also holds the saw rigid while the outfit is moved. A truss rod extends the full length of the frame, strengthening the outfit venting vibration. The anchor hook holds the outfit to the log, is easily handled events slipping.

tandard binder chain is used for driving the saw, as chain drive is very flexible, o handle and repairs can be purchased at any hardware store.

gine can be removed from the saw frame and used for pumping water or any work. Pulley furnished at extra price shown below, so that engine can be used her work when not sawing wood. Weight, complete, 490 pounds; crated for ship- 525 pounds. Full instructions accompany the outfit, telling how to set it up, o start and run the engine. **Shipped complete from factory at EVANSVILLE, IND.**



e cannot furnish saw frame without engine, as engine is made special for this Any engine that you might have, even an Economy, will not work.

7N2232—Economy Portable Drag Saw Outfit, complete with Engine $93.75
foot saw, as shown.

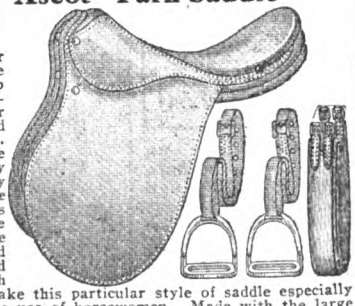
"Victoria" French Style Park Saddle

Light Russet Color.

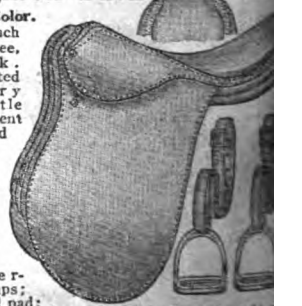


Made on a 17-inch cut back Colonial French style tree with extended bars, which distribute the weight of the rider over a large surface of the horse's back. This style is the horsewoman's special favorite and is suitable for a rider of almost any weight or build. It will be found very comfortable for both men and women. The seat, jockeys and skirts are of imported pigskin; skirts are 21 inches long from center of seat and 12½ inches wide; imported cowhide stirrup straps, 1¼ inches wide with "Never-Rust" stirrups; built-up calfskin covered pad; folded leather girth. Wt. of saddle, abt. 16½ lbs. Shpg. wt., 22 lbs. $67.50

ION1203¼.....

The "Ascot" Park Saddle

Light Russet Color.



Designed for those who ride with the stirrup leathers extended to allow for only a slight bend at the knee. The cantle is slightly raised thereby deepening the seat. It assures to the rider the highest degree of comfort and provides added safety, which two features make this particular style of saddle especially desirable for the use of horsewomen. Made with the large 18-inch Colonial style cut back tree; imported pigskin seat and jockeys. Skirts are 21 inches long from center of seat and 12½ inches wide. The calfskin covered pad is an important feature; imported cowhide leather stirrup straps, 1¼ inches wide with "Never-Rust" stirrups. Folded leather girth. Three buckles at each end. Weight of saddle, about 15 pounds. Shipping weight, 21 pounds.

U. S. Government Cavalry Saddle

1ON1461¼—A fortunate purchase enables us to sell these regulation Army Saddles at a wonderfully low price. Farmers who use a saddle almost daily can now secure an unusual bargain in one of these desirable hard service saddles. When leather and labor were at their lowest level these saddles cost twice as much to make as our selling price. They are full size and fully rigged, with leather covered open seat, heavy stirrup straps, 1⅜ inches wide; strong over rigging; wide hair cinch with leather chafes under rings; heavy wood stirrups, leather hooded. Weight, 18 pounds. Shipping weight, 27 pounds..... **$7.95**

Add extra for fenders on the stirrup straps..... $1.00

U. S. Army McClellan Saddle

10N1469¼

Built to Government Specifications.

Weight, about 18 pounds. Shipping weight, 27 lbs.

Our Very Low Price Made Possible Through the Purchase of Government Surplus.

The U. S. Army McClellan Saddle if made for us today would have to sell at $25.00 or more, on the basis of present costs of material and labor. No man or woman who rides horseback should miss this wonderful opportunity to buy one of these comfortable, easy riding, long service saddles at this bargain price..... **$5.95**

Add extra for fenders on the stirrup straps..... $1.00

Horse Collars and Sweat Pads

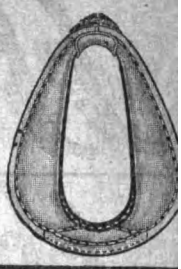
The "Weston."

1ON3405¼

Duck horse collar, heavy rim; shoulder and face well stuffed; split leather hame chafes at draft and terrets. Buckle top, leather pad. 17-inch draft. Shipping wt., 8½ pounds.

	Each		Each
17-in.	$2.10	21-in.	$2.30
18-in.	2.15	22-in.	2.35
19-in.	2.20	23-in.	2.40
20-in.	2.25	24-in.	2.45

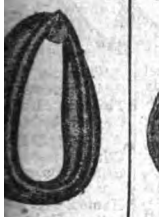
Suitable for Use in Any Part of the United States.



One kind is the same as another in all its essential points. "Proper fit" is the most important consideration in making your selection. Our collars are built on standardized collar blocks—wide blocks for horses, narrow blocks for mules. Decide of what material you wish your collars made, leather or duck, what size draft you need and how heavy a collar is the most suitable for your particular work. Be sure to give the proper measurement, as explained below, and you can then order your collars from us with confidence that they will fit your horses' necks exactly and move any load that you are accustomed to pull with any style of collar you may have used heretofore.

NOTE—The weights of horse collars and sweat pads will vary with the size. We state the shipping weight of the 20-inch size of each number.

The "Walker."



1ON3423¼

One of the best low priced leather collars with split rim and shoulder; unstuffed throat, metal top fastener with billet, leather pad; 15-inch draft; an exceptionally good value. Shipping weight, 8¼ pounds.

Open Throat Closed Top Collars.

Can be fitted close to horse's neck by tightening the hame strap and will fit the neck whether horse gains or loses weight. May be used with or without sweat pad. Collars prevent sore necks and shoulders, or if a horse has a sore shoulder or neck, collar can be set away from the sore, giving it a chance to heal while horse is stil working.

The "Werner."

The "Altman" Striped Horse Blankets.

Do not keep your horses standing uncovered in cold weather, when for a small outlay you can buy blankets that will keep them warm. These are strongly made cotton blankets, priced low, and will give remarkably good service. Color, gray with stripes.

1ON9902¼—Size, 76x76 inches. Weight, about 4 pounds. Shpg. wt., 4¾ lbs...**$1.95**

1ON9903¼—Size, 76x80 inches. Weight, about 5 pounds. Shpg. wt., 6 lbs.....**$2.59**

"Trilby" Striped Horse Blankets.

Now here's a blanket that many would, at first sight, take to be made entirely of wool, but its actual composition is wool and cotton. The warp is cotton and 65 per cent of the filling is wool. The fine weaving and workmanship, the brown ground with heading and body stripes of contrasting colors, all combine to give it a high class appearance. It is a blanket made for warmth and good service and one that we know will please you in every way.

1ON9965¼—Size, 80x84 inches. Weight, about 6 lbs. Shpg. wt., 7½ lbs... **$4.35**

1ON9966¼—Size, 84x90 inches. Weight, about 7 lbs. Shpg. wt., 8½ lbs....**$5.15**

The "Belvidere" Striped Horse Blanket $3.95 EACH

1ON9907¼
Size, 90x96 Inches.
Weight, about 9 lbs.
Shipping wt., 10 lbs.

EXTRA LARGE BLANKET FOR BIG DRAFT HORSES.

This is a large, heavy blanket, for outside use, that completely covers the horse from neck to tail and will insure his comfort in the most severe winter weather. It consists of a mixture of cotton and a very small quantity of wool and is extra well made and finished. Has a gray body with wide striped heading and body stripes. A strongly woven blanket that will withstand the hard wear and tear to which a horse blanket is generally put. We consider this a remarkable value and strongly urge its purchase to owners of big horses.

Strength is the first consideration in the making of this horse blanket. It has a heavy cotton base and is closely woven to produce good wearing quality. A strong, heavy, warm blanket of a size especially suited to the needs of owners of large horses.

Why can we make so low a price on a blanket of this size and quality? Because they are manufactured in large quantities, we buy them in large quantities and sell many thousands of them.

We highly recommend this blanket for its splendid wearing qualities. Send us your order now. You can include one or two blankets in a freight order without extra shipping expense.

A Strong, Heavy, Warm Blanket, Sure to Give Satisfaction.

The more you consider quality the more you will be impressed with our horse blanket values. Scientific merchandising with frequent laboratory tests insure unusual values.

"RICHFIELD" Horse Blankets

Made of one-fourth wool, three-fourths cotton.
One-half more than the usual number of warps increases strength.
Gray body, striped heading and body stripes.
Extra good blankets at bargain prices.

These are blankets of fine appearance. Very attractive coloring, silver gray body and colored stripes. Soft wool finish. The weaving of these blankets gives them their greatest value, that part of them that cannot at first be seen. They have a greater number of warps than is generally woven into horse blankets, so have more strength and will last longer. They are heavy, strong, durable, warm and of unusually good quality.

We highly recommend the purchase of these blankets because we believe them to be splendid values. Our low prices on blankets of this quality are possible only because of the purchase of raw materials at low cost. The demand for horse blankets of this quality was so great that we have bought an extra large quantity of both weights and guarantee absolute satisfaction to buyers of either.

Startling Horse Blanket Bargains!

Regular $5.00 Values for $3.60 and $3.95

Assorted Patterns.

Such Value Very Seldom Offered.

These are blankets of splendid quality, selling at much less than their real value. Do not judge the quality by the price, for blankets of this grade would be good value if sold as high as $5.00 each. A spot cash offer made it possible for us to buy these blankets at a very low price and offer them to you at a big saving.

Good Material and Careful Weaving.

The composition of these blankets is half wool and half cotton. They are much stronger than wool blankets, will last longer, stand harder wear and give more satisfactory service. The specifications to which they were made result in blankets of good warmth and durability. They are finely finished and the colorings are attractive. Their good quality will be proved by long service.

Satisfy Yourself, Read Our Guarantee.

Buy and examine one or more of these blankets; note especially their firm texture and their woollike finish. Put one on your horse and you will surely be pleased with its appearance. Then, if you do not agree with us in all the above statements or if you do not think it the most remarkable value you ever received in a horse blanket, return the blanket at our expense and we will send back the price you paid for it, together with the shipping charges you paid.

Steel Roofing and Siding

2½ and 1¼-Inch Corrugated Steel.

2½-INCH AND 1¼-INCH CORRUGATED SHEETS are furnished in sheets which actually measure 26 inches wide. Both have a covering width of only 24 inches on account of the side lap. When ordering, allow from 4 to 6 inches for end laps, depending upon the pitch or slant of the roof. If used for siding, a 2-inch end lap is sufficient. When ordering remember that it requires 109 square feet to cover 100 square feet of surface; this does not include the end laps.

When Ordering Always Specify Length.

We furnish two thicknesses, United States Standard 28-gauge, which is known the country over as standard weight and thickness, and United States Standard 26-gauge, which we describe as EXTRA HEAVY and which is fully 20 per cent or one-fifth heavier than standard 28-gauge. We recommend the 26-gauge in preference to the standard weight, as it costs but a trifle more, costs no more to lay and gives nearly double the wear. Steel Roofing and Siding are **shipped from our factory in CENTRAL OHIO.**

Two-V and Three-V Crimp Steel.

Two-V and Three-V Crimp Steel Roofing have a covering width of 24 inches after lapping one crimp over the other. **Requires no soldering, folding or hammering of seams or joints;** anyone who has ordinary mechanical ability can put it on.

No Soldering-The Joints Slip Together

Galvanized Steel, Rust Resisting.

WE FURNISH TWO THICKNESSES. United States Standard 29-gauge, which nown the country over as standard weight and thickness, and United States dard 26-gauge, which we describe as extra heavy and which is about 33⅓ per thicker and heavier than the standard 29-gauge. We recommend the extra heavy grade or 26-gauge in preference to the standard weight, 29-gauge, as it costs but little more, costs no more to hang and gives at least double the wear. All eaves troughs, conductor pipes and flashes are **shipped from our CHICAGO or PHILADELPHIA store.**

OUR SLIP JOINT REQUIRES NO SOLDER. No experience necessary to put up our Slip Joint Eaves Troughs and Conductor Pipes.

Patent Slip Joint Eaves Troughs.
Can Be Put Together Without Soldering Iron.

hen ordering state whether right or left hand is wanted. t hand means that the water flows to the right hand of trough; left hand that the water flows to the left end as you face the building.

HOW TO ORDER PIPE AND GUTTER

First. Be sure to state how much left hand and how much right hand Eaves Trough you need.

Second. Make a list of fittings for Eaves Troughs, such as Miters, Hangers, End Caps and Outlets. These must be the same size as the Eaves Trough.

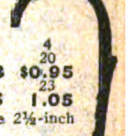
Third. State how much Conductor Pipe you will need and be sure to order the proper size to fit the Eaves Trough. **Conductor Pipe is always smaller than the Eaves Trough.** For instance, 3-inch Conductor Pipe should be used with 5-inch Eaves Trough.

Fourth. Make a list of fittings which go with Conductor Pipe, such as Elbows, Conductor Hooks, Strainers, Funnels and Cut-Offs. These must be ordered exactly the same size as Conductor Pipe.

Guaranteed Roofing See Pages 1096, 1097 and 1098.

48N3170—Wire Eaves Trough Hangers. Every 4 feet of trough requires one hanger.

Size, in.	3½	4	4½	5	6
Weight, per gross lbs.	11	14	17	19	22
Per doz.	23c	27c	30c	32c	35c



Hooks for Conductors.

48N3189—Tinned Conductor Hooks for conductor pipe.

Weight, per 100 pounds.	10	15	20
For wood, dozen	$0.56	$0.78	$0.95
Weight, per 100 pounds.	12	17	23
For brick, dozen	.65	.85	1.05

Two-inch corrugated conductors require 2½-inch hooks.

Tarred Felt-Building Paper-Deadening Felt

Tarred Felt—Used for Sheathing or General Building Purposes.

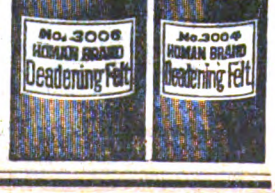
Tarred Felt is one of the best kinds of building paper for lining floors and for use between sheathing and siding. Can be used under stucco and brick veneers. It is also used for gravel roofs. **It is made of carefully selected felt, thoroughly saturated with redistilled low heat American coal tar.**

48N3050—TARRED FELT. We recommend this for all first class jobs, because it is the thickest. Used extensively for roofing sheds and temporary buildings. It makes an excellent deadening felt and should be used under all floors where a good job is wanted.

48N3054—TARRED FELT, medium thickness. This thickness of tarred felt is also used for gravel roofing where several layers are specified. It is a lighter weight (not so thick), and where a medium grade of work is required a 48N3054 Tarred Felt will be found very satisfactory.

48N3055—TARRED FELT. This thickness of felt is made with the same care as the two heavier grades, but is much thinner.

Catalog No.	Weight, Per Roll	Number of Sq. Ft. to Roll	W'th, In.	Per Roll
48N3050	60 lbs.	250	32	$1.90
48N3054	60 lbs.	400	32	
48N3055	60 lbs.	500	32	



Homan Brand Deadening Felt.

Deadening Felt is used to deaden the sound between floors and in walls. It is made of a good grade of felt, soft and pliable, and will add much to the warmth of your building. Homan Brand Deadening Felt should be under every floor.

Prices of Homan Brand Deadening Felt.

	Brand	Weight, per Square Yard	Width, Inches	Approximate, Wt.	Per Roll
8N3004	Homan	1 pound	36	50 pounds	$2.25
8N3006	Homan	1½ pounds	36	75 pounds	3.35

About 50 square yards to the roll.
All shipped from CHICAGO or PHILADELPHIA store.

Red, Rosin Sized Building Paper.

85c and $1.65 Roll.

Red, Rosin Sized Building Paper should be used under siding and between floors to exclude wind and moisture. It is rosin sized. We sell two different weights of this paper. We recommend our **Leader Brand,** as it is of sufficient thickness to give entire satisfaction.

Our Competition Brand is a fair grade, light in weight, and runs 20 pounds to the roll.

	Brand	Weight, Pounds	Width, Inches	Per Roll
48N3000	Leader	40	36	$1.65
48N3007	Competition	20	36	.85

All rolls contain 500 square feet.
All shipped from CHICAGO or PHILADELPHIA store.

Fire Chief Shingle Roll Roofing

Makes Fire Resisting Roofs

(OUR OWN TRADE MARK REGISTERED IN U. S. PATENT OFFICE.)

APPROVED BY FIRE UNDERWRITERS

BEAUTIFUL DARK RED AND SEA GREEN COLORS

TWO-INCH WATER-TIGHT LAP JOINT - PATENTED

GUARANTEED **17** YEARS

AVERAGE WEIGHT **90** POUNDS

LOOKS LIKE PAINTED RED OR GREEN WOOD SHINGLES, but costs less than half as much. Wears practically twice as long and does not catch fire from flying sparks. Fire-Chief Shingle Roll Roofing does not have the defects, such as curled or warped shingles, so often found in wood shingles. Made of heavy roofing felt, **imported asphalt** and genuine crushed slate.

THE PATTERN is made of real red or green crushed slate, with black shaded lines inlaid between shingles, is permanent and beautiful.

RESISTS FIRE. Fire-Chief Shingle Roll Roofing actually resists fire.

EXCLUDES SNOW AND WATER BETTER THAN WOOD SHINGLES. Fire-Chief Shingle Roll Roofing is airtight and watertight.

WARMER THAN WOOD SHINGLES and helps make the house warmer. Can be used over old shingles, giving double roof protection.

IT PAYS TO BUY GOOD ROOFING because it has to stand the hardest weather conditions.

WEARING QUALITY FULLY TESTED. The formula and process for making Fire-Chief Shingle Roll Roofing have been in use for years. It has been put to the most severe tests. Roofing laid sixteen years ago is practically as good as the day it was laid. It is an imported asphalt roofing that defies heat, cold, rain and snow.

We have made THIS THE HEAVIEST, THICKEST, STRONGEST AND MOST BEAUTIFUL of all our roofings. Each roll weighs 90 pounds.

ROLLS contain 108 square feet, 32 inches wide and 40 feet 6 inches long, 8 square feet allowed for 2-inch laps, and will cover 100 square feet. In one piece.

Insist on Galvanized Roofing Nails With Large Heads.

Furnished free with Fire-Chief Roofing. Price includes plenty of cement for joints.

CEMENT AND GALVANIZED 1-INCH NAILS INCLUDED.

48N3320—Red.

48N3321—Sea Green.

$3.25 Per Roll 108 Sq. Ft.

Shipped from CHICAGO, ILL., PHILADELPHIA, PENNA., ALBANY, N. Y., SOUTHERN OHIO, KANSAS CITY, MO., ATLANTA, GA., or ST. PAUL, MINN.

Be SURE to ask for long nails if this roofing is to be used over old shingles and allow 10 cents per roll extra.

IMPORTANT—No matter how thick the roofing is or how good the quality, the "leak proof" quality depends upon a **tight lap joint.** Where slate and pebbles lay between the two layers of roofing at the joint, joints will loosen up and leak, causing an imperfect roof. Oriental and Fire-Chief Roofing is only furnished one way, that is, with a tight lap joint.

Bear Hide Roofing

Good Roofing at a Low Price

35 POUNDS **$1.30** PER ROLL

(Bear-Hide Is Our Own Trade Mark, Registered in U. S. Patent Office.)

Bear-Hide Asphalt Roofing is STRONG, TOUGH and DURABLE. Made of good grade materials—felt and asphalt—no tar or other low grade ingredients being used. Comes in standard weights, 35, 45 and 55 pounds to the roll.

This roofing is a superior quality of standard asphalt roofing. It is easy to lay, looks well on the roof and will last for an indefinite period. It looks nearly as good as our GUARANTEED BEST-OF-ALL ROOFING and you can be assured that Bear-Hide Roofing will give you the maximum wear and service, price considered.

If you want a still better quality roofing, guaranteed for long service, buy our Best-of-all, Oriental Slate Surfaced Roofing, listed on pages 1098 and 1097, or Fire-Chief Slate Surfaced Shingle Roll Roofing, listed above.

Bear-Hide Asphalt Roofing has been adopted by us to prove to our customers that a good roofing can be sold at a reasonable price. It has been our aim in the manufacture of our different brands of roofing to make them so good in every way, so thick, so heavy and so durable that people everywhere would not hesitate to use them on the better class of buildings. The great POPULARITY OF OUR GUARANTEED ROOFINGS is the result of this policy. Bear-Hide Asphalt Roofing for $1.30 to $2.00 a roll is second only to our very highest grades. **Bear-Hide Roofing is BETTER than most smooth finish roofings sold throughout the country, but if you want the BEST turn to page 1098 and order our BEST-OF-ALL ROOFING.** Rolls 32 inches wide and contain 108 square feet; covering surface 100 square feet. Galvanized nails and cement included.

Prices for Standard Grades Bear-Hide Roofing. Shipped from CHICAGO, ILL., PHILADELPHIA, PENNA., LOCKPORT, N. Y., ALBANY, N. Y., KANSAS CITY, MO., or SOUTHERN OHIO.

Standard Grades	48N41	Light	35 lbs.	$1.30 per roll.
	48N42	Medium	45 lbs.	1.70 per roll.
	48N43	Heavy	55 lbs.	2.00 per roll.

Imported Long Fiber Asphalt Is Used in Our Best Grades of Roofing.

Oriental Slate Surfaced Roofing

Sold Only by SEARS, ROEBUCK and CO.

"You Can Lay It Yourself"

IMPORTANT—No matter how thick the roofing is, or how good the quality, the "leakproof" quality depends upon a **tight lap joint.** Where slate and pebbles lie between the two layers of roofing at the joint, joints will loosen up and leak. Oriental Roofing is only furnished with a tight lap joint.

Guaranteed 17 Years

85 to 90 Lbs

TWO-INCH WATER-TIGHT LAP JOINT

Furnished in Red or Green

Experts Say This Is the Finest Material They Ever Handled

Will Outwear Its Guarantee.

ORIENTAL SLATE SURFACED ROOFING never fades or loses its pleasing colors. Never needs paint. **IT IS EXTRA HEAVY, EXTRA STRONG AND EXTRA DURABLE.** A beautiful roofing for all purposes. **APPROVED BY FIRE UNDERWRITERS** and **GUARANTEED BY US FOR SEVENTEEN YEARS.**

MADE OF HIGH QUALITY WATERPROOF AND FIRE RESISTING MATERIAL—heavy roofing felt, IMPORTED ASPHALT and **GENUINE CRUSHED SLATE.** Gives better protection than wood shingles. Thousands of delighted customers in **EVERY STATE IN THE UNION** recommend it for fine appearance and long wear. Rain only washes it clean and renews the beautiful colors. It is snowproof and sunproof.

PROTECT YOUR HOUSE FROM FIRE. Sparks from a train or a chimney may destroy a wood shingled building at any moment. Oriental Slate Surfaced Roofing protects your roof from this danger.

Each roll weighs 85 to 90 pounds and is 32 inches wide and contains 108 square feet all in one piece. Will cover 100 square feet of roof surface, a space 10 feet by 10 feet. Large headed 1-inch **GALVANIZED** nails and cement for laps furnished without extra charge. Suitable for any roof with a pitch of 1½ inches or over to the running foot.

GEORGE C. NIMMONS & COMPANY
ARCHITECTS

Sears, Roebuck and Company:

We examined the Oriental Roofing on the Club House adjacent to your Store. This roofing has been in place for 11 years and is in excellent condition. It shows no signs of having leaked, buckled, cracked or melted.

We believe it will give good service many years. Your guarantee of seventeen years is very conservative.

GEORGE C. NIMMONS & CO.

GNC:W

Oriental Shingles Will Not Curl or Raise in Wind

Guaranteed 17 Years—"You Can Lay Them Yourself."

Made of same HIGH GRADE materials as Oriental Slate Surfaced Roofing, described above, excepting that Oriental Shingles are made with an EXTRA HEAVY felt base and given a heavier coating of SPECIAL IMPORTED ASPHALT that stiffens the shingles so they will lie perfectly flat in the wind.

Require no paint and can be laid with less expense than wood shingles. Can be laid over old shingles or on roof boards, even if boards are from 1 to 2 inches apart. Each shingle, 8x12¾ inches. We recommend the APPROVED SHINGLES, 48N2926 and 48N2927. One bundle will cover 25 square feet of roof surface when laid 4 inches to the weather. **Shipped from CHICAGO, ILL., PHILADELPHIA, PENNA., LOCKPORT, N. Y., or SOUTHERN OHIO.**

Approved by National Board of Underwriters.

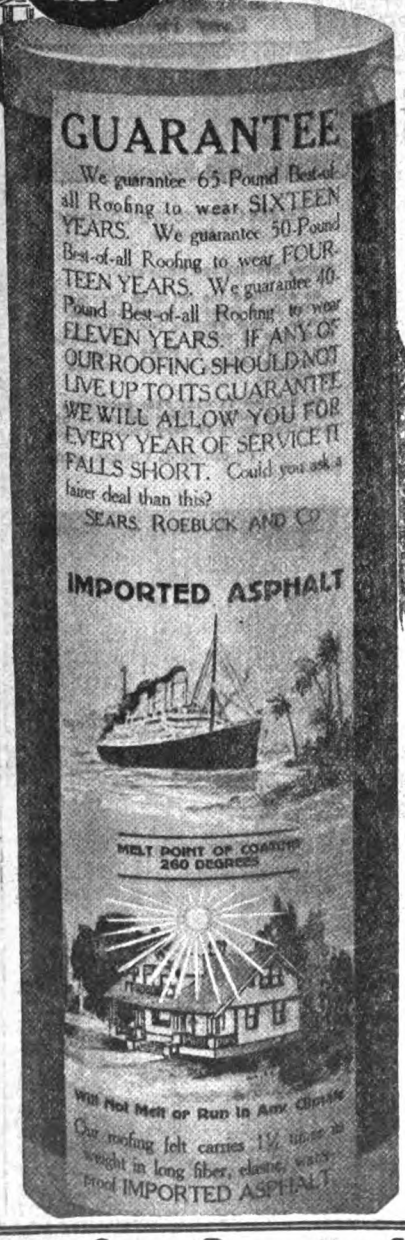
Imported Asphalt-Mica Coated



Best-Of-All Roofing

Sold Only by Us

"You Can Lay It Yourself."

Guaranteed 16 Years

65 LBS.

Roofing Experts Say This Is THE BEST SMOOTH FINISH ROOFING MADE.

Due to its lasting qualities it will prove the most economical roofing for you to buy, if you want a smooth finish roofing.

It is manufactured from the highest grade materials we can purchase in the world's markets.

Cannot Melt in the Hottest Climate.

The imported long fibered asphalt used in the coating of Best-of-all Roofing has a melting point of about 260 degrees heat. This means that in the hottest climate, Best-of-all Roofing cannot evaporate or melt. The life of the waterproofing remains even longer than our guarantee.

The thick, heavy roofing felt used in our guaranteed roofing is the highest grade obtainable for the purpose. It will absorb more asphalt and retain it more effectively than inferior grades of felt used in such roofing as our Composition Roofing, shown at the bottom of this page.

Best-of-all Roofing is made according to our own formula. The blending of the imported asphalt compound and by actual test has worn longer than the years specified in our liberal guarantee. It is tested for thickness, weight, flexibility, strength and quality before it leaves the factory. For these reasons **we guarantee our extra heavy 65-pound Best-of-all Roofing to wear sixteen years.**

Best-of-all Roofing will outwear wood shingles, tin, tar or steel roofing. It has stood the test in all climates. It is rainproof, snowproof, sunproof, elastic, pliable and tough. No danger of cracking. It is free from odor and will not discolor rain water. You can lay this roofing yourself. Suitable for any roof with a pitch of 1½ inches or more per running foot. It is **double coated** with an imported elastic compound with a beautiful mica finish and **needs no paint.**

The same high grade imported asphalt compound and thick, heavy felt with extra absorbing quality are used in our Oriental and Fire-Chief Slate Surfaced Roofings, illustrated and described on the preceding pages. **Each roll of Best-of-all Roofing contains 108 square feet and will cover 100 square feet, 8 square feet being allowed for 2-inch laps. Rolls are 32 inches wide.**

$2.60 PER ROLL	**$2.05** PER ROLL	**$1.65** PER ROLL

Shipped from CHICAGO, ILL., PHILADELPHIA, PENNA., ALBANY, N. Y., ST. PAUL, MINN., KANSAS CITY, MO., ATLANTA, GA., LOCKPORT, N. Y., or SOUTHERN OHIO.

LONG NAILS furnished to lay roofing over wood shingles 10c per roll extra.

Insist on Galvanized Nails.

We furnish free with every roll of Best-of-all Roofing plenty of large headed galvanized nails (which does away with the use of the tin cap), plenty of waterproof cement for lapping the edges and seams. The nails, being galvanized, will never rust.

The heavier weights, namely, 4-ply and 5-ply, are recommended when roofing is to be used over open gables. Unless properly constructed otherwise we will send ½-in. galvanized nails. Be sure to ask for nails when roofing is to be used over old shingles.

Composition Roofing

"You Can Lay It Yourself."

Composition Roofing sold by us for the purpose of meeting the needs of those who want a cheap roofing because it is low in price and who are particular about the following qualities. While we guarantee our other roofings for sixteen years, we hesitate to recommend or guarantee Composition Roofing for this period because it does not contain the high grade asphalt and felt such as are found in our Best-of-all Roofing, Oriental Slate Surfaced Roofing and Fire-Chief Slate Surfaced Shingle Roofing.

The So-Called "Rubber Roofing." Smooth Finish One Side—Sand Finish Other Side. The "rubber" referred to in the description of this roofing is merely the trade name for a mineral substance that looks like rubber and feels like rubber.

OUR POLICY—Roofing which is recommended to wear a given time as in connection with our prices is backed by our binding guarantee. If it should last the full length of time we claim it should wear, our guarantee assures complete protection to the purchaser. WE CAN MAKE NO CLAIMS AS TO LENGTH OF TIME COMPOSITION ROOFING WILL WEAR, but we know it is a good bargain at the price we quote. Composition Roofing is finished one side with a smooth coating, and on the other with a coating of fine sand. This roofing may be used with either side up, according to the wishes of the purchaser.

Furnished complete with ⅞-inch nails and cement inside the rolls. Shipped from warehouses in CHICAGO, ILL., PHILADELPHIA, PENNA., ALBANY, N. Y., KANSAS CITY, MO., or SOUTHERN OHIO.

THIS CATALOG CONTAINS 5[illegible] BUILDING BARGAINS

Glazed storm sash and storm doors are [illegible] this page, to enable you to order them without [illegible] for our special catalog. You can safely order your [illegible] ments of storm sash and storm doors from this [illegible] as the prices shown are our lowest prices.

If you are building on a large or small scale, and [illegible] building material and mill work, then send for this [illegible] A postcard stating, **"Send me your Building Ma[illegible] and Mill Work Catalog, 543GCN,"** will bring it by return mail.

GLAZED STORM SASH

Made of **clear soft pine**, in a most substantial manner. High grade window glass is carefully secured with good putty and points furnished unfinished "in the white."

Size of our sash is sufficient to allow for trimming. In some cases a little trimming would avoid the necessity of ordering special sizes. In ordering give number in catalog of the storm sash wanted and the exact size of opening and we will send you sash which may be trimmed to fit.

WHEN ORDERING BE SURE TO GIVE WIDTH FIRST

TWO-LIGHT STORM SASH

Two-Light Storm Sash, 1⅛ inches thick. Carried in stock in the following sizes. Ventilators, 15 cents each, extra. Prices do not include ventilators.

Sizes not priced are not carried in stock.

Sunbeam Radiant Gas Heater

Attractive—Ornamental—Efficient.

Add to the attractiveness and comfort of your home with this beautiful Gas Heater. Thousands of them in use. Absolutely safe and perfectly odorless.

Furnished with a valve connection underneath, not at one side, a big advantage for fireplace use. The heaters have ten individual tubes, 7½ inches high. These tubes are pure white clay mantels and set over each burner. When the heater is lighted the tubes become red hot. Nickel plated reflector at base of tubes throws a deep red glow about the room. The tubes or mantels are held in place by a rod which is placed across the top, and the bottoms are held in place by the burners. This prevents them from falling out. This heater is guaranteed to burn without back flashing and the white clay tubes will not discolor with use.

Burns on low pressure gas. Creates instant heat. Will consume only 1 cent worth of gas per hour at the average cost of gas. In addition to its use as a heater out in the room, it makes a very attractive fireplace grate when set in the fireplace opening. Furnished with drilled burner for natural gas or machined burner with a specially arranged mouthpiece and special valve for artificial gas.

Heater is 22 inches wide; 23 inches high; and 7 inches deep, over all. Shipping wt., 70 pounds. Furnished in antique brass plated finish. **Shipped from factory in OHIO.**

HONOR BILT Already Cut HOME

$2,055.00 Five Rooms, Bath, and a fine, large Porch. The price includes all **$30.00 A MONTH**

the material specified with no extras for you to buy. Can be built on a lot 32 feet wide. At a small extra cost this can be made an 8 Room house by building 3 Rooms on 2nd floor.

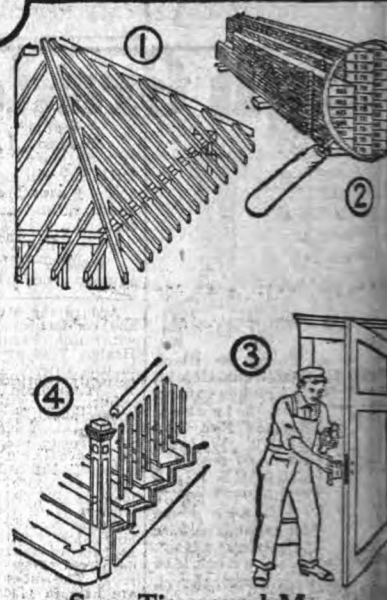
"HONOR BILT"

System Saves 40 Per Cent Carpenter Labor

Our homes are furnished Already Cut and Fitted, according to our "HONOR BILT" SYSTEM. Our new Book of "HONOR BILT" Modern Homes contains certified details of this saving, with photographs, affidavits, etc.

One Order Brings It All.

When you purchase a house from us you dispose of the entire transaction in a few minutes. On receipt of your order we ship at factory prices the following materials:



Lumber	Building Paper
Lath	Porch Material, Etc.
Mill Work	Hardware
Such as:	Nails
Doors	Eaves, Trough
Windows	Down Spout
Molding	Paint and Varnish
Flooring	Medicine Case

Shingles or Roofing as specified.

At your option: Steam Heating, Furnace Heating, Plumbing Outfit, Electric Wiring, Gas and Electric Fixtures, Wall Paper and Electric Lighting Plants.

Shingles or Fire Chief Shingle Roll Roofing as specified.

No need to shop about in a dozen places.

Save Time and Money.

1—Note the notches and miters. No use for a saw here.
2—Pieces numbered to correspond with plans.
3—Doors mortised for locks.
4—Every piece cut to fit. A most difficult job made easy.

The illustration at the left shows how well an "HONOR BILT" Home is constructed. Note the double plates over windows with the double studdings at the sides. Three studs at the corners give additional strength. Double floors with heavy building paper between insures against drafty floors.

Yet with this extra heavy construction you can save as high as 40 per cent on the labor.

Compare construction when you compare price.

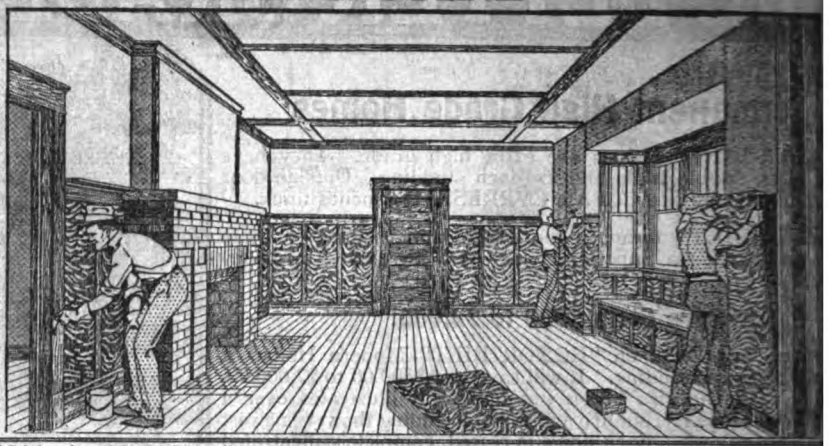
PEERLESS WALL BOARD



Peerless Wall Board.

About 4½ Cents per Square Foot.

Made of three layers of heavy cardboard cemented together by two layers of asphalt, which helps make it dampproof and prevents rats and mice from gnawing through. It is used instead of plaster, and can be applied by anyone. Comes in three finishes—plain light brown, quarter sawed oak and Circassian walnut. Plain finish wall board **CAN BE PAINTED ANY COLOR.** Fine for basements or attics and for dividing large rooms into small ones.

You save time when wall board is used instead of lath and plaster. The carpenter can put on the trim and the painter can apply the stain or varnish to it while the wall board is being put on—three operations going on at about the same time **without any muss or dirt.** No waiting, **no dampness.** You can put on this wall board right over the studding or apply it to old plaster if you wish. Can be sawed and solidly nailed without danger of splitting. Wall board is furnished in sheets from 8 to 12 feet long, each sheet being 32 inches wide and about 5/16 inch thick. We sell Joint Tape in all three finishes to cover the joints, but we recommend the wood panel strips for rooms where a fine effect is desired. Packed in wood crates, guaranteed to reach you in good condition. **Shipped from factory in SOUTHERN OHIO only. When ordering give lengths of sheets for side walls and ceilings.**

PRICES OF PEERLESS WALL BOARD.

48N2952—Walnut Finish.	Per 100 feet	(Shpg. wt., 8 oz.)

GOODWALL SHEET PLASTER

Fire Resisting, Clean, Inexpensive, Lasting, Easy to Apply.

Goodwall Sheet Plaster is a fire resisting gypsum rock composition plaster of even thickness between two sheets of heavy cardboard. These cardboards are so saturated with the fire resisting gypsum composition that they make Goodwall Sheet Plaster far more fire resisting than regular lath and plaster. It comes in sheets 32x36 inches, and long sheets for panel work, and takes the place of regular lath and plaster at less cost and with less labor.

Illustration at left shows Goodwall Sheet Plaster applied to studding. It can be given a coat of our specially prepared Hard Plaster Finish, which will give same result as lath and plaster job. It can also be wall papered without the use of Hard Plaster Finish by using Joint Tape over the joints. (See above.) For best results we recommend a 3/16-inch coat of Hard Plaster for first coat and ⅛ of an inch Top Coat Finish for second coat. You will then have fire resisting walls, which can be tinted any desired color or decorated like any other wall.

Actual Thickness ⅜-Inch Sheet

Prices of Goodwall Sheet Plaster.

Quick Delivery at Low Freight Charges From Four Shipping Points: Grand Rapids, Mich., Oakfield, N. Y., Fort Dodge, Iowa, and Gypsum, Ohio.

Order by Catalog No. 48N3027

Size, In.	Thickness, In.	Sq. Ft., per Sheet	Shpg. Wt., Crated, per Sheet	Per Sheet
32x 36	5/16	8	14 lbs.	$0.23
32x 48	⅜	10⅔	23 lbs.	.52
32x 72	⅜	16	34 lbs.	.86
32x 84	⅜	18⅔	40 lbs.	1.00

48x108	⅜	36	77 lbs.	1.94
48x120	⅜	40	86 lbs.	2.15

Above to the right is illustrated a piece of Goodwall Sheet Plaster in actual thickness of the ⅜-inch sheets.

The large sheets can be used same as any wall board, without the use of plaster finish.

READ ABOUT ITS MANY ADVANTAGES.

It enables you to do a better job for less money and can be applied by yourself.

It is equal in service and strength to a lath and plaster wall.

It does away with lath stains and hair cracks.

It deadens sound as effectively as lath and plaster.

It is vermin proof and can be painted, papered or kalsomined.

It can be covered with a paper coat of any thickness, but 3/16 of an inch hard plaster for first coat and ⅛ of an inch top coat finish for second coat will be sufficient to make a smooth and seamless wall.

It is dry. No need to wait for weeks to drive the dampness out.

It is clean. No muss and dirt when you apply it.

It is strong. Send for a sample and try to break it with your hands.

It cuts out cost of lath; none needed with Goodwall Sheet Plaster.

It will not break when being nailed.

It can be cut with a saw, or broken with a clean edge by scoring the cardboard on both sides with a knife, breaking where scored.

SPECIALLY PREPARED HARD PLASTER.

(For first coat.)

Shipped in good strong bags with Sheet Plaster. Quantity required to cover 100 square feet, 3/16-inch coat, 150 pounds.

Shipped from Grand Rapids, Mich., Oakfield, N. Y., Fort Dodge, Iowa, Gypsum, Ohio.

48N2999—Per 100-pound bag.....

SPECIALLY PREPARED TOP COAT PLASTER.

(For second coat.) Shipped in good strong bags with Sheet Plaster. Light gray is just what you need if you are going to decorate over it. If you want a real white finish, use our white top coat, listed below, instead.

Quantity required to cover 100 square feet, ⅛-inch coat, 50 pounds. **Shipped from Grand Rapids, Mich., Oakfield, N. Y., Fort Dodge, Iowa, Gypsum, Ohio.**

48N2998—Gray Top Coat. Per 100-lb. bag.....

48N2997—White Top Coat. Per 100-lb. bag.....

Nails—One pound will be required for 16 sheets of Goodwall Sheet Plaster, 32x36 inches. Ordinary 3-penny nails can be used, placed not more than 4 inches apart.

Competition Brand Blue Plaster Cardboard.

We have an occasional call for a cheaper grade of Blue Plaster Cardboard, and while we do not recommend the use of "B" grade material, we can furnish it. We would by all means recommend that you buy our Fulton Brand "AA" Grade Blue Plaster Cardboard. **Shipped from our CHICAGO or PHILADELPHIA store.**

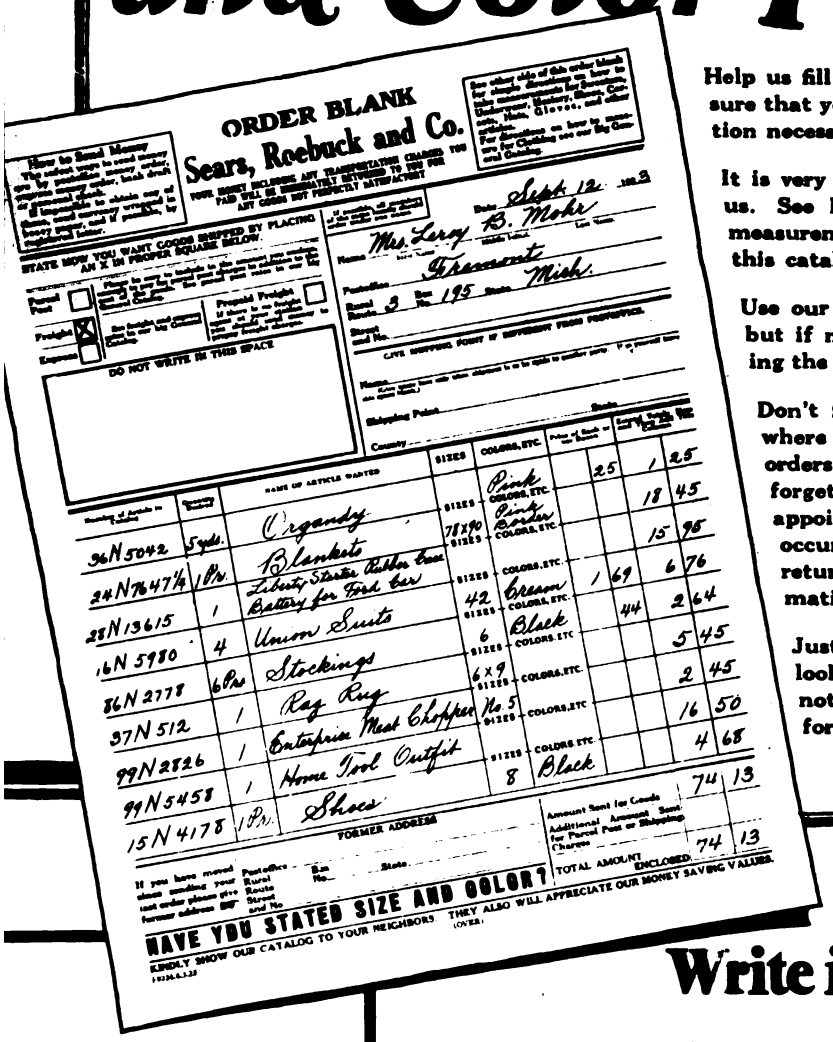
BLUE PLASTER CARDBOARD

Just a little more than one-half of a cent a square foot for our Fulton Brand Blue Plaster Cardboard. This material is being used very extensively in camps, cottages, bungalows, etc., as a cheap material to take the place of lath and plaster. Wall paper may be used over it, or by covering the seams with one-half round molding or flat panel strips a very neat paneled effect may be had. See illustration.

Fulton Brand Blue Plaster Cardboard is light weight cardboard, less than 1/16 of an inch in thickness, made only in AA grade from carefully selected stock and makes a sheet strong and durable. In color it is a pleasing shade of blue. It is put on with an ordinary large headed tack. If Blue Plaster Cardboard is to be covered with wall paper, we recommend that a narrow strip of cheesecloth be pasted over all joints. This prevents the wall paper from cracking at the seams. For sheathing purposes it would be hard to obtain a stronger or tougher material for the purpose than our Fulton Brand Blue Plaster Cardboard.

Rolls are 36 inches wide. Shipped from CHICAGO or PHILADELPHIA store. It can be included with your order for wall paper or other merchandise.



Catalog No.	Number of Square Feet, per Roll	Weight, Pounds	Per Roll

HAVE YOU STATED SIZE AND COLOR?

KINDLY SHOW OUR CATALOG TO YOUR NEIGHBORS THEY ALSO WILL APPRECIATE OUR MONEY SAVING VALUES

Help us fill your order promptly by making sure that you have given us all the information necessary, such as SIZE and COLOR.

It is very simple to order any goods from us. See how to order and how to take measurements on pages 618 and 619 of this catalog

Use our order blanks if you have them, but if not, use any plain paper, following the simple plan outlined on page 619.

Don't forget to give SIZE and COLOR where necessary. Quite a number of orders are delayed because customers forget to do this. It is a big disappointment to us and to you if this occurs, because the order has to be returned to get the necessary information before it can be filled.

Just before mailing your order look it over to see that you have not forgotten to give us such information as SIZE and COLOR.

We Guarantee

that each and every article in this catalog is exactly as described and illustrated.

We guarantee that any article purchased from us will satisfy you perfectly; that it will give the service you have a right to expect; that it represents full value for the price you pay.

If for any reason whatever you are dissatisfied with any article purchased from us, we expect you to return it to us at our expense.

We will then exchange it for exactly what you want, or will return your money, including any transportation charges you have paid.
